Revision of Solanum Section Cyphomandropsis (Solanaceae) Lynn Bohs, 2001

A Revision of the Dulcamaroid

Clade of Solanum L. (Solanaceae) Sandra Knapp, 2013-05-10 This volume is a monograph of the 47 species of the Dulcamaroid clade of the large and diverse genus Solanum. Species in the group occur in North Central and South America and in Europe and Asia. The group is most species rich in Peru and Brazil and three of the component species Solanum laxum of Brazil, Solanum seaforthianum of the Caribbean and Solanum crispum of Chile are cultivated in many parts of the world. All species are illustrated and a distribution map of each is provided. All names are typified and nomenclatural and bibliographic details for all typifications presented. One new species from Ecuador is described. The monograph is the first complete taxonomic treatment of these species since the worldwide monograph of Solanum done by the French botanist Michel Felix Dunal in 1852.

A Festschrift for William G. D'Arcy William G. D'Arcy, 2005

The life of William G. D'Arcy was unusual in many respects. His research career as a systematic botanist would be considered exceptionally productive even if begun in his twenties rather than at age 41. In his early career he worked as an economist and then as an entrepreneur in the British West Indies. In that beautiful locale a fascination with the local flora gradually attracted more and more of his energy. Deciding on a career change, D'Arcy pursued master's University of Florida and doctoral Washington University degrees. He was appointed by the Missouri Botanical Garden to organize the completion of the multi-volume Flora of Panama project and simultaneously developed the first computerized database for a large flora. He rose to the rank of Curator and became an internationally recognized expert in the systematics and evolution of the large and economically important nightshade family. This volume features a collection of scientific contributions by D'Arcy's friends and colleagues that form a fitting memorial to the life of this influential taxonomist.
