**A History of Love and Hate in 21 Statues** Peter Hughes, 2021-09-14 From antiquity to the present day this book offers a fascinating insight into the histories movements and conflicts which have come to shape our world viewed through the stories of the destruction of 21 statues Confederate soldiers hacked to pieces A British slave trader dumped in the river An Aboriginal warrior twice beheaded A Chinese philosopher consumed by fire A Greek goddess left to rot in the desert Statues stand as markers of collective memory connecting us to a shared sense of belonging When societies fracture into warring tribes we convince ourselves that the past is irredeemably evil So we tear down our statues But what begins with the destruction of statues ends with the killing of people This remarkable book is a compelling history of love and hate spanning every continent religion and era told through the destruction of 21 statues Peter Hughes' original approach blending philosophy psychology and history explores how these symbols of our identity give us more than an understanding of our past In the wars that rage around them they may also hold the key to our future The 21 statues are Hatshepsut Ancient Egypt Nero Suffolk UK Athena Syria Buddhas of Bamiyan Afghanistan Hecate Constantinople Our Lady of Caversham near Reading UK Huitzilopochtli Mexico Confucius China Louis XV France Mendelssohn Germany The Confederate Monument US Sir John A Macdonald Canada Christopher Columbus

Venezuela Edward Colston Bristol UK Cecil Rhodes South Africa George Washington US Stalin Hungary Yagan Australia Saddam Hussein Iraq B R Ambedkar India and Frederick Douglass US A History of Love and Hate in 21 Statues is a profound and necessary meditation on identity which resonates powerfully today as statues tumble around the world **The Virtues of Vengeance** Peter A. French,2001 In the course of his study of vengeance as a moral concept French exposes important distinctions between types of moral theories karmic and non karmic and between people who are morally handicapped and those who are morally challenged He examines concepts relevant to vengeance such as honor moral authority and evil and issues such as the rationality of revenge and proportionality in punishment BOOK JACKET **Shakespeare's Classical Mythology: A Dictionary** Janice Valls-Russell,Katherine Heavey,2024-10-17 Why does Bassanio compare himself to Jason What is Hecuba to Hamlet Is the mechanicals staging of the Pyramus and Thisbe story funny or sad This dictionary elucidates Shakespeare s use of mythological references in an early modern context while bringing them to life for today s audiences and readers at a time of renewed critical interest in the reception of the classics and fascination with classical mythology in popular culture It is also a precious tool for practitioners who may not always know quite what to make of mythological references Mythological figures creatures places and stories crowd Shakespeare s plays and poems featuring as allusions poetic analogies inset shows scene settings and characters or plots in their own right Most of these references were familiar to Shakespeare s spectators and readers who knew them from the writings of Ovid Virgil and other classical authors or indirectly through translations commentaries ballads and iconography This dictionary illustrates how far from being isolated a mythological reference may resonate with the poetics of the text and its structure cast light on characters and contexts and may therefore be worth exploring onstage in a variety of ways The 200 headings correspond to words and names actually used by Shakespeare individual figures Dido Venus Hercules categories Amazons Centaurs nymphs satyrs places Colchos Troy Medium and longer entries also cover early modern usage and critical analysis in a cross disciplinary approach that includes reception textual performance gender and political studies Shattered Voices Teresa Godwin Phelps,2010-11-24 Following periods of mass atrocity and oppression states are faced with a question of critical importance in the transition to democracy how to offer redress to victims of the old regime without perpetuating cycles of revenge Traditionally balance has been restored through arrests trials and punishment but in the last three decades more than twenty countries have opted to have a truth commission investigate the crimes of the prior regime and publish a report about the investigation often incorporating accounts from victims Although many praise the work of truth commissions for empowering and healing through words rather than violence some condemn the practice as a poor substitute for traditional justice achieved through trials and punishment There has been until now little analysis of the unarticulated claim that underlies the truth commissions very existence that language in this case narrative stories can substitute for violence Acknowledging revenge as a real and deep human need Shattered Voices explores the benefits and problems inherent when a fragile country seeks to heal its

