Tsiang, 2020-03-17 Traditionally the Chinese body was approached as a totality and explained by sweeping comparisons of the differences that distinguished Chinese examples from their Western counterparts Recently scholars have argued that we must look at particular examples of Chinese images of the body and explore their intrinsic conceptual complexity and historical specificity The twelve contributors to this volume adopt a middle position They agree that Chinese images are conditioned by indigenous traditions and dynamics of social interaction but they seek to explain a general Chinese body and face by charting multiple specific bodies and faces All of the chapters are historical case studies and investigate particular images such as Han dynasty tomb figurines Buddhist texts and illustrations pictures of deprivation illness deformity and ghosts clothing formal portraiture and modern photographs and films From the diversity of art forms and historical periods studied there emerges a more complex picture of ways that the visual culture of the body and face in China has served to depict the living memorialize the dead and present the unrepresentable in art **Minerva**, 2004 **Transmission Image** Birgit Mersmann, Alexandra Schneider, 2009-01-23 Transmission Image Visual Translation and Cultural Agency offers a challenging survey of the burgeoning debate about visual culture in a global perspective Bringing together scholarly perspectives on places ranging from China and India to Nigeria and from the Philippines and Syria to Germany this volume proposes a truly global outlook on the study of visual culture in both a contemporary and an historical perspective Addressing key theoretical issues the contributors cover a wide range of art forms and visual media highlighting the complex cultural codification of images and its impact on the study of visual culture and globalization **China** Miriam Clifford, Cathy Giangrande, Antony White, 2009 Here is a collection of the most exciting museums to be seen throughout China Armed with this unique guide the visitor will experience a journey of discovery which will greatly enhance their understanding of Chinese culture history and art Focusing on the lesser known museums but including the well trodden such as the Forbidden City Terracotta Warriors and the Shanghai Museum China museums unlocks the doors to over 200 must see museums ranging from art and archaeology science and technology to history and politics Pertinent information supplements entries and highlights of key objects are illustrated with over 500 colour images Burgeoning contemporary art galleries museums and artists villages are included AUTHOR Miriam Clifford has lived in Hong Kong and Beijing working as a freelance photographer and photojournalist Cathy Giangrande is an art historian and author of books on museums and collecting Antony White has been working on illustrated books on the land and art of China for the past twenty five years 684 colour illustrations [Buddhist Sculpture from China](#) Annette L. Hōryūji Reconsidered Dorothy C. Wong, Eric M. Field, 2008 Designated a UNESCO World Heritage site in 1993 the Hōryūji temple complex includes some of the oldest and largest surviving wooden buildings in the world The original Hōryūji temple was built between 601 and 607 by Prince Regent Shōtoku 573-622 one of Japan's best known cultural heroes The construction of the temple marked the introduction of Buddhism and Buddhist art and architecture to Japan from China by way of the Korean peninsula as promoted by Prince Shōtoku After a fire in 670 that destroyed the site the temple was rebuilt and enlarged Hōryūji became one of Japan's leading centers of Buddhist scholarship as well as a focus for the cult of its founder Prince Shōtoku This volume of essays originates from the 2005 The Dawn of East Asian International Buddhist Art and Architecture Hōryūji Temple of the Exalted Law in Its Contexts symposium held at the University of Virginia in October 2005 Covering the disciplines of archaeology architecture architectural history art history and religion these essays aim to shed new light on the Hōryūji complex by 1 examining new archaeological materials 2 incorporating computer analysis of the structural system of the pagoda and 3 including cross cultural interdisciplinary perspectives that reflect current research in various fields

Chinese Steles Dorothy C. Wong, 2004-09-30 Buddhist steles represent an important subset of early Chinese Buddhist art that flourished during the Northern and Southern Dynasties period 386-581 More than two hundred Chinese Buddhist steles are known to have survived Their brilliant imagery has long captivated scholars yet until now the Buddhist stele as a unique art form has received little scholarly attention Dorothy Wong rectifies that insufficiency by providing in this well illustrated volume the first comprehensive investigation of this group of Buddhist monuments She traces the ancient roots of the Chinese stele tradition and investigates the process by which Chinese steles were adapted for Buddhist use She arranges the known corpus of Buddhist steles into broad chronological and regional groupings and analyzes not only their form and content but also the nexus of complex issues surrounding this art form from cultural symbolism to the interrelations between religious doctrine and artistic expression economic production patronage and the synthesis of native and foreign art styles In her analysis of Buddhism's dialogue with native traditions Wong demonstrates how the Chinese artistic idiom planted the seeds for major achievements in figural and landscape arts in the ensuing Sui and Tang periods

Treasures Rediscovered Leopold Swergold, Stanley K. Abe, Wendi Leigh Adamek, Dorothy C. Wong, Qing Chang, 2008 *Treasures Rediscovered* focuses on a group of 22 stone devotional objects and architectural fragments that collectively represent major developments in Chinese religion and mortuary culture from the Han 206 BCE-220 CE through the Tang dynasty 618-907 The major emphasis is on works from the sixth century a period of great intellectual ferment and artistic transformation above all in the Buddhist arts The sculptures included range from a small personal votive icon to large temple carvings The majority are Buddhist icons in various formats objects of devotion that were installed in temples and cave chapels
