Revolution And Chinese Foreign Policy:

Revolution and Chinese Foreign Policy Peter Van Ness,1973 Chinese Foreign Policy Thomas W. Robinson, David L. Shambaugh,1995 This study of Chinese foreign policy is intended for academics and graduates of Chinese studies and of international relations international economics and those interested in decision making theory Revolutionary Diplomacy J. D. Armstrong, 2024-06-21 From the Introduction The principal question that is posed in this study is what has been the influence of Mao s united front doctrine on China s foreign policy A related but secondary question is also considered In what ways if any has China's participation in the international system caused Peking to revise its conception of a united front in world politics Insofar as Mao's thoughts about united fronts are part of the total array of theories and operational principles that make up the Chinese communist ideology this essay considers one aspect of the relationship between ideology and foreign policy Since this guestion has long been the subject of a mostly inconclusive and often circular academic debate Armstrong states his reasons for returning to it here The first is that the problem is no less important because it admits of no easy solution Indeed with the breakdown in the twentieth century of even the limited consensus over norms and values that permitted a great power concert to exist for part of the nineteenth the question is clearly one of major significance in contemporary international relations Since China has become in many ways a symbol of the postwar ideological challenge to the established order in world politics the question is particularly relevant in a study of China's foreign policy Finally by combining a strictly limited focus of enquiry with a systematic approach to the problem it may be possible to overcome some of the analytical difficulties that surround the larger issue of the relation of ideas to social practice This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology. Chinese Foreign Policy Barbara Barnouin, Yu Changgen, 2013-10-28 First published in 1998 In this study what is proposed here is first of all to examine the effect it had on the very functioning of the Chinese Ministry of Foreign Affairs and how the turmoil of the Cultural Revolution of which the country had become a victim spilled over to this highly elitist and prestigious Ministry In summary it focuses on the chaos that engulfed the institution **Development of Modern Chinese Foreign Policy Thought** Ivica Bakota, Zvonimir Stopić, Mato Njavro, 2024-11-15 This book presents a comprehensive exploration of China s foreign policy evolution from the early twentieth century to the contemporary era The intricate interplay between the People's Republic of China the Chinese Communist Party CCP and the global stage is meticulously

