Transformations and Crisis of Liberalism in Argentina, 1930-1955 Jorge A. Nállim, 2014-08-14 Nállim chronicles the decline of liberalism in Argentina during the volatile period between two military coups the 1930 overthrow of Hipólito Yrigoyen and the deposing of Juan Perón in 1955 While historians have primarily focused on liberalism in economic or political contexts Nállim instead documents a wide range of locations where liberalism was claimed and ultimately marginalized in the pursuit of individual agendas Nállim shows how concepts of liberalism were espoused by various groups who invented traditions to legitimize their methods of political religious class intellectual or cultural hegemony In these deeply fractured and corrupt processes liberalism lost political favor and alienated the public These events also set the table for Peronism and stifled the future of progressive liberalism in Argentina Nállim describes the main political parties of the period and deconstructs their liberal discourses He also examines major cultural institutions and shows how each attached liberalism to their cause Nállim compares and contrasts the events in Argentina to those in other Latin American nations and reveals their links to international developments While critics have positioned the rhetoric of liberalism during this period as one of decadence or irrelevance Nállim instead shows it to be a vital and complex factor in the metamorphosis of modern history in Argentina and Latin America as well

Crime and the Administration of Justice in Buenos Aires, 1785-1853 ,2006-01-01 Crime and the Administration of Justice in Buenos Aires 1785 1853 analyzes the emergence of the criminal justice system in modern Argentina focusing on the city of Buenos Aires as a case study It concentrates on the formative period of the postcolonial penal system from the installation of the second Audiencia the superior justice tribunal in the viceroyalty of Río de la Plata in 1785 to the promulgation of the Argentine national constitution in 1853 when a new phase of interregional organization and codification began Through analysis of criminal cases Barreneche shows how different interpretations of liberalism the changing roles of the new police and the military and the institutionalization of education all contributed to the debate on penal reform during Argentina's transition from colony to state Only through understanding the historical development of legal and criminal procedures can contemporary social scientists come to grips with the struggle between democracy and authoritarianism in modern Argentina

Economic Elites, Political Parties and the Electoral Arena Felipe Monestier, 2023-12-14 This book delves into the intricate dynamics between economic elites and the political party system in Argentina Chile and Uruguay particularly during their democratization phases in the twentieth century It introduces a novel framework for comprehending the diverse political strategies adopted by these countries economic elites during this critical period The central premise of this book is that the interplay between the cohesion of economic elites and the mobilization of popular sectors at specific historical junctures profoundly influences the nature of elite political involvement While existing literature has extensively discussed the strategies employed by economic elites to safeguard their interests this book takes a fresh approach by considering three primary configurations of

relationships between economic elites and political parties It explores cases where economic elites are the primary constituency of parties they have founded as well as instances where upper class interests are predominantly defended outside the party system through mechanisms such as the armed forces pressure groups and lobbying Additionally it examines scenarios where economic elites align themselves with parties boasting a polyclass constituency exerting limited influence over these parties This book goes beyond traditional analyses by proposing a theory that elucidates how the interaction between elite cohesion and popular sector mobilization determines the specific forms of elite political involvement It also charts the historical sequences of this process emphasizing the evolution of the causal relationship over time To illustrate this theory the book employs a comparative historical analysis scrutinizing the three aforementioned cases to identify factors that account for the different forms of economic elite political participation It discerns that the level of cohesion among economic elites and the degree of mobilization among popular sectors are pivotal factors shaping elite party relationships
