Reading Contingency David Wylot, 2019-11-25 In *Reading Contingency: The Accident in Contemporary Fiction*, David Wylot constructs an innovative study of the relationship between plotted accidents in twenty-first century British and American fiction, the phenomenology of reading and a contemporary experience of time that is increasingly understood to be contingent and accidental. A synthesis of literary and cultural analysis, narratology, critical theories of time and the philosophy of contingency, the book explores the accident's imagination of contemporary time and the relationship between reading and living in novels by writers including A. M. Homes, Nicola Barker, Noah Hawley, J. M. Coetzee, J. G. Ballard, Jesmyn Ward, Jennifer Egan and Tom McCarthy.

Reverse Logistics Rommert Dekker, Moritz Fleischmann, Karl Inderfurth, Luk N. van Wassenhove, 2013-06-05 Reverse logistics concerns the integration of used and obsolete products back into the supply chain as valuable resources. Economic marketing and legislative drivers increasingly are leading companies to take back and recover their products after use. The arising product flows pose novel challenges for supply chain management. This book addresses decision making in reverse logistics. It covers a wide range of aspects related to distribution, production and inventory management and supply chain management. For each topic it highlights key managerial issues in real life examples and explains which quantitative models are available for addressing them. By treating a broad range of issues in a unified way, the book offers the reader a comprehensive view on the field of reverse logistics.

Isabel Fernández,2004 **The Comic Turn in Contemporary English Fiction** Huw Marsh,2020-07-09 The Comic Turn in Contemporary English Fiction explores the importance of comedy in contemporary literature and culture In an era largely defined by a mood of crisis bleakness cruelty melancholia environmental catastrophe and collapse Huw Marsh argues that contemporary fiction is as likely to treat these subjects comically as it is to treat them gravely and that the recognition and proper analysis of this humour opens up new ways to think about literature Structured around readings of authors including

Martin Amis Nicola Barker Julian Barnes Jonathan Coe Howard Jacobson Magnus Mills and Zadie Smith this book suggests not only that much of the most interesting contemporary writing is funny and that there is a comic tendency in contemporary fiction but also that this humour this comic licence allows writers of contemporary fiction to do peculiar and interesting things things that are funny in the sense of odd or strange and that may in turn inspire a funny turn in readers Marsh offers a series of original critical and theoretical frameworks for discussing questions of literary genre style affect and politics demonstrating that comedy is an often neglected mode that plays a generative role in much of the most interesting contemporary writing creating sites of rich political stylistic cognitive and ethical contestation whose analysis offers a new perspective on the present