traced offering a nuanced understanding of China's dynamic engagement with the world With a detailed analysis spanning eight chapters the book delves into the contextual factors that influenced CCP s initial foreign policy ideas prior to the establishment of the People's Republic It systematically unravels the gradual development of these ideas during the Cold War era and unveils the fundamental and adaptive trajectories that have shaped China's foreign policy landscape over the past three decades Utilizing primary sources and academic texts the book incorporates both Chinese and global perspectives to shed new light on the evolution of Chinese foreign policy thought making it an invaluable contribution to the study of China s global interactions. The authors uniquely bridge the gap between different stages of China's foreign policy development across a centennial timeframe offering an organic perspective on its growth and their comprehensive analysis of China's foreign policy toolset adds a distinctive dimension to existing knowledge By steering clear of preconceived notions the book delivers a well rounded analysis of China's foreign policy evolution **Power and Responsibility in Chinese Foreign Policy** Yongjin Zhang, Greg Austin, 2014-01-10 The People's Republic of China is now over fifty years old Long considered an outsider or a club of one in international relations China has recently become more active in international institutions Is China becoming a responsible power in global and regional international relations. How accurate is the traditional perception of China What factors may be motivating the changes in China's approach to international institutions and its perceptions of its own role in the world There is no certainty that China is becoming a more responsible power recent developments may be just another manifestation of realpolitik Power and Responsibility in Chinese Foreign Policy provides a vital insight into these issues analysing the critical issues in China's international relations China's regional and global diplomatic and security problems the changing role of the People's Liberation Army human rights religious and democratic movements and the concept of responsibility Power and Responsibility in Chinese Foreign Policy is an insightful and vital introduction to all sides of the current debate over China's international relations **Interpreting Chinese Foreign Policy** Ouansheng Zhao, 1996 This work applies the micro macro linkage approach to Chinese foreign policy It analyzes the effect of the international environment and domestic constraints exploring the key trends of modernization nationalism and regionalism reviewing literature an Revolutionary Diplomacy. Sutter, 2018-07-12 Now in a fully updated edition this cogent but comprehensive book examines the international relations of the People's Republic of China since its founding in 1949 Noted scholar Robert G Sutter provides a balanced assessment of the country's recent successes and advances as well as the important legacies and constraints that hamper it especially in nearby Asia long the focus of China's foreign policy attention Sutter demonstrates how Beijing has carefully created an image of a China that follows consistent policies based on morally correct principles but its record shows repeated episodes of sometime surprising change and frequent use of violence intimidation and coercion China's leaders he argues still fail to manage the desire for productive foreign relations with their aspirations to build Chinese security and sovereignty interests Image building efforts condition Chinese public and elite opinion to be extraordinarily sensitive self righteous and often alarmist in dealing with the many disputes China has with its Asian neighbors and the United States Advances that the PRC has made in other parts of the world focus mainly on commercial interests limiting its actual impact on world affairs Sutter shows readers how to use China's rise in nearby Asia as a reliable barometer of how important and effective the country will actually become internationally Revolutionary States, Leaders, and Foreign Relations Houman A. Sadri, 1997-04-16 This book compares and contrasts the foreign relations strategies of China Cuba and Iran in the first decade of their post revolutionary periods Among a variety of explanatory variables leadership particularly the type of revolutionary leaders played a significant role in explaining the outcome of the policymaking process in each case Three distinct patterns of foreign relations strategies are evident among all three revolutionary regimes in the ten year period Two Track Conflictual and Conciliatory This book is a valuable source for both experts and non experts alike in providing insight into the foreign relations of revolutionary regimes in developing countries and in helping U S policymakers anticipate behaviors of future revolutionary leaders A focal point of this book is the examination of the nonalignment strategies of these prominent developing countries during the infancy of their regimes Each state s particular strategy is described and explained in detail and then contrasted and compared Although there are differences among their foreign policies considering their geographic locations size wealth military capabilities leadership characteristics and political institutions there are significant similarities regarding their foreign policy goals and trends in their foreign relations with the Great Powers Among explanatory factors leadership played a significant role in the policy making process although the foreign relations strategies of these revolutionary regimes were fed by a combination of national and international variables In all three states the tone of foreign policy was set by revolutionary leaders who were either idealists or realists Idealists tended to take a more active and

conflictual approach toward one or both of the superpowers while Realists were more cautious and less willing to resort to a conflictual posture This book also investigates the gap between the theoretical and practical nonalignment stance of each state This cross regional study provides policy analysts with clues about the foreign policies of other revolutionary developing countries in similar situations Finally it makes suggestions about how a Great Power may relate to a developing country during its first post revolution decade The Dynamics of China's Foreign Relations Jerome Alan Cohen, 2020-03-17 Includes chapters on China's policies toward India the role of trade in China's diplomacy with Japan China's attitude toward Mao Zedong & China's Foreign Policy trade with the United States and China's competitive diplomacy in Africa Amrita Jash, 2025-07-22 This book analyses China's foreign policy from 1949 to 1976 through a cognitive perceptual lens emphasise Mao Zedong's central role as the primary decision making authority Moving beyond realist frameworks it highlights how Mao's ideological worldview shaped by his theory of contradictions revolutionary zeal and use of historical analogies drove China's foreign policy particularly in relation to Vietnam His subjective interpretation of global affairs reinforced by Marxist Leninist principles and China's historical identity guided key strategic decisions. The study underscores the importance of individual leaders beliefs perceptions and psychological traits in shaping foreign policy offering broader implications for understanding international relations through cognitive and psychological approaches Dictionary of Chinese Foreign Affairs Lawrence R.