victims without risking its own future In developing a theory about the role of language in retribution Teresa Godwin Phelps takes an interdisciplinary approach delving into sources from Greek tragedy to Hamlet from Kant to contemporary theories about retribution from the Babylonian law codes to the South African Truth and Reconciliation Report She argues that given the historical and psychological evidence about revenge starting afresh by drawing a bright line between past crimes and a new government is both unrealistic and unwise When grievous harm happens a rebalancing is bound to occur whether it is orderly and lawful or disorderly and unlawful Shattered Voices contends that language is requisite to any adequate balancing and that a solution is viable only if it provides an atmosphere in which storytelling and subsequent dialogue can flourish In the developing culture of ubiquitous truth reports Phelps argues that we must become attentive to the form these reports take the narrative structure the use of victims stories and the way a political message is conveyed to the citizens of the emerging democracy By looking concretely at the work and responsibilities of truth commissions Shattered Voices offers an important and thoughtful analysis of the efficacy of the ways human rights abuses are addressed

Posner, 2009-04-30 Law and Literature is the only book length treatment of a widely popular subject that is drawing considerable academic attention Leading legal scholar Richard Posner believes that courses and scholarship in law and literature provide an attractive alternative to courses and scholarship in jurisprudence philosophy of law especially since the study of literature can assist lawyers and judges by sharpening their rhetorical skills The revised edition features considerable new material including a consideration of plagiarism as well as discussions of novels that grapple with issues very pertinent today such as illegal immigration global warming bioterrorism surveillance artificial reproduction and virtual reality Posner also discusses the role of the law in popular literature movies and television

### **The Modern Language**

**Review** John George Robertson, Charles Jasper Sisson, 1906 Each number includes the section Reviews [All Things Shining](#) Hubert Dreyfus, Sean Dorrance Kelly, 2011-01-04 An inspirational book that is a smart sweeping run through the history of Western philosophy Important for the way it illuminates life today and for the controversial advice it offers on how to live The New York Times What constitutes human excellence and What is the best way to live a life These are questions that human beings have been asking since the beginning of time In their critically acclaimed book All Things Shining Hubert Dreyfus and Sean Dorrance Kelly argue that our search for meaning was once fulfilled by our responsiveness to forces greater than ourselves whether one God or many These forces drew us in and imbued the ordinary moments of life with wonder and gratitude Dreyfus and Kelly argue in this thought provoking work that as we began to rely on the power of our own independent will we lost our skill for encountering the sacred Through their original and transformative discussion of some of the greatest works of Western literature from Homer's Odyssey to Melville's Moby Dick Dreyfus and Kelly reveal how we have lost our passionate engagement with the things that gave our lives purpose and show how by reading our culture's classics anew we can once again be drawn into intense involvement with the wonder and beauty of the world Well on its way

to becoming a classic itself this inspirational book will change the way we understand our culture our history our sacred practices and ourselves *The Works of George Peele* George Peele,1888 **New Pantheon; or, Mythology of all nations. Adapted to the biblical, classical and general reader, but more especially for the use of schools and young persons** George Crabb,1840 Everyday Peacebuilding through Democratic Political Education Stephen L. Esquith,2025-06-14 Everyday peacebuilding through democratic political education is a necessary but not sufficient condition for limiting negative political emotions such as anger fear and resentment and for cultivating the political virtues needed for an alternative more democratic orientation towards power one that values and exercises power with other members of emergent political communities not power over them These demotic political virtues include self restraint resistance humility respect for the civic dignity of others non violent protest and the radical poise needed to cultivate and coordinate this constellation of political virtues For those who have been forcibly displaced or are only dimly aware of their complicity in this type of political violence to maintain a radically poised stance is a continuing process of democratic political education This book demonstrates how this notion of Radical Poise in theory and practice can be developed through a hybrid process of political education in one country Mali to contest the growth of violence and fear there and elsewhere
