Reification Or The Anxiety Of Late Capitalism:

Reification Timothy Bewes,2002-12-17 Reification is the process by which human experience and action is transformed into a sort of object separated from human reality and was identified by Karl Marx as being a natural outgrowth of capitalist accumulation The concept has recently fallen into analytical disrepute partly because the concept of reification is itself reifying argues Bewes Brown U He revisits concepts of reification in the works of Marx Adorno Fanon Lukacs and others seeking to resolve theoretical problems thrown up by the idea The theory presented here is an attempt to resolve the theory of reification with its obsolescence Annotation copyrighted by Book News Inc Portland OR [The Carol J. Badly Michael Billig,2013-06-20 Modern academia is increasingly competitive yet the writing style of social scientists is routinely poor and continues to deteriorate Are social science postgraduates being taught to write poorly What conditions adversely affect the way they write And which linguistic features contribute towards this bad writing Michael Billig s witty and entertaining book analyses these questions in a quest to pinpoint exactly what is going wrong with the way social scientists write Using examples from diverse fields such as linguistics sociology and experimental social psychology Billig shows how technical terminology is regularly less precise than simpler language He demonstrates that there are linguistic problems with the noun based terminology that social scientists habitually use reification or nominalization rather than the corresponding verbs reify or nominalize According to Billig social scientists not only use their terminology to exaggerate and to conceal but also to promote themselves and their work [Recovering the Later Georg Lukács](#) Matthew J.

Smetona,2023-04-25 New resources for the critique of capitalism in culture from the late writings of Georg Luk cs one of the first authors in the tradition of Western Marxism The Hungarian literary critic philosopher and Marxist social theorist Georg Luk cs is best known for his 1923 History and Class Consciousness in which he offered an influential critique of reification from the standpoint of a dialectical conception of totality While Luk cs s early works have been central to the study of Marxist thought his later works have often been dismissed as political accommodations to Stalinism In this new study Matthew Smetona argues for a revisionist interpretation of Luk cs s later writings on topics as diverse as aesthetics politics and ontology Smetona demonstrates that these writings reveal a methodological unity that follows directly from History and Class Consciousness in which realism in both literary and extraliterary senses becomes the basis for the critique of reification As Luk cs had demonstrated reification is that process by which the social relations between persons seem to take on the character of a thing Rooted in Marx s concept of commodity fetishism the critique of reification proved in Luk cs s hands to be a flexible tool capable of clarifying all manner of obfuscations that arise within the social relations that capitalism produces To recover the later work of Luk cs is to open up new horizons for Marxist cultural criticism **The Radical**

Kottman, 2017-04-03 Philosophers working on aesthetics have paid considerable attention to art and artists of the early modern period Yet early modern artistic practices scarcely figure in recent work on the emergence of aesthetics as a branch of philosophy over the course the eighteenth century This book addresses that gap elaborating the extent to which artworks and practices of the fifteenth through the eighteenth centuries were accompanied by an immense range of discussions about the arts and their relation to one another Rather than take art as a stand in for or reflection of some other historical event or social phenomenon this book treats art as a phenomenon in itself The contributors suggest ways in which artworks and practices of the early modern period make aesthetic experience central to philosophical reflection while also showing art's need for philosophy **Georg Lukács's Philosophy of Praxis** Konstantinos Kavoulakos, 2018-09-20 Georg

Lukács early Marxist philosophy of the 1920s laid the foundations of Critical Theory. However, the evaluation of Lukács' philosophical contribution has been largely determined by one-sided readings of eminent theorists like Adorno, Habermas, Honneth, or even Lukács himself. This book offers a new reconstruction of Lukács' early Marxist work, capable of restoring its dialectical complexity by highlighting its roots in his neo-Kantian pre-Marxist period. In his pre-Marxist work, Lukács sought to articulate a critique of formalism from the standpoint of a dubious mystical ethics of revolutionary praxis. Consequently, Lukács discovered a more coherent and realistic answer to his philosophical dilemmas in Marxism. At the same time, he retained his neo-Kantian reservations about idealist dialectics. In his reading of historical materialism, he combined non-idealist, non-systematic historical dialectics with an emphasis on conscious, collective, transformative praxis. Reformulated in this way, Lukács' classical argument plays a central role within a radical Critical Theory.

Studies in Symbolic Interaction Norman K. Denzin, 2009-10-01. Divided into four parts, this title examines commodity, racism, representation, racialization, and resistance. It presents the interpretive works in the interactionist tradition. It features the essays which interrogate the intersections between biography, media, history, politics, and culture.

Reading the Difficulties Thomas Fink, Judith Halden-Sullivan, 2014-02-28. Definitions of what constitutes innovative poetry are innumerable and are offered from every quarter. Some critics and poets argue that innovative poetry concerns free association. John Ashbery, others that experimental poetry is a re-staging of language. Bruce Andrews, or a syntactic and cognitive break with the past. Ron Silliman and Lyn Hejinian. The tenets of new poetry abound. But what of the new reading that such poetry demands? The essays in *Reading the Difficulties* offer case studies in and strategies for reading innovative poetry. They allow readers to interact with verse that deliberately removes many of the comfortable cues to comprehension: poetry that is frequently non-narrative, non-representational, and indeterminate in subject, theme, or message.
