Approach to the Interpretation of the United Nations Convention on Contracts for the International Sale of Goods (1980) as Uniform Sales Law John Felemegas,2007-01-08 In 1980 the United Nations Convention for the International Sale of Goods CISG came into being as an attempt to create a uniform commercial sales law This book first published in 2007 compares two major restatements the UNIDROIT Principles and the Principles of European Contract Law PECL with CISG articles This work has gathered scholars and legal practitioners from twenty countries who contribute analysis on the various issues covered in the articles of the CISG comparing them with how the issue is treated in the UNIDROIT and PECL restatements The introductory section of the book addresses theoretical and practical issues of the appropriate interpretive methodology as mandated in CISG Article 7 and it is followed by individual analyses of the Convention s provisions

(Non-)conformity in the 1980 UN Convention on Contracts for the International Sale of Goods Sonja Kruisinga,2004 The 1980 UN Convention on Contracts for the International Sale of Goods CISG unifies the law governing the rights and obligations arising from a contract for the international sale of goods for the seller and the buyer The CISG entered into force on 1 January 1988 The current number of 62 contracting States representing two thirds of the world trade shows the relevance of this Convention Moreover the International Chamber of Commerce ICC has published a model for an international sales contract that presupposes the application of the Convention Since no supranational court exists to safeguard a uniform interpretation of its provisions the case law from different states on the basis of the CISG needs to be compared One of the main obligations for the seller under the Convention is to deliver goods which are in conformity with the contract art 35 CISG With respect to this particular obligation a number of questions have arisen For example do the goods delivered need to comply with any public law requirements in the country where the goods will be used When and how does a buyer have to give notice to the seller of any lack of conformity Is any fault on the part of the seller required for a buyer to be able to rely on this provision Who bears the burden of proof Can a buyer rely on any concurrent claims based on national law alongside his claim based on lack of conformity This book contains an analysis of the case law that has been

established on the basis of the CISG concerning the aforementioned questions Special attention has been paid to court decisions in Austria Belgium France Germany the Netherlands and Switzerland as well as to arbitral awards by the ICC Court of Arbitration In this respect the role of the UNIDROIT Principles of International Commercial Contracts in the interpretation of the CISG has also been analysed The book provides a unique combination because it contains both an analysis of the issue of non conformity as such and an overview of the recent case law on this topic as well as recommendations for international commercial practice Therefore this book will be of interest to both academics and legal practitioners

The CISG and its Impact on National Legal Systems Franco Ferrari, 2009-04-27 In force in 70 countries around the world and covering more than two thirds of world trade the 1980 United Nations Convention on Contracts for the International Sale of Goods CISG is considered to be the most successful convention promoting international trade According to many commentators this success is due among others to the fact that the Convention does not directly impact on the domestic law of the various legal systems as it applies only to international as opposed to purely domestic contracts The Convention in other words does not impose changes in the domestic law which makes it easier for States to adopt the Convention This does not mean however that the Convention does not have any impact on the domestic law at all This book analyzes through 24 country reports as well as a general report submitted to the 1st Intermediate Congress of the International Academy of Comparative Law held in November 2008 in Mexico City to what extent the Convention de facto influences domestic legal systems In particular the book examines the Convention s impact on the practice of law the style of court decisions as well as the domestic legislation in the area of contract law

Pace International Law Review ,2005 Forum Shopping Despite Unification of Law Franco Ferrari,2021-08-16 Watch the interview with Franco Ferrari on Forum Shopping Despite Unification of Law According to some commentators forum shopping is an evil that must be eradicated It has been suggested that the unification of substantive law through international conventions constitutes one way to achieve this outcome This book shows that the drafting of uniform substantive law convention cannot prevent forum shopping The reasons are classified into two main categories convention extrinsic and convention intrinsic reasons The former category comprises those reasons upon which uniform substantive law conventions do not have an impact at all These reasons range from the costs of access to justice to the bias of potential adjudicators to the enforceability of judgments The convention intrinsic reasons on the other hand are reasons that relate to the nature and design of uniform substantive law conventions and include their limited substantive and international spheres of application as well as their limited scope of application the need to provide for reservations etc This book also focuses on another reason why forum shopping cannot be overcome the impossibility of ensuring uniform applications and interpretations of the various uniform substantive law conventions **Contracts for the International Sale of Goods**
