Relativity Opposing Viewpoints:

Viewpoint Relativism Antti Hautamäki, 2020-01-28 This book offers new insights into truth knowledge and reality It details a unique approach to epistemological relativism based on the concept of points of view In a point of view an aspect represents an object for a subject By applying this concept of points of view the author develops a consistent and adequate form of relativism called viewpoint relativism according to which epistemic questions like Is X true or justified or existing are viewpoint dependent The monograph examines central issues related to epistemological relativism It analyzes major arguments pro and con from different opinions The author presents the arguments of well known philosophers These include such thinkers as Paul Boghossian John Dewey Nelson Goodman Martin Kusch C I Lewis John MacFarlane Hilary Putnam W V O Quine Richard Rorty John Searle and Ludwig Wittgenstein In the process the author deconstructs the standard account of correspondence theory of truth Viewpoint relativism is a moderate relativism which is not subjected to standard criticism of extreme relativism This book argues that knowledge creation presupposes openness to different points of view and their comparison It also explores the broader implications of viewpoint relativism into current debate about truth in society The author defends a critical relativism which accepts pluralism but is critical against all points of view In the conclusion he explores the relevance of viewpoint relativism to democracy by showing that the main threat of modern democratic society is not pluralism but absolutism and fundamentalism

Neutrosophic Interpretation of Tao Te Ching (道经的模糊逻辑解释 — 模糊逻辑), English-Chinese Bilingual 傅英, Florentin Smarandache & Fu Yuhua, The purpose of this book is to extend the foundation and application range of Tao Te Ching The reasons for this are as follows Firstly we are willing to point out that Tao Te Ching already has some limitation because many questions we are interested in cannot be answered within Tao Te Ching For example Tao Te Ching basically discussed the matters in China however considering all possible situations it should matter in foreign countries as well i.e. the global village This was impossible in Lao Tzu's time Secondly if the original Tao Te Ching is regarded as Positive Tao Te Ching its opposite is Negative Tao Te Ching while the intermediate or compound state is Neutral Tao Te Ching Thus our book presents the way to extend the original Tao Te Ching in various neutrosophic interpretations In a same way it is possible to neutrosophically interpret any theory T in any field positive T negative T and Neutrosophic T TTT T
