Return Of The Maya:

Return of the Maya Thomas Hoepker, 1998 Latin America's longest civil war ended in 1996. The peace accord between Guatemala's conservative government and the Marxist guerrilla group the URNG brought an end to 36 years of conflict with almost 150 000 people killed and another 50 000 still missing. Most of the victims were the Mayan people who were brutally oppressed by both sides. Magnum photographer Thomas Hoepker visited Guatemala several times from 1991 onwards and in *Return of the Maya* he documented the Maya's rediscovery of their magnificent culture and history. Of special concern was the Maya's search through the killing fields for their dead and of the rituals both Catholic and Mayan that are central to their culture and which has helped them begin to heal their emotional and societal wounds. Hoepker captured many aspects of this remarkable period of transition and arranged them in an array of astonishing photographs that will disturb, enchant and amaze. *Return of the Maya* Gaspar Pedro González, 1998 **MICOSS 2020** Suraya, Daru Asih, Rizki

Restall, Amara Solari, 2020. The Maya forged the greatest society in the history of the ancient Americas and one of the great societies in human history. Long before contact with Europeans, Maya communities built spectacular cities, created complex agricultural systems, mastered the visual arts and developed a sophisticated writing system that recorded extraordinary knowledge in calendrics, mathematics and astronomy. All that was achieved without area-wide centralized control. For there was never a single unified Maya state or empire, but always numerous evolving ethnic groups speaking dozens of distinct Mayan languages. The people we call Maya never thought of themselves as such, so what was their self-identity and how did Maya civilization come to be invented? Yet something definable, unique and endlessly fascinating, what we call Maya culture, has clearly existed for millennia. With the Maya subdivided in so many ways, geographical, linguistic and chronological, the
