Nicolas Winding Refn and the Violence of Art Justin Vicari,2014-04-04 Nicolas Winding Refn has emerged as a uniquely talented international filmmaker with an eye for visceral iconic images A 21st century mythmaker from his cult Pusher trilogy to the award winning Drive and Only God Forgives Refn infuses a sophisticated avant garde sensibility with the grit of exploitation cinema This book relates Refn s films to the ideas of Nietzsche Canetti Blanchot and others and to aesthetic theory in general It also asks why the West has become a largely artificial society unable to generate new communal mythologies Instructors considering this book for use in a course may request an examination copy here [The Return of the Storyteller in Contemporary Fiction](#) Areti Dragas,2014-08-31 Focusing on the figure of the storyteller this study breaks new ground in the approach to reading contemporary literature by identifying a growing interest in storytelling For the last thirty years contemporary fiction has been influenced by theoretical discourses textuality and writing Only since the rise of postcolonialism have academic critics been more overtly interested in stories where high theory frameworks are less applicable However as we move through various contemporary contexts engaging with postcolonial identities and hybridity to narratives of disability and evolutionary accounts of group and individual survival a common feature of all is the centrality of story which posits both the idea of survival and the passing on of traditions The Return of the Storyteller in Contemporary Fiction closely examines this preoccupation with story and storytelling through a close reading of six contemporary international novelists that are either about actual storytellers or engage with the figure of the storyteller revealing how death of the author has given birth to the storyteller **The Cross and Creation in Liturgy and Art** Christopher Irvine,2013-06-20 Explore the intersection of art movements and spirituality in this insightful book linking the crucifixion creation and our commitment to environmental stewardship The book gives an account of various movements in art and their relation to the visual and in churches and in liturgy for example the Franciscan movement different approaches to the crucifixion and the restoration of creation It recovers the links between the cross and creation and relates the baptismal covenant to a commitment to care for creation [Return of the Tribal](#) Rufus C. Extreme Deviance Erich Goode,D. Angus Vail,2008 This book takes a look at normative violations that earn the violators a deviant identity in the eyes of the members of mainstream society And so serious likewise that the lives of violators do revolve around the actions the beliefs or the characteristics as well as the consequences such violations have mainly with respect to the social reactions they generate in others When others really don t like what you do believe or are they usually let you know that in no uncertain terms and this is likely to drastically alter your life **The World of Art** Robert

Payne,2014-10-23 Very few books try to capture a subject as vast as the world of art and even fewer succeed But Robert Payne has succeeded and in this book he portrays in vivid fresh nontechnical language the entire history and achievement of the world s artists from the original caveman painters who decorated their homes with animal paintings to contemporary artists who fill their canvases with often bewildering abstract forms Payne approaches each artistic period and each great artist with sympathetic understanding and an appreciation of the values and aesthetic ideals of the time Through carefully chosen illustrations woven into his text moreover he shows exactly what makes a work of art great WORLD OF ART casts its view over all the types of art not only the Western tradition but the contributions of Egypt Persia India China Japan and other important cultures as well Yet the book is more than a mere survey for Robert Payne s special brilliance lies in showing the common spirit and aspiration that have united all the world s great artists The main value of this book is spontaneity There is nothing pedantic about it Although it ranges all over the world art from its earliest beginnings to the present the author keeps the flow of his account moving at a rapid pace Its importance is to offer a fast paced critical reassessment of the history of art in terms of today s outlook Mr Payne relies chiefly on a beautiful use of language which enables him to telescope the essence of a culture or period into a few well turned paragraphs He gives the reader a dynamic reevaluation based on critical judgments and first hand observations rather than a rehash of conventional academic views Rather than the pedantic accuracy of an encyclopedia approach Mr Payne s book possesses the rare quality of persuasiveness and enthusiasm and it will send the reader off to go and look Henry A La Farge Senior Editor Art News **European Avant-Gardes,**
