Revitalizing Cities:

Revitalizing Cities H. Briavel Holcomb, Robert A. Beauregard, 1981 A geographic perspective of urban revitalization is provided in this publication which is intended for geography professors students and researchers There are seven chapters Chapter 1 discusses the geographical aspects of urban revitalization Urban decline and redevelopment is the focus of the second chapter Discussed are parks civic centers and beautification slum clearance jobs and public housing central city decline subsidized redevelopment from 1949 to 1970 interregional shifts and fiscal crisis and community and urban development The extent and causes of revitalization are dealt with in the third chapter Chapters 4 and 5 deal with commercial redevelopment and residential revitalization respectively The importance of image and sentiment in the revitalization of urban areas is the topic of chapter 6 The concluding chapter examines social justice and the revitalization process A bibliography is provided RM

Revitalizing American Cities Susan M. Wachter, Kimberly A. Zeuli, 2014
Revitalizing American Cities explores the historical regional and political factors that have allowed some small industrial cities to regain their footing in a changing economy and considers strategies cities can use for successful rebuilding

Revitalizing America's Cities Michael H. Schill, Richard P. Nathan, 1984-06-30 In many American cities middle and upper income people are moving into neighborhoods that had previously suffered disinvestment and decay The new residents renovate housing stimulate business and contribute to the tax base These benefits of neighborhood revitalization are in some cases achieved at a potentially serious cost the displacement of existing neighborhood residents by eviction condominium conversion or as a result of rent increases *Revitalizing America's Cities* investigates the reasons why the affluent move into revitalizing inner city neighborhoods and the ways in which the new residents benefit the city It also examines the resulting displaced households Data are presented on displacement in nine revitalizing neighborhoods of five cities the most comprehensive survey of displaced households conducted to date The study reveals characteristics of displaced households and hardships encountered as a result of being forced from their homes Also featured is an examination of federal state and local policies toward neighborhood reinvestment and displacement including various alternative approaches for dealing with this issue

Learning from Bryant Park Andrew M. Manshel, 2020-04-17 Andrew M Manshel helped transform New York's Bryant Park from a blighted eyesore to a vibrant destination then applied its strategies to an equally successful renewal project in a very different neighborhood Jamaica Queens Here he candidly describes what does and doesn't work when coordinating urban redevelopment projects

Revitalizing Urban Neighborhoods William Dennis Keating, Norman Krumholz, Philip Star, 1996 Since the 1950s and the advance of urban renewal local governments and urban policy have focused heavily on the central business district However such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise America This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development Together they show how urban

neighborhoods can and must be preserved as economic cultural and political centers Revitalizing the City Fritz W. Wagner, 2005 This practical work demonstrates that controlling urban growth and reviving central city economies are not mutually exclusive endeavors Rather than re hash theories of urban development the contributors describe and evaluate successful community tested approaches to sustaining our cities Revitalizing the City provides actual case examples of urban success stories ranging from San Diego's smart growth initiative to brownfield redevelopment in Pittsburgh The book is divided into four major sections Urban Growth Metropolitan Development and Administration Central City Redevelopment Strategies and Central City Suburban Cooperation Each chapter includes an analysis of key issues descriptions of specific local initiatives highlights of effective policies or programs and potential pitfalls to avoid Revitalizing the City has broad appeal for the urban policy community as well as for undergraduate and graduate courses in urban sociology geography political science and urban studies and planning **Urban Revitalization** Carl Grodach, Renia Ehrenfeucht, 2015-12-22 Following decades of neglect and decline many US cities have undergone a dramatic renaissance From New York to Nashville and Pittsburgh to Portland governments have implemented innovative redevelopment strategies to adapt to a globally integrated post industrial economy and cope with declining industries tax bases and populations However despite the prominence of new amenities in revitalized neighborhoods spectacular architectural icons and pedestrian friendly entertainment districts the urban comeback has been highly uneven Even thriving cities are defined by a bifurcated population of creative class professionals and a low wage low skilled workforce Many are home to diverse and thriving immigrant communities but also contain economically and socially segregated neighborhoods They have transformed high profile central city brownfields but many disadvantaged neighborhoods continue to grapple with abandoned and environmentally contaminated sites As urban cores boom inner ring suburban areas increasingly face mounting problems while other shrinking cities continue to wrestle with long term decline The Great Recession brought additional challenges to planning and development professionals and community organizations alike as they work to maintain successes and respond to new problems It is crucial that students of urban revitalization recognize these challenges their impacts on different populations and the implications for crafting effective and equitable revitalization policy Urban Revitalization Remaking Cities in a Changing World will be a guide in this learning process This textbook will be the first to comprehensively and critically synthesize the successful approaches and pressing challenges involved in urban revitalization The book is divided into five sections In the introductory section we set the stage by providing a conceptual framework to understand urban revitalization that links a political economy perspective with an appreciation of socio cultural factors in explaining urban change Stemming from this we will explain the significance of revitalization and present a summary of the key debates issues and conflicts surrounding revitalization efforts Section II will examine the historical causes for decline in central city and inner ring suburban areas and shrinking cities and building from the conceptual framework discuss theory useful to explain

