Reinventing Community Stories From The Neighborhoods Of Cohousing:

Reinventing Community David Wann, 2010 Human beings are not meant to live alone or in isolated nuclear family arrangements. We do best in community. But in a few short generations we've lost many of the social skills necessary for successful community living. The folks in *Reinventing Community* are the vanguard for the future; they're learning today what it takes to go beyond the solitary and alienated survival tactics of modern urban life to the full flowering of the human spirit of tomorrow. Eric Utne, founder of Utne magazine and editor of *Cosmo Doogood's Urban Almanac*. Cohousing began in Scandinavia in the 1960s as a response to a feeling of isolation within typical suburban communities where you don't know your neighbor nor can you rely on their assistance, not even for a cup of sugar. Cohousing spread to the United States in the 1980s and there are now several hundred such communities throughout the country in more than thirty states. *Reinventing Community* is the first cohousing anthology that tells real world stories from the perspectives of the unique people who live in these communities, whether they be in urban, suburban, or rural settings. Unlike the few how-to guides in the marketplace today, this book details the lives of these close-knit groups of caring and active neighbors who enjoy their own privacy yet also share a wonderful sense of camaraderie and connection. Exploring everything from planning a cohousing community to moving in, to the joys and challenges of daily life, *Reinventing Community* shares with its readers a sense of what it takes to build a true community in our often detached and disengaged modern world. **Communes in America, 1975-2000**

Timothy Miller, 2019-03-26 *Communes in America 1975-2000* is the final volume in Miller's trilogy on the history of American intentional communities. Providing a comprehensive survey of communities during the last quarter of the twentieth century, Miller offers a detailed study of their character, scope, and evolution. Between 1975 and 2000, the American communal experience evolved dramatically in response to social and environmental challenges that confronted American society as a whole. Long-accepted social norms and institutions—family, religion, medicine, and politics—were questioned as the divorce rate increased, interest in spiritual teachings from Asia grew, and alternative medicine gained ground. Cohousing flourished as a response to an increasing sense of alienation and a need to balance community and private lives. At the same time, Americans became increasingly concerned with environmental protection and preservation of our limited resources. In the face of these social changes, communal living flourished as people sought out communities of like-minded individuals to pursue a higher purpose. Organized topically, each chapter in the volume provides basic information about various types of communities and detailed examples of each type, from ecovillages and radical Christian communities to pagan communes and cohousing experiments. Miller also takes a step back to look at the prevalence of communal living in American life over the twentieth century. Based on exhaustive research, Miller's final volume provides an indispensable survey and guide to understanding utopianism's enduring presence in American culture. *Shared Housing, Shared Lives* Sue Heath, Katherine Davies, Gemma Edwards, Rachael Scicluna, 2017-10-25 With a growing population, rising housing costs, and housing providers struggling to

meet demand for affordable accommodation more and more people in the UK find themselves sharing their living spaces with people from outside of their families at some point in their lives Focusing on sharers in a wide variety of contexts and at all stages of the life course *Shared Housing Shared Lives* demonstrates how personal relationships are the key to whether shared living arrangements falter or flourish Indeed this book demonstrates how issues such as finances domestic space and daily routines are all factors which can impact upon personal relationships and wider understandings of the home and privacy By directing attention towards people and relationships rather than bricks and mortar *Shared Housing Shared Lives* is essential reading for students and researchers in fields such as sociology housing studies social policy cultural anthropology and demography as well as for researchers and practitioners working in these areas

Finding Community Diana Leafe Christian, 2007-05-01 Finding community is as critical as obtaining food and shelter since the need to belong is what makes us human The isolation and loneliness of modern life have led many people to search for deeper connection which has resulted in a renewed interest in intentional communities These intentional communities or ecovillages are an appealing choice for like minded people who seek to create a family oriented and ecologically sustainable lifestyle a lifestyle they are unlikely to find anywhere else However the notion of an intentional community can still be a tremendous leap for some deterred perhaps by a misguided vision of eking out a hardscrabble existence with little reward In fact successful ecovillages thrive because of the combined skills and resources of their members *Finding Community* presents a thorough overview of ecovillages and intentional communities and offers solid advice on how to research thoroughly visit thoughtfully evaluate intelligently and join gracefully Useful considerations include Important questions to ask of members and of yourself Signs of a healthy and not so healthy community Cost of joining and staying Common blunders to avoid *Finding Community* provides intriguing possibilities to readers who are seeking a more cooperative sustainable and meaningful life Diana Leafe Christian is the author of *Creating a Life Together* and editor of *Communities* magazine She lives at Earthhaven Ecovillage in North Carolina
