Islamic Finance in the Global Economy Ibrahim Warde, 2014-03-11 A second edition of Islamic Finance in the Global Economy substantially revised and updated to take into account the recent developments in the field **Philosophies of Integration** Adrian Favell, 2016-02-17 A comprehensive comparative study of the distinct ideas and political arguments that have shaped French and British policies towards their ethnic minorities and the effects of these intellectual frameworks at local national and European levels Charting the politics and events that brought the respective institutional solutions together the author sets out the divergent conceptualisations of citizenship nationality pluralism autonomy public order and tolerance that make up the national philosophies in the two countries republican integration in France and multicultural race relations in Britain This new edition published in paperback contains a new preface bringing the volume up to date in the light of new legislation and progress **Critical Cosmology** Gérard Raulet, 2005-01-01 Globalization is more than an economic or geopolitical matter it is above all a new political culture Like the Kantian revolution in the 18th century our global moment urgently requires philosophical inquiry to determine if it represents a 20th century revolution in thinking Critical Cosmology takes up the task of establishing the much needed philosophical tools to think globalization by reading Kant's re foundation of cosmopolitanism as a political not moral text Raulet in committing himself to a close study of this late capitalist global moment gets us to a much needed cosmology of 21st century globalization The world's economic evolution has continually challenged some of our most basic modern concepts especially the recognition of the rights of nations This evolution has also created a need for recognizing the rights of citizens and others participating in the growth of the world's economies In neither the service of a prescriptive morality nor in the service of any one specific cultural political or intellectual ideology Gerard Raulet investigates the construction of a public space that can accommodate global citizenship Through a unique and massive genealogy of political thinkers Raulet like no other contemporary critic begins the process of carving out the social cultural and political space that will come to accommodate the common activity of an emerging global culture A brilliant and unique investigation of our contemporary political moment this will affect political thinkers of every variety and especially those who are concerned with conflict and peace studies the development of nations and nation states and human rights on a national and international scale *Demystifying the Sacred* Eveline Bouwers, David Nash, 2022-09-20 *Demystifying the Sacred* Blasphemy and Violence from the French Revolution to Today offers a much needed analysis of a subject that historians have largely ignored yet that has considerable relevance for today's world the powerful connection that exists between offences against the sacred and different forms of violence Drawing on cases from revolutionary France to the Russia of Vladimir Putin the international authors probe the nature and agency of local blasphemy accusations the historical and legal framework in which they were expressed and the violence both physical and symbolic accompanying them In doing so the volume reveals how cultures of blasphemy and related acts of heresy apostasy and sacrilege were a

companion to or acted as a trigger for physical action but also a form of how violence was experienced More generally it shows the importance of religious sensibilities in modern society and the violent potential contained in criticism or ridicule of the sacred and secular alike **Freedom of Religion or Belief** Heiner Bielefeldt, Nazila Ghanea, Michael

Educating Immigrant Children Charles L. Glenn, Ester J. De Jong, 1996-08-01 This study is concerned with the ways in which a dozen knowledge based societies of Western Europe and the English speaking world respond to unprecedented cultural and linguistic diversity resulting from the flow of immigrants and refugees since World War II It asks how public policy has sought to use schooling to minimize the potentially divisive and inequitable effects of this diversity and to provide opportunities to the children of immigrants It asks also how the nature of each of these societies affects the meaning of integration into each of them

The French Intifada Andrew Hussey,2014-04-22 This provocative look at France's relationship

with the Arab world offers a bracing mix of journalism and history that couldn't be more timely Mitchell Cohen The New York Times Book Review To fully understand the social and political pressures wracking contemporary France and indeed all of Europe we must look beyond domestic issues Unemployment economic stagnation and social deprivation certainly exacerbate the ongoing turmoil in the banlieues But as Andrew Hussey demonstrates here the root of the problem lies in the continuing fallout from Europe's colonial era Hussey draws on his deep knowledge of history literature and politics as well as his years of personal experience in France Algeria and other Arab countries to provide a nuanced holistic view of the present situation In the course of teasing out the myriad interconnections between past and present The French Intifada shows that the defining conflict of the twenty first century will not be between Islam and the West but between two dramatically different experiences of the world the colonizers and the colonized On Behalf of the Mystical Fool John P.

Dourley,2009-09-30 Jung's explanation of the religious tendency of the psyche addresses many sides of the contemporary debate on religion and the role that it has in individual and social life This book discusses the emergence of a new mythic consciousness and details ways in which this consciousness supersedes traditional concepts of religion to provide a spirituality of more universal inclusion On Behalf of the Mystical Fool examines Jung's critique of traditional western religion demonstrating the negative consequences of religious and political collective unconsciousness and their consequent social irresponsibility in today's culture The book concludes by suggesting that a new religiosity and spirituality is currently emerging in the West based on the individual's access to the sense of ultimacy residual in the psyche and seeking expression in a myth of a much wider compass This book will be of interest to scholars and students at all levels who are engaged in the expanding field of Jungian studies It will also be key reading for anyone interested in the theoretical and therapeutic connections between the psyche and religious experience **The Revenge of God** Gilles Kepel,1994 Kepel traces the resurgence of religious belief in the modern world focussing on radical movements within Christianity Judaism and Islam
