## **Revitalizing Urban Neighborhoods Studies In Government And Public Policy:**

**Revitalizing Urban Neighborhoods** William Dennis Keating, Norman Krumholz, Philip Star, 1996 Since the 1950s and the advance of urban renewal local governments and urban policy have focused heavily on the central business district. However such development has all but ignored the inner city neighborhoods that continue to struggle in the shadows of high rise America. This analysis of urban neighborhoods in the United States from 1960 to 1995 presents fifteen essays by scholars of urban planning and development. Together they show how urban neighborhoods can and must be preserved as economic, cultural and political centers. Business Improvement Districts and the Contradictions of Placemaking Susanna F. Schaller, 2019-07-15 The livable city, the creative city and more recently the pop up city have become pervasive monikers that identify a new type of urbanism that has sprung up globally produced and managed by the business improvement district and known colloquially by its acronym BID. With this case study Susanna F. Schaller draws on more than fifteen years of research to present a direct focused engagement with both the planning history that shaped Washington D C's landscape and the intricacies of everyday life, politics and planning practice as they relate to BIDs. Schaller offers a critical unpacking of the BID ethos which draws on the language of economic liberalism, individual choice, civic engagement, localism and grassroots development to portray itself as color blind, democratic and equitable. Schaller reveals the contradictions embedded in the BID model. For the last thirty years BID advocates have engaged in effective and persuasive storytelling as a result many policy makers and planners perpetuate the BID narrative without examining the institution and the inequities it has wrought. Schaller sheds light on these oversights thus fostering a critical discussion of BIDs and their collective influence on future urban landscapes. Forum for Applied Research and Public Policy, 1995 Rebuilding Urban Neighborhoods W. Dennis Keating, Norman Krumholz, 1999-08-21 *Rebuilding Urban Neighborhoods* presents a timely look at some of the most troubled neighborhoods in eight American cities: Atlanta, Camden, Chicago, Cleveland, East Saint Louis, Los Angeles, Miami and New York City. The authors W. Dennis Keating and Norman Krumholz review past federal policies and early assessments of the latest federal initiative, the Empowerment Zone. They find some signs of revival even in the most distressed urban neighborhoods but often as an overlay to persistent poverty and social problems. The case studies emphasize the important roles played by Community Development Corporations and the book concludes with an analysis of the future prospects for distressed urban neighborhoods. **Governing Metropolitan Areas** David K. Hamilton, 2014-04-24 Interest and research on regionalism has soared in the last decade Local governments in metropolitan areas and civic organizations are increasingly engaged in cooperative and collaborative public policy efforts to solve problems that stretch across urban centers and their surrounding suburbs Yet there remains scant attention in textbooks to the issues that arise in trying to address metropolitan governance *Governing Metropolitan Areas* describes and analyzes structure to understand the how and why of regionalism in our global age The book covers governmental institutions and their evolution to governance but with a continual focus on institutions David

Hamilton provides the necessary comprehensive in depth description and analysis of how metropolitan areas and governments within metropolitan areas developed efforts to restructure and combine local governments and governance within the polycentric urban region This second edition is a major revision to update the scholarship and current thinking on regional governance While the text still provides background on the historical development and growth of urban areas and governments efforts to accommodate the growth of metropolitan areas this edition also focuses on current efforts to provide governance through cooperative and collaborative solutions There is also now extended treatment of how regional governance outside the United States has evolved and how other countries are approaching regional governance
