ISABELLE NABOKOV
(RELIGION AND SOCIETY SSA18)

The book "Religion Against the Self" by Isabelle Nabokov delves into the intricate realm of Tamil rituals, particularly focusing on the practice of exorcism and possession among Tamil women. Nabokov challenges the notion that women are empowered in these rituals, highlighting the coercive nature of exorcisms that aim to resocialize women within patriarchal structures. She discusses how possession offers women a platform to voice feelings of loneliness and disappointment but ultimately serves to reinforce societal norms and suppress individual agency. Nabokov's ethnographic study sheds light on the complexities of religious practices and their impact on gender dynamics within Tamil culture.

The main argument of "Religion Against the Self" by Isabelle Nabokov is that Tamil rituals, particularly exorcism and possession, do not empower women as is often believed. Instead, these rituals serve to reinforce societal norms and suppress individual agency. Nabokov argues that women are coerced into these rituals and are subjected to extreme forms of pressure to conform to patriarchal expectations. While possession may offer women a platform to voice feelings of loneliness and disappointment, the overall function of these rituals is to eradicate any desires or thoughts that deviate from the traditional role of women within the patriarchal family fold. Nabokov emphasizes that women are not passive or voiceless victims, but the ritual itself is coercive and operates as an assertive pedagogy, silencing women through interrogation, symbolic decapitation, and invasive practices that imprint societal expectations on their bodies.

The introduction of "Religion Against the Self" by Isabelle Nabokov reveals a significant shift in the author's research focus. Initially intending to investigate the meanings attributed to the past by Tamil people, Nabokov's direction changed dramatically after witnessing seances at the Mel

Religion and Nothingness Keiji Nishitani, 1982 In *Religion and Nothingness* the leading representative of the Kyoto School of Philosophy lays the foundation of thought for a world in the making for a world united beyond the differences of East and West Keiji Nishitani notes the irreversible trend of Western civilization to nihilism and singles out the conquest of nihilism as the task for contemporary philosophy Nihilism or relative nothingness can only be overcome by being radicalized to Emptiness or absolute nothingness Taking absolute nothingness as the fundamental notion in rational explanations of the Eastern experience of human life Professor Nishitani examines the relevance of this notion for contemporary life and in particular for Western philosophical theories and religious beliefs Everywhere his basic intention remains the same to direct our modern predicament to a resolution through this insight The challenge that the thought of Keiji Nishitani presents to the West as a modern version of an Eastern speculative tradition that is every bit as old and as variegated as our own is one that brings into unity the principle of reality and the principle of salvation In the process one traditional Western idea after another comes under scrutiny the dichotomy of faith and reason of being and substance the personal and transcendent notions of God the exaggerated role given to the knowing ego and even the Judeo Christian view of history itself *Religion and Nothingness*
