Brintnall, 2025-07-01 First published in 1979 *Revolt Against the Dead* describes the changing lifestyle of the Aguacatec Indians a Mayan peasant people of the northwestern highlands of Guatemala The author presents the societal transformation from an economic social political and religious perspective The book explores both internal and external factors responsible for bringing about the change in the Aguacatan community It emphasizes the interplay between changing local conditions and outside influences As many factors that occurred at different times were responsible for the transformation most of the book is organized into a kind of history The local events are therefore presented as three major epochs traditional Aguacatan a transitional period of collapse and the contemporary new order This volume will be of interest to students and researchers of anthropology and history **Revolt Against Maturity** R. J.

Rushdoony, 2020-04-13 *Revolt Against Maturity* is a study of Biblical psychology Biblical psychology contrasts sharply with a science of the mind based on the religious presuppositions of humanism which regards man as having no constant nature A science of the mind based on humanism views the mind as a clean slate and man's nature as plastic to be molded by men and institutions in the image of man for the new order he will establish The Biblical view sees Psychology as a branch of theology theology is a study of all that the Scriptures declare about God Theology is essential not only to the study of psychology but to ethics anthropology soteriology eschatology etc Biblical Psychology assumes that man is created in the image of God directly and not indirectly through theistic or any other kind of evolution Being created directly by God man is not in the process of defining or determining his ontological qualities Man has already been determined and defined by God Thus it is God who has established the limits and nature of the mind The mind of regenerate man experiences radically different motives and presuppositions from those of unregenerate man The author sees the central task of Christian Psychology as that of discerning the mind and soul differences that exist between the regenerate and unregenerate Pastoral counseling should first seek to establish whether or not a person is truly regenerate and then aid the regenerate to further growth in sanctification Work was to have provided the joy of fulfillment in God's goal of maturity for man but because of the curse man is often subject to the frustration of meaningless and degrading work True work is the exercise of dominion over the creation under God When man's work is separated from dominion of the created world he is often subject to moral and religious paralysis and becomes a sick soul Man suffers similarly when he abstracts God from reality Since God created everything nothing can be interpreted apart from God When man attempts this impossibility he suffers psychologically True knowledge of anything is revelational of God Thus an aspect of man's revolt against maturity and against life is his revolt against knowledge Psychological damaging is inevitable for those in revolt against the maturity which the God of all life and all knowledge has purposed for man The certain and true guilt which the human personality suffers because of sin can be alleviated only when God effects regeneration through the atoning blood of Christ Thus having laid aside the old self with its

evil practices the new self is being renewed to a true knowledge according to the image of the One who created him in righteousness and holiness of the truth Col 3 10 Eph 4 24 In the general or wider sense the image of God in man means that man like God is a personality The author notes that in the redeemed man this means that man becomes progressively more and more a person self conscious in his growth and character as opposed to being unconscious of his nature and steadily manifesting more and more the image of God in knowledge righteousness holiness and dominion Sanctification is unto holiness by which man realizes his chief end to glorify God and enjoy Him forever But because of his revolt against maturity man continues to suffer psychological damage both personally and collectively through the chaotic condition of his mind and his culture

**Revolt Against the Modern World** Julius Evola, 2018-07-13 With unflinching gaze and uncompromising intensity Julius Evola analyzes the spiritual and cultural malaise at the heart of Western civilization and all that passes for progress in the modern world As a gadfly Evola spares no one and nothing in his survey of what we have lost and where we are headed At turns prophetic and provocative *Revolt against the Modern World* outlines a profound metaphysics of history and demonstrates how and why we have lost contact with the transcendent dimension of being The revolt advocated by Evola does not resemble the familiar protests of either liberals or conservatives His criticisms are not limited to exposing the mindless nature of consumerism the march of progress the rise of technocracy or the dominance of unalloyed individualism although these and other subjects come under his scrutiny Rather he attempts to trace in space and time the remote causes and processes that have exercised corrosive influence on what he considers to be the higher values ideals beliefs and codes of conduct the world of Tradition that are at the foundation of Western civilization and described in the myths and sacred literature of the Indo Europeans Agreeing with the Hindu philosophers that history is the movement of huge cycles and that we are now in the Kali Yuga the age of dissolution and decadence Evola finds revolt to be the only logical response for those who oppose the materialism and ritualized meaninglessness of life in the twentieth century Through a sweeping study of the structures myths beliefs and spiritual traditions of the major Western civilizations the author compares the characteristics of the modern world with those of traditional societies The domains explored include politics law the rise and fall of empires the history of the Church the doctrine of the two natures life and death social institutions and the caste system the limits of racial theories capitalism and communism relations between the sexes and the meaning of warriorhood At every turn Evola challenges the reader's most cherished assumptions about fundamental aspects of modern life A controversial scholar philosopher and social thinker JULIUS EVOLA 1898 1974 has only recently become known to more than a handful of English speaking readers An authority on the world's esoteric traditions Evola wrote extensively on ancient civilizations and the world of Tradition in both East and West Other books by Evola published by Inner Traditions include *Eros and the Mysteries of Love* *The Yoga of Power* *The Hermetic Tradition* and *The Doctrine of Awakening*

