Consuming Surrealism in American Culture Sandra Zalman,2017-07-05 Consuming Surrealism in American Culture Dissident Modernism argues that Surrealism worked as a powerful agitator to disrupt dominant ideas of modern art in the United States Unlike standard accounts that focus on Surrealism in the U S during the 1940s as a point of departure for the ascendance of the New York School this study contends that Surrealism has been integral to the development of American visual culture over the course of the twentieth century Through analysis of Surrealism in both the museum and the marketplace Sandra Zalman tackles Surrealism s multi faceted circulation as both elite and popular Zalman shows how the American encounter with Surrealism was shaped by Alfred Barr William Rubin and Rosalind Krauss as these influential curators mobilized Surrealism to compose to concretize or to unseat narratives of modern art in the 1930s 1960s and 1980s alongside Surrealism s intersection with advertising Magic Realism Pop and the rise of contemporary photography As a popular avant garde Surrealism openly resisted art historical classification forcing the supposedly distinct spheres of modernism and mass culture into conversation and challenging theories of modern art in which it did not fit in large part because of its continued relevance to contemporary American culture **French Post-modern Masculinities** Lawrence R. Schehr,2009-01-01 As traditional notions of masculinity have been put into question there have been representational reactions to and articulations of changing masculinities in post modern culture Certain contemporary French cultural productions are illustrative of these changing masculinities and this book offers the first comprehensive examination of these manifestations Acclaimed critic Lawrence Schehr uses analysis of AIDS narratives mainstream films popular novels more mainstream novels a graphic novel and rightist polemics to explore the changing meaning of masculinity in French society French Postmodern Masculinities will appeal to a broad range of researchers and postgraduate students working in French cultural studies cinema and twentieth and twenty first century French literature **Library of Congress Catalog** Library of Congress,1972 Beginning with 1953 entries for Motion pictures and filmstrips Music and phonorecords form separate parts of the Library of Congress catalogue Entries for Maps and atlases were issued separately 1953 1955 [The Spirit of Surrealism](#) Edward B. Henning,Cleveland Museum of Art,1979 **Yale French Studies, Number 143** Richard J. Golsan,Lynn A. Higgins,2024-06-25 A reexamination of 1970s France as a decade of intellectual cultural and political consequence both then and now Number 143 of Yale French Studies The French Seventies reintroduces and reorients readers to a decade typically considered a period of disillusionment and malaise in the wake of the 1960s This collection of essays edited by Richard J Golsan and Lynn A Higgins shows that the era was in fact a period of intellectual cultural and

political ferment It was a time not of spectacular leaps forward but rather of searching regrouping and cultivating trends that would flower in the 1980s and beyond for better or worse The volume offers interdisciplinary scholarly essays on history film national identity as articulated in the modernist social and literary movements and more Interviews and personal history essays by major figures who actively participated in this decade add further dimension to this broad collection Art Criticism Since 1900 Malcolm Gee,1993 Speculative Affect Charmaine Eddy,2025-03-10 Speculative Affect Objects and Emotions is an edited collection examining the intersection between affect and objects in the fields of literature cultural theory and cultural production The word speculative in the title references recent philosophical and cultural work in the speculative turn a philosophical field that includes speculative realism new materialisms thing theory or object oriented ontology where the object is analyzed apart from human consciousness and human use value By linking this return to an ontological object realism beyond human consciousness with affect theory's reimagining of corporeality by exploring attachments bodily sensations autonomic responses and emotions as embodied forces beyond conscious knowing this work addresses the last frontier in radically reconfiguring the status of human life the division and hierarchy between so called inert material and the apparent superiority of humanity *Artbibliographies Modern* ,1999 **Art Books, 1950-1979** R.R. Bowker Company,1979 Creative Camera ,1984 *Perspectives on Creativity* John E. Gedo,Mary M. Gedo,1992 This volume addresses the methodological problems inherent in using individual biographies as vehicles for advancing the understanding of creativity In addition to discussing general problems this volume contains illustrations of the application of a variety of psycho biographical strategies The research from these sample biographies demonstrates the manner in which biographical data may be turned into scientific propositions The most important new idea in the book which is in many ways a primer of psycho biography is the distinction made between biographical methods primarily based on an empathic approach to the data and what the authors call conceptual methods that rely on deduction from some theoretical schema To date the literature has been entirely lacking in guidelines for the biographer interested in the psychological dimensions of his/her task and by extension the creativity researcher as well This book is intended to fill this gap **Catalog of the Library of the Museum of Modern Art: Han** Museum of Modern Art (New York, N.Y.).
