Revisiting The Civil War By Hokanson Wilmer:

Forthcoming Books Rose Army,1990 **Revisiting the Civil War** Wilmer Hokanson,1990-03-01 Paperbound Books in Print ,1991 *New Perspectives on the Civil War* John Y. Simon,Michael E. Stevens,2001-12 As the American Civil War recedes into the past popular fascination continues to rise Once a matter that chiefly concerned veterans separately organized North and South who gathered to refight old battles and to memorialize the heroes and victims of war the Civil War has gradually become part of a collective heritage Issues raised by the war including its causes and consequences reverberate through contemporary society Family and community connections with the war exist everywhere as do battlefields memorials and other physical reminders of the conflict We as Americans are fascinated by the sheer magnitude of the war fought over thousands of miles of American soil and resulting in awesome casualties It was a gigantic national drama enacted by people who seem both contemporary and remote Here for the first time leading Civil War scholars gather to sort out the fact and fiction of our collective memories Contributors include Pulitzer Prize winner Mark E Neely Jr Alan T Nolan John Y Simon James I Bud Robertson Jr Gary W Gallagher Joseph T Glatthaar and Ervin L Jordan Jr *New Perspectives on the Civil War* John Y. Simon,Michael E. Stevens,2003-06-05 As the American Civil War recedes into the past popular fascination continues to rise Once a matter that chiefly concerned veterans separately organized North and South who gathered to refight old battles and to memorialize the heroes and victims of war the Civil War has gradually become part of a collective heritage Issues raised by the war including its causes and consequences reverberate through contemporary society Family and community connections with the war exist everywhere as do battlefields memorials and other physical reminders of the conflict We as Americans are fascinated by the sheer magnitude of the war fought over thousands of miles of American soil and resulting in awesome casualties It was a gigantic national drama enacted by people who seem both contemporary and remote Here for the first time leading Civil War scholars gather to sort out the fact and fiction of our collective memories Contributors include Pulitzer Prize winner Mark E Neely Jr Alan T Nolan John Y Simon James I Bud Robertson Jr Gary W Gallagher Joseph T Glatthaar and Ervin L Jordan Jr *The Enduring Civil War* Gary W. Gallagher,2020-09-02 In the seventy three succinct essays gathered in *The Enduring Civil War* celebrated historian Gary W Gallagher highlights the complexity and richness of the war from its origins to its memory as topics for study contemplation and dispute He places contemporary understanding of the Civil War both academic and general in conversation with testimony from those in the Union and the Confederacy who experienced and described it investigating how mid nineteenth century perceptions align with or deviate from current ideas regarding the origins conduct and aftermath of the war The tension between history and memory forms a theme throughout the essays underscoring how later perceptions about the war often took precedence over historical reality in the minds of many Americans The array of topics Gallagher addresses is striking He examines notable books and authors both Union and Confederate military and civilian famous and lesser known He discusses historians who though their names

have receded with time produced works that remain pertinent in terms of analysis or information He comments on conventional interpretations of events and personalities challenging among other things commonly held notions about Gettysburg and Vicksburg as decisive turning points Ulysses S Grant as a general who profligately wasted Union manpower the Gettysburg Address as a watershed that turned the war from a fight for Union into one for Union and emancipation and Robert E Lee as an old fashioned general ill suited to waging a modern mid nineteenth century war Gallagher interrogates recent scholarly trends on the evolving nature of Civil War studies addressing crucial questions about chronology history memory and the new revisionist literature The format of this provocative and timely collection lends itself to sampling and readers might start in any of the subject groupings and go where their interests take them **The Civil War and**

