Gender and the Historian Johanna Alberti,2014-07-10 Why are most famous historians men How have women changed the writing of history over the last decades What lives and stories have been hidden from history Until recently history was predominantly the domain of men That men were the authors of our past meant that in many cases only half of the story was told In the second half of the twentieth century however the picture changed Women and indeed some men as well started to address gender history Women had been investigated historically before but never with such intensity nor such breadth The impetus for this writing was both political and academic as feminists were determined to explore lives which until then had been disregarded Gender and the Historian charts the entry and development of this new history showing how such considerations furthered postmodernism and ultimately reinvigorated the very core of History

Gender, Religion and Diversity Ursula King,Tina Beattie,2005-10-01 Gender Religion and Diversity provides an introduction to some of the most challenging perspectives in the contemporary study of gender and religion In recent years women s and gender studies have transformed the international study of religion through the use of interdisciplinary and cross cultural methodologies which have opened up new and highly controversial issues challenging previous paradigms and creating fresh fields of study As this book shows gender studies in religion raises new and difficult questions about the gendered nature of religious phenomena the relationship between power and knowledge the authority of religious texts and institutions and the involvement and responsibility of the researcher undertaking such studies as a gendered subject This book is the outcome of an international collaboration between a wide range of researchers from different countries and fields of religious studies The range and diversity of their contributions is the very strength of this book for it shows how gendering works in studying different religious materials whether foundational texts from the Bible or Koran philosophical ideas about truth essentialism history or symbolism the impact of French feminist thinkers such as Irigaray or Kristeva or again critical perspectives dealing with the impact of race gender and class on religion or by deconstructing religious data from a postcolonial critical standpoint or examining the impact of imperialism and orientalism on religion and gender

Travelling Theory and Women's Movements in Turkey Demet Gulcicek,2023-12-15 Drawing on archival research Travelling Theory and Women s Movements in Turkey examines the imagination of Europe in the context of

women's rights movements in a self-defined non-European setting. It brings travelling theory, poststructuralist feminist theories and orientalist studies together to provide an original theoretical framework for understanding the complex and often contradictory imaginations of Europe. Such imaginations can be an object of desire, fantasy, hate and hostility in a non-European context. This volume sheds light on the manner in which local power dynamics are reproduced, negotiated and subverted during the travel of women's and feminist movements. With a focus on the late Ottoman Empire, the book questions how other positions can be inhabited by the Self and unpacks sexual and normative dimensions of demanding women's rights in this context. As such, it will appeal to scholars of sociology, cultural studies and gender studies with interests in feminist theory and notions of European and non-European categories.

The Wolf King Abigail Krasner Balbale, 2023-01-15 Winner of the Wallace K. Ferguson Prize Winner of the Dionisius A. Agius Book Prize *The Wolf King* explores how political power was conceptualized, constructed and wielded in twelfth-century al-Andalus, focusing on the eventful reign of Muhammad ibn Sa'd ibn Ahmad ibn Mardan-shir (1147-1172). Celebrated in Castilian and Latin sources as *el rey lobo* (rex lupus) and denigrated by Almohad and later Arabic sources as irreligious and disloyal to fellow Muslims because he fought the Almohads and served as vassal to the Castilians, Ibn Mardan-shir ruled a kingdom that at its peak constituted nearly half of al-Andalus and served as an important buffer between the Almohads and the Christian kingdoms of Castile and Aragon. Through a close examination of contemporary sources across the region, Abigail Krasner Balbale shows that Ibn Mardan-shir's short-lived dynasty was actually an attempt to integrate al-Andalus more closely with the Islamic East, particularly the Abbasid caliphate. At stake in his battles against the Almohads was the very idea of the caliphate in this period as well as who could define righteous religious authority. *The Wolf King* makes effective use of chronicles, chancery documents, poetry, architecture, coinage and artifacts to uncover how Ibn Mardan-shir adapted language and cultural forms from around the Islamic world to assert and consolidate power and then tracks how these strategies and the memory of Ibn Mardan-shir more generally influenced expressions of kingship in subsequent periods. Open access edition funded by the National Endowment for the Humanities.
