Modernization of Fatherhood Ralph LaRossa, 1997 The period between World War I and World War II was an important time in the history of gender relations and of American fatherhood Revealing the surprising extent to which some of yesterday's fathers were involved with their children The *Modernization of Fatherhood* recounts how fatherhood was reshaped during the Machine Age into the configuration we know today LaRossa explains that during the interwar period the image of the father as economic provider pal and male role model all in one became institutionalized Using personal letters and popular magazine and newspaper sources he explores how the social and economic conditions of the Roaring Twenties and the Great Depression a period of technical innovation as well as economic hardship fused these expectations into a cultural ideal With chapters on the U S Children's Bureau the fathercraft movement the magazine industry and the development of Parent's Magazine and the creation of Father's Day this book is a major addition to the growing literature on masculinity and fatherhood

The American Father Wade C. Mackey, 2013-06-29 In *The American Father* Wade C Mackey documents a wealth of information demonstrating the vast benefits to society when its children are raised in families with fathers The biopsychosocial approach Mackey employs is consistent with the current treatment of topics development This approach which is grounded in a variety of diverse sources assumes that we understand little about people when we study them a bit at a time rather the fullness of the individual requires a fullness of examination For example in the cases of fathers we note that humans do not reproduce alone after all we are not an asexual species No human reproduction and its sequelae are social just as clearly as they are biological and involve the whole panoply of psychic function motivation sociability intelligence and the like The evidence marshaled by Mackey indicates strongly that individuals and societies have an essential requirement for something more than mothering they also need fathering Much of the discourse and publication on fathers during the past several decades has been posited on a more is better model of male parenting in which it is seldom stated who it is better for the father the child the mother the couple or the family Further much of this discussion infers that fathers are merely Mr Moms yet this is not so

meanings of fatherhood in contemporary western societies The authors draw on poststructuralist theory to analyze the representation of fatherhood in the expert literature of psychology sociology and the health sciences and in popular sources such as television film advertisements and child care and parenting manuals and magazines Men s own accounts of first time fatherhood are also drawn upon including four individual case studies Fatherhood H.