Reconstruction Stanley Harrold, 2007-11-28 This new volume deals with two momentous and interrelated events in American history the American Civil War and Reconstruction and offers students a collection of essential documentary sources for these periods Provides students with over 60 documents on the American Civil War and Reconstruction Includes presidential addresses official reports songs poems and a variety of eyewitness testimony concerning significant events ranging from 1833 1879 Contains an informative introduction focused on the kinds of materials available and how historians use them Each chapter ends with questions designed to help students engage with the material and to highlight key issues of historical debate Household War Lisa Tendrich Frank, LeeAnn Whites, 2020-01-15 Household War restores the centrality of households to the American Civil War The essays in the volume complicate the standard distinctions between battlefield and homefront soldier and civilian and men and women From this vantage point they look at the interplay of family and politics studying the ways in which the Civil War shaped and was shaped by the American household They explore how households influenced Confederate and Union military strategy the motivations of soldiers and civilians and the occupation of captured cities as well as the experiences of Native Americans women children freedpeople injured veterans and others The result is a unique and much needed approach to the study of the Civil War Household War demonstrates that the Civil War can be understood as a revolutionary moment in the transformation of the household order The original essays by distinguished historians provide an inclusive examination of how the war flowed from required and resulted in the restructuring of the nineteenth century household Contributors explore notions of the household before during and after the war unpacking subjects such as home family quarrels domestic service and slavery manhood the Klan prisoners and escaped prisoners Native Americans grief and manhood The essays further show how households redefined and reordered themselves as a result of the changes stemming from the Civil War How the South Won the Civil War Heather Cox Richardson, 2020-03-12 Named one of The Washington Post's 50 Notable Works of Nonfiction While the North prevailed in the Civil War ending slavery and giving the country a new birth of freedom Heather Cox Richardson argues in this provocative work that democracy's blood soaked victory was ephemeral The system that had sustained the defeated South

moved westward and there established a foothold. It was a natural fit. Settlers from the East had for decades been pushing into the West where the seizure of Mexican lands at the end of the Mexican American War and treatment of Native Americans cemented racial hierarchies. The South and West equally depended on extractive industries: cotton in the former and mining, cattle, and oil in the latter, giving rise to a new birth of white male oligarchy despite the guarantees provided by the 13th, 14th, and 15th Amendments and the economic opportunities afforded by expansion. To reveal why this happened, *How the South Won the Civil War* traces the story of the American paradox: the competing claims of equality and subordination woven into the nation's fabric and identity. At the nation's founding, it was the Eastern yeoman farmer who galvanized and symbolized the American Revolution. After the Civil War, that mantle was assumed by the Western cowboy, singlehandedly defending his land against barbarians and savages as well as from a rapacious government. New states entered the Union in the late nineteenth century, and western and southern leaders found yet more common ground. As resources and people streamed into the West during the New Deal and World War II, the region's influence grew. Movement Conservatives led by westerners Barry Goldwater, Richard Nixon, and Ronald Reagan claimed to embody cowboy individualism and worked with Dixiecrats to embrace the ideology of the Confederacy. Richardson's searing book seizes upon the soul of the country and its ongoing struggle to provide equal opportunity to all. *Debunking the myth that the Civil War released the nation from the grip of oligarchy, expunging the sins of the Founding, it reveals how and why the Old South not only survived in the West but thrived.*

Living Hell Michael C. C. Adams, 2014-03-15 A senior military historian presents an unflinching account of the human costs of the Civil War. Many Americans argue, Michael C. C. Adams tends to think of the Civil War as more glorious, less awful, than the reality. Millions of tourists flock to battlefields each year as vacation destinations; their perceptions of the war often shaped by reenactors who work hard for verisimilitude but who cannot ultimately simulate mutilation, madness, chronic disease, advanced physical decay. In *Living Hell*, Adams tries a different tack, clustering the voices of myriad actual participants on the firing line or in the hospital ward to create a virtual historical reenactment. Perhaps because the United States has not seen conventional war on its own soil since 1865, the collective memory of its horror has faded so that we have sanitized and romanticized even the experience of the Civil War. Neither film nor reenactment can fully capture the hard truth of the four-year conflict. *Living Hell* presents a stark portrait of the human costs of the Civil War and gives readers a more accurate appreciation of its profound and lasting consequences. Adams examines the sharp contrast between the expectations of recruits versus the realities of communal living: the enormous problems of dirt and exposure, poor diet, malnutrition, and disease. He describes the slaughter produced by close-order combat, the difficulties of cleaning up the battlefields where tens of thousands of dead and wounded often lay in an area of only a few square miles, and the resulting psychological damage survivors experienced. Drawing extensively on letters and memoirs of individual soldiers, Adams assembles vivid accounts of the distress Confederate and Union soldiers faced daily: sickness, exhaustion, hunger, devastating