**Cities of the Dead** Joseph R. Roach, 1996 The colorful handmade costumes of beads and feathers swirl frenetically as the Mardi Gras Indians dance through the streets of New Orleans in remembrance of a widely disputed cultural heritage Iroquois Indians visit London in the early part of the eighteenth century and give birth to the feathered people in the British popular imagination What do these seemingly disparate strands of culture share over three hundred years and several thousand miles of ocean Artfully interweaving theatrical musical and ritual performance from the eighteenth century to the present in London and New Orleans Cities of the Dead takes a look at a rich continuum of intercultural exchange that reinvents recreates and restores history Complemented with fifty five illustrations including spectacular photos of the famed Mardi Gras Indians this fascinating work employs an entirely unique approach to the study of culture Rather than focusing on one region Cities of the Dead explores broad cultural connections over place and time showing through myriad examples how performance can revise the unwritten past

**The Place of the Dead** Bruce Gordon, Peter Marshall, 2000-01-28 This volume of essays provides a comprehensive treatment of a very significant component of the societies of late medieval and early modern Europe the dead It argues that to contemporaries the placing of the dead in physical spiritual and social terms was a vitally important exercise and one which often involved conflict and complex negotiation The contributions range widely geographically from Scotland to Transylvania and address a spectrum of themes attitudes towards the corpse patterns of burial forms of commemoration the treatment of dead infants the nature of the afterlife and ghosts Individually the essays help to illuminate several current historiographical concerns the significance of the Black Death the impact of the protestant and catholic Reformations and interactions between elite and popular culture Collectively by exploring the social and cultural meanings of attitudes towards the dead they provide insight into the way these past societies understood themselves

**Nation of Dead Patriots** Dr. Oliver Akamnonu, 2009-02-16 An imaginary African country Mungeruun gains its independence from the colonial authorities after a fairly protracted but bloodless struggle An internal struggle for power between a few of its politicians is amicably sorted out in the interest of national cohesion An army coup d'etat that involved a lopsided assassination of principal officers and civilian leaders is followed by a countercoup with indiscriminate killing of officers and civilians alike A devastating civil war in which the former colonial master plays less than an impartial role follows An unusual collaboration between the Eastern and Western world power blocks ensures the defeat of the rebellious section of the country That section had declared that its military technology was light years ahead of that of the other side perhaps thereby provoking cooperation against her by strange bedfellows The

acclaimed leader of the free world is apparently persuaded to play a mere observer role under the persuasion that the conflict is an internal affair of the concerned country The discovery of massive reserves of oil places the reunited country in an unprecedented economic advantage But the new rich status of the country does not translate to a better life for the majority of the countrys peoples as monumental and unimaginable levels of corruption bedevils the framework of the once promising nation whose patriots of old had sacrificed so much to ensure its independence and progress What went wrong With the corruption of the young even from the cradles are there hopes for a return to the path of good and patriotic governance

**The Fate of the Dead** Richard Bauckham,2014-04-09 These studies focus on personal eschatology in the Jewish and early Christian apocalypses The apocalyptic tradition from its Jewish origins until the early middle ages is studied as a continuous literary tradition in which both continuity of motifs and important changes in understanding of life after death can be charted As well as better known apocalypses major and often pioneering attention is given to those neglected apocalypses which portray human destiny after death in detail such as the Apocalypse of Peter the Apocalypse of the Seven Heavens the later apocalypses of Ezra and the four apocalypses of the Virgin Mary Relationships with Greco Roman eschatology are explored Several chapters show how specific New Testament texts are illuminated by close knowledge of this tradition of ideas and images of the hereafter

**Dharma of the Dead** Christopher M. Moreman,2018-07-10 With the increased popularity of zombies in recent years scholars have considered why the undead have so captured the public imagination This book argues that the zombie can be viewed as an object of meditation on death a memento mori that makes the fact of mortality more approachable from what has been described as America s death denying culture The existential crisis in zombie apocalyptic fiction brings to the fore the problem of humanity s search for meaning in an increasingly global and secular world Zombies are analyzed in the context of Buddhist thought in contrast with social and religious critiques from other works
