Decolonial Solidarity in Palestine-Israel Teodora Todorova, 2021-06-17 Recent years have seen the Israeli state become ever more extreme in its treatment of Palestinians manifested both in legislation stripping Palestinians of their rights and in the escalating scale and violence of the Israeli occupation But this hard line stance has in

turn provoked a new spirit of dissent among a growing number of Israeli scholars and civil society activists As well as recognising Palestinian claims to justice and self determination this new dissent is characterised by calls for genuine decolonisation and an end to partition as opposed to the now discredited two state solution Through the analytical lens of settler colonial studies this book examines the impact of this new decolonial solidarity through case studies of three activist groups Zochrot Anarchists Against the Wall and the Israeli Committee Against House Demolitions ICAHD In doing so Todorova extends the framework of settler colonial studies beyond scholarly analysis and into the realm of activist practice She also looks at how decolonial solidarity has shaped and been influenced by the writings of both Palestinian and Israeli theorists The book shows that new forms of civil society activism bringing together Palestinian and Israeli activists can rejuvenate the resistance to occupation and the Israeli state s growing authoritarianism