the factors that shape contemporary revitalization initiatives and outcomes Section III will introduce students to the analytical techniques and key data sources for urban revitalization planning Section IV will provide an in depth critical discussion of contemporary urban revitalization policies strategies and projects This section will offer a rich set of case studies that contextualize key themes and strategic areas across a range of contexts including the urban core central city neighborhoods suburban areas and shrinking cities Lastly Section V concludes by reflecting on the current state of urban revitalization planning and the emerging challenges the field must face in the future Urban Revitalization will integrate academic and policy research with professional knowledge and techniques Its key strength will be the combination of a critical examination of best practices and innovative approaches with an overview of the methods used to understand local situations and urban revitalization processes A unique feature will be chapter specific case studies of contemporary urban revitalization projects and questions geared toward generating classroom discussion around key issues The book will be written in an accessible style and thoughtfully organized to provide graduate and upper level undergraduate students with a comprehensive resource that will also serve as a reference guide for professionals Revitalizing the City Fritz W.

Joint Economic Committee,1977 The Limitless City Oliver Gillham,2002-03 One of the great debates of our time concerns the predominant form of land use in America today the all too familiar pattern of commercial and residential development known as sprawl But what do we really know about sprawl Do we know what it is Where did it come from Is it really so bad If so what are the alternatives Can anything be done to make it better The Limitless City offers an accessible examination of those and related questions Oliver Gillham an architect and planner with more than twenty five years of experience in the field considers the history and development of sprawl and examines current debates about the issue The book offers a comprehensive definition of sprawl in America traces the roots of sprawl and considers the factors that led to its preeminence as an urban and suburban form reviews both its negative impacts loss of open space increased pollution gridlock as well as its positive aspects economic development personal freedom privacy considers responses to sprawl including smart growth urban growth boundaries regional planning and the New Urbanism looks at what can be done to improve and counterbalance sprawl The author argues that whether we like it or not sprawl is here to stay and only by understanding where it came from and why it developed will we be able to successfully address the problems it has created and is likely to create in the future The Limitless City is the first book to provide a realistic look at sprawl with a frank recognition of its status as the predominant urban form in America now and into the near future Rather than railing against it Gillham charts its probable future course while describing critical efforts that can be undertaken to improve the future of sprawl and our existing urban core areas *The President's National Urban Policy Report* United States. Department of Housing and Urban Development, *Managing Capital Resources for Central City Revitalization* Fritz W. Wagner,Timothy E. Joder,Anthony J. Mumphrey, Jr.,2019-10-16 First Published in 2000 This book and its companion volume Human Capital Investment fo r Central City Revitalization are the products of a two year endeavor by the National Center for the Revitalization of Central Cities The National Center is a consortium of academic institutions that analyzes critical problems facing America s central cities evaluates strategies to address those problems and recommends policy alternatives **HUD International Brief** ,1971 **Study of International Housing** ,1971 For eleven year old Flavia de Luce an audience with a gypsy fortune teller at the Bishop s Lacey village fete is just a bit of fun Until the old woman sees or claims to see a vision of Flavia s mother Harriet who died on a mountain side in Tibet when Flavia was a baby She is trying to come home the old woman intones chilling them both With only her faithful bicycle Gladys and her precocious powers of deduction to help her Flavia starts down a dark and twisting road to the truth **The Environmental Impact Statement After Two Generations** Michael R. Greenberg,2013-06-17 This book is about a subject that Michael Greenberg has worked on and lived with for almost forty years He was brought up in the south Bronx at a time when his neighborhood suffered from terrible air and noise pollution and domestic waste went untreated into the Hudson River For him the National Environmental Policy Act NEPA was a blessing It included an ethical position about the environment and the law required some level of accountability

in the form of an environmental impact statement or EIS After forty years of thinking about and working with NEPA and the EIS process Greenberg decided to conduct his own evaluation from the perspective of a person trained in science who focuses on environmental and environmental health policies This book of carefully chosen real case studies goes beyond the familiar checklists of what to do and shows students and practitioners alike what really happens during the creation and implementation of an EIS *Immigration and Metropolitan Revitalization in the United States* Domenic Vitiello, Thomas J. Sugrue, 2017-04-25 After decades of urban crisis American cities and suburbs have revived thanks largely to immigration This is the first book to explore the phenomenon from big cities such as New York Chicago and Los Angeles to newer destinations such as Nashville and suburban Boston and New Jersey