injuries and makeshift hospitals where saws were often the medical instrument of choice Inverting Robert E Lee s famous line about war Adams suggests that too many Americans become fond of war out of ignorance of its terrors Providing a powerful counterpoint to Civil War glorification Living Hell echoes William Tecumseh Sherman s comment that war is cruelty and cannot be refined Praise for Our Masters the Rebels A Speculation on Union Military Failure in the East 1861 1865 This excellent and provocative work concludes with a chapter suggesting how the image of Southern military superiority endured in spite of defeat Civil War History Adams s imaginative connections between culture and combat provide a forceful reminder that Civil War military history belongs not in an encapsulated realm with its own categories and arcane language but at the center of the study of the intellectual social and psychological currents that prevailed in the mid nineteenth century Journal of American History Praise for The Best War Ever America and World War II Adams has a real gift for efficiently explaining complex historical problems Reviews in American History Not only is this mythologizing bad history says Adams it is dangerous as well Surrounding the war with an aura of nostalgia both fosters the delusion that war can cure our social ills and makes us strong again and weakens confidence in our ability to act effectively in our own time Journal of Military History

, **Essays on the Civil War and Reconstruction** William Archibald Dunning, 2017-10-12 Excerpt from Essays on the Civil War and Reconstruction And Related Topics OF the essays included in this volume all but one that on The Process of Reconstruction have been published before during the last eleven years four in the Political Science Quarterly one in the Yale Review and one in the Papers of the American Historical Association For the purpose of their present appearance all have been subjected to revision which has resulted in some cases in considerable modifications The first five essays are devoted immediately to various phases of the Civil War and Reconstruction The last two while not concerned exclusively with those topics have nevertheless such a relation to the legal and political questions treated as to justify their inclusion in the volume About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works War Comes Again Gabor Boritt, 1995-05-18 The Civil War and the World War II stand as the two great cataclysms of American history They were our two costliest wars with well over a million casualties suffered in each And they were transforming moments in our history as well times when the life of the nation and the great experiment in democracy government of the people by the people for the people seemed to hang in the balance Now in War Comes Again eleven eminent historians including three Pulitzer Prize winners all veterans of the Second World War offer an illuminating comparison of these two epic events in our national life The range of essays here is remarkable the level of insight

consistently high and the quality of the writing is superb For instance Stephen Ambrose the bestselling author of D Day June 6th 1944 offers an intriguing comparison of the two great military leaders of each war Grant and Eisenhower Pulitzer Prize winning historian Robert V Bruce takes a revealing look at the events that foreshadowed the two wars Gerald Linderman author of Embattled Courage examines the two wars from the point of view of the combat soldier And Arthur Schlesinger Jr describes how both Lincoln and FDR went around strict observance of the Constitution in order to preserve the Constitution There is in addition a fascinating discussion of the crucial role played by spying during the two wars by Peter Maslowski a look at the diplomacy of Lincoln and Roosevelt by Howard Jones and essays on the impact of the wars on women and on African Americans by D Ann Campbell Richard Jensen and Ira Berlin In perhaps the most gripping piece in the book Michael C C Adams offers an unflinching look at war s destructiveness as he argues that the evils we associate with bad wars such as Vietnam are equally true of good wars And finally in perhaps the most provocative essay in the book Russell Weigley one of America s most eminent military historians maps the evolution of American attitudes toward war to our present belief that the only acceptable war is one that is short inexpensive and certain of victory Would any great commander Weigley asks would a Lee or a Grant or a Marshall refuse to fight unless he knew he couldn t lose Is not a willingness to run risks for the sake of cherished values and interests close to the heart of what defines greatness in a human being or in a nation Another Pulitzer winner and World War II veteran Don E Fehrenbacher concludes War Comes Again with a very personal look at two common soldiers who have no monuments who have not been mentioned in previous histories but who point at the essence of these two wars and are embedded in the very structure of the enduring nation and the world we live in

