Reviving The World Court:

Reviving the World Court Richard A. Falk, 1986 Encyclopedia of Government and Politics M. E. Hawkesworth, Maurice Kogan, 1992 **Encyclopedia of Government and Politics** Mary Hawkesworth, Maurice Kogan, 2013-11-07 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers **Commonweal**, 1929 *The Survey*, 1928 **Revival: Legitimacy Deficit in Custom: Towards a Deconstructionist Theory (2001)** Ben Chiagra, 2017-07-05 Cover Half Title Dedication Title Page Copyright Page Table of Contents List of Treaties and Declarations List of Cases and Incidents List of Abbreviations Introduction 1 Juridification of Custom Introduction Etymology of Custom Custom as a Law creating Mechanism Unpacking Custom s Content On the Material Elements of Custom Publicists on Custom The ILA Committee on Formation of General International Law Customary International Law and Obligation Conclusion 2 International Organisation and Custom From 1920 to Contemporary Perspectives Introduction Sovereignty s Temporal Fortunes Attribution to the United Nations of Sovereign like Competencies International Human Rights and Custom Conclusion 3 Legitimacy Deficit in Article 38 1 b s Jurisprudence Introduction Legitimacy Conclusion 4 Deconstructionism Normative Theory and Custom Introduction Deconstruction Customary International Law and Deconstructionist Critique Conclusion 5 Inauguration of New Norms of Customary Law in the Corfu Channel Case Introduction The ICJ Inaugurates Customary International Law in the Corfu Channel Case The ICJ Premises Custom on Violent Hierarchical Oppositions The Corfu Channel Case s Contribution to Understanding of Custom Conclusion 6 Custom and State Objection to Nascent Norms of Customary Law Introduction The ICJ Identifies Rules of Customary International Law on the Delimitation of Fisheries Zones The Persistent Objector in the Process of Custom Conclusion 7 Twining Custom with Treaty North Sea Continental Shelf Cases Introduction Background Positive Law Test of Customary International Law Legitimacy Deficit in Custom Conclusion 8 Conclusions Introduction Difficulties Submissions Bibliography *The Revival of Israel* Moses Hess, 1995-01-01 Its author Moses Hess 1812 1875 was a German socialist who brought his revolutionary zeal to the preaching of Jewish nationalism The Revival of Israel combines a fervent sense of national destiny with ethical socialism and religious conservatism Hess believed that Papal Rome represented the source of anti-Semitism and that universal ideals

of justice and equality were inherent in the history and aspirations of the Jewish people who could fulfill their historical promise only in their ancient Holy Land under their own rule Without spiritual regeneration Judaism was in danger of becoming nothing more than a creed or cult too many German Jews had already assimilated He looked above all to France home of revolution to protect the Jews considering it the sacred duty of Christians to help them regain their promised land Unnoticed at first The Revival of Israel was later discovered and adopted by the Zionists

Consent and Commitment in the World Community Douglas M. Johnston, 1997 Consent and Commitment in the World Community The Classification and Analysis of International Instruments recommends an empirically premised and functionally oriented system for classifying such instruments that serves splendidly not only to promote intellectual order in otherwise imperfectly revealed experience but as well to satisfy the operational needs of making and shaping public policy It demonstrates remarkably well that there is nothing quite so practical as a good theory And along the way with Talmudic style footnotes providing every manner of useful example and keen insight the author treats us to penetrating explorations of international law in the past present and potential future of world order *League of Nations News*, 1928 *Boston University International Law Journal*, 1989

The European Union, the United Nations, and the Revival of Confederal Governance Frederick Lister, 1996-07-11 Before it became a federation the United States was briefly a confederation a much looser union composed of states rather than of peoples Unions of states to promote economic well being and to prevent war are now being revived Mr Lister analyzes modern confederalism and how it is functioning in the single market of the European Union and how it might function if the collective security system of the United Nations could be carried out as originally planned by a confederal style partnership of the world's independent states Political scientists have traditionally classified voluntary polities as confederations federations or unitary states But they have ignored the first of these classes perhaps because Alexander Hamilton wishing to mobilize support for the new federal constitution discredited not only the United States Confederation but the whole class of confederations as a viable method of governance More than 200 years later confederation as a form of governance is still under a cloud Yet it has been resurfacing largely unrecognized for what it is in the repertory of government In the treaties of Rome and Maastricht and in the collective security system of the Charter the European Union and the United Nations are already involved in forms of governance that are confederal in all but name Lister's book describes confederal governance and how such unions of states differ from intergovernmental organizations on the one hand and federations on the other Meticulously researched and carefully argued it draws upon his five years of study of confederal unions from Ancient Greece through the 19th century Germanic Confederation and the German Zollverein But his book is not a history of confederations Instead it shows how long term alliances sometimes evolve into unions of states and in time into communities of the peoples who live in those states It also shows how the ties of confederal union have been institutionalized in modern times in the EU and how they might be institutionalized in a global collective security body L L Finally the book stresses the urgency of

moving in this direction because we shall face a very serious security problem in the next century With the steady leakage of nuclear materials in Russia the non proliferation approach to controlling weapons of mass destruction appears to be breaking down Lister argues that if and when governments are confronted with this looming problem perhaps in the not too distant future the confederal model may be the one that they will need to have updated and at their disposal Virginia journal of international law ,1987 **Revival: Human Rights in Philosophy and Practice (2001)** Burton M. Leiser,Tom D. Campbell,2017-07-12 This title was first published in 2001 The essays in this highly cosmopolitan collection were selected from over 250 contributions presented at the 19th World Congress in Philosophy of Law and Social Philosophy IVR held in New York in 1999 They represent a cross section of contemporary work on human rights derived from eleven different countries The Law of International Organizations Michael P.
