Reinventing Canada

Gregory J. Inwood

Reinventing Canada:

Reinventing Canada Anthony Westell, 1994-10 Reinventing Canada is a contribution to the national debate on Canada's future. The book offers a comprehensive analysis of the political, cultural, and economic trends underlying our crisis of national unity and identity. The ideas are new, controversial, even startling, and Westell explains complex subjects in layman's language. Among the topics are the rise of economic globalism, the decline of social democracy, which has been a defining aspect of Canada's identity, the failure of Canadian federalism and parliamentary government, and the urgent need to reinvent the way we govern ourselves.

Beyond Walls: Re-inventing the Canada-United States Borderlands Victor Konrad, Heather Nicol, 2016-12-05 September 11, 2001 marked the beginning of a new era of security imperatives for many countries. The border between Canada and the United States suddenly emerged from relative obscurity to become a focus of constant attention by media, federal and state/provincial governments on both sides of the boundary, and the public at large. This book provides a comprehensive examination of the Canada-USA border in its 21st-century form, placing it within the context of border and borderlands theory, globalization, and the changing geopolitical dialogue. It argues that this border has been reinvented as a state-of-the-art technology-steeped crossing system, while the image of the border has been engineered to appear consistent with the friendly border of the past. It shows how a border can evolve to a heightened level of security and yet continue to function well, sustaining the massive flow of trade. It argues whether in doing so, the US-Canada border offers a model for future borderlands. Although this model is still evolving and still aspires toward better management practices, the template may prove useful not only for North America but also in conflict border zones as well as the meshed border regions of the EU, Africa's artificial line boundaries, and other global situations.

Reinventing Ourselves as Teachers Claudia Mitchell, Sandra Weber, 1999 Written for teaching professionals, this text helps novice and experienced teachers to reinterpret their working lives. Taking the reader on a personal exploration, the text exceeds standard approaches, leading from the personal to the critical.

Canada Samy Appadurai, 2020-09-14 Canada: The Dynamics of Global Immigration is a thoughtful book filled with facts and interesting stories. It is also a refreshing take on the issue of global migration and where Canada fits into this very large and complicated human mosaic.

Canada and Competing Indo-Pacific Visions of China and the US Kenneth M. Holland, 2024-12-13 This book describes and analyzes the choices that Canada, as a Middle Power, has regarding the strategic rivalry between the United States and China. The administrations of Republican Donald Trump and his successor Democrat Joe Biden have taken a hardline stance toward Beijing, which in turn has adopted an increasingly belligerent tone toward Washington. The posture of the United States toward China has put traditional American allies in a difficult position. They must choose whether to join the effort to counter China's ambitions, support those ambitions, or take some intermediate stance. As one of America's closest and longest-standing allies, Canada must make decisions that will affect its position in the world for the rest of the twenty-first century. The book argues that Canada's national interests are best served by alignment

with the confrontational posture of the United States while at the same time joining the efforts of U S allies Japan India and South Korea to moderate the thrust of Washington s Indo Pacific Strategy in a direction more consistent with multilateralism and the preservation of the rules based international order The book has important implications for other U S allies including the member states of the European Union Organization of American States and Association of Southeast Asian Nations each of which finds itself caught in the middle between the world s two greatest powers