Empire and Liberty Virginia Scharff, 2015-04-09 Empire and Liberty brings together two epic subjects in American history the story of the struggle to end slavery that reached a violent climax in the Civil War and the story of the westward expansion of the United States Virginia Scharff and the contributors to this volume show how the West shaped the conflict over slavery and how slavery shaped the West in the process defining American ideals about freedom and influencing battles over race property and citizenship This innovative work embraces East and West as well as North and South as the United States observes the 2015 sesquicentennial commemoration of the end of the Civil War A companion volume to an Autry National Center exhibition on the Civil War and the West Empire and Liberty brings leading historians together to examine artifacts objects and artworks that illuminate this period of national expansion conflict and renewal

The American Civil War Philip D. Dillard, 2022 The American Civil War A Racial Reckoning provides a concise but comprehensive overview of the American Civil War placing race at the center of the war and Reconstruction experience The book discusses the sectional crisis and the expansion of slavery into new territories as precipitating events that lead many Americans to see slavery as the most important issue facing the nation Political developments and the military struggle are addressed in detail as well as the dramatic social and political changes that occurred as slavery and plantation societies crumbled The author addresses the

creation of Confederate monuments the denial of the centrality of slavery in the conflict and other efforts to redeem and memorialize the Confederacy as key components of the Lost Cause as well as enduring reminders that the issues of white supremacy and racial inequality have yet to be resolved Placing the Civil War and Reconstruction into the context of the nation s continuing struggle for true equality this text provides students a thoughtful analysis of the war s long term impacts An array of primary documents supports the text together with a chronology glossary and Who s Who guide to key figures This book will be of interest to students of the Civil War and those on more general American history courses

Steppingstones to the Civil War Charles C. Finn,2008-02-01 Slavery and the Civil War what is the connection and does it matter From the view point of the book in your hands the connection is absolute and it matters greatly Steppingstones to the Civil War invites readers to revisit American history especially those believing that the devastation costing 600 000 lives think on that figure and shaking to the foundations the American experiment was at root about states rights economy and Northern imperialism and only incidentally about slavery As the chapters on John Calhoun Alexander Stephens Jefferson Davis and the Commissioners from the first seven seceding states marshalling their strongest arguments to convince other slaveholding states to join the Confederacy attest Southern politicians before the war broke out proudly and defiantly agreed that the bone of contention the states right the institution worth fighting over even if it meant the dissolution of the Union was slavery and the racial and economic order it established and perpetuated As soon as the fighting was over however in order to salvage Southern honor and effect reconciliation between once warring whites a different story was constructed the cause though lost was in fact noble since primarily about independence states rights and justifiable protection of hearth and home against invasion This denial of slavery s centrality not only distorts history but for those whose ancestors were so long abused literally adds insult to injury If there is ever to be genuine healing between the races in this country it will begin with facing and accepting painful truth which alone can set us free The cancer infecting the vitals of America compromised into itsvery founding in order that there could be an America despite inspiring efforts of a brave minority over many decades was virulent enough to resist every effort short of the radical surgery of civil war The tragic story can yet set us free if with courage we face the truth of it

The Civil War and Reconstruction James Garfield Randall,1943 **Revisioning the Civil War** James C. Bresnahan,2006 This alternative history examines key events and decisions of the Civil War giving some of the subject s foremost experts a chance to reflect on what could have and could not have happened Provided by publisher

Civil War and Reconstruction Gideon Welles,2011-10 *Essays on the Civil War and Reconstruction* Irwin Unger,1982-06-01
