## Revolution In Iran:

**The Unthinkable Revolution in Iran** Charles Kurzman, 2005-09-06 The shah of Iran Mohammad Reza Pahlavi would remain on the throne for the foreseeable future This was the firm conclusion of a top secret CIA analysis issued in October 1978 One hundred days later the shah despite his massive military fearsome security police and superpower support was overthrown by a popular and largely peaceful revolution But the CIA was not alone in its myopia as Charles Kurzman reveals in this penetrating work Iranians themselves except for a tiny minority considered a revolution inconceivable until it actually occurred Revisiting the circumstances surrounding the fall of the shah Kurzman offers rare insight into the nature and evolution of the Iranian revolution and into the ultimate unpredictability of protest movements in general As one Iranian recalls The future was up in the air Through interviews and eyewitness accounts declassified security documents and underground pamphlets Kurzman documents the overwhelming sense of confusion that gripped pre revolutionary Iran and that characterizes major protest movements His book provides a striking picture of the chaotic conditions under which Iranians acted participating in protest only when they expected others to do so too the process approaching critical mass in unforeseen and unforeseeable ways Only when large numbers of Iranians began to think the unthinkable in the words of the U S ambassador did revolutionary expectations become a self fulfilling prophecy A corrective to 20 20 hindsight this book reveals shortcomings of analyses that make the Iranian revolution or any major protest movement seem inevitable in retrospect

**Revolution in Iran** Parviz Daneshvar, 2016-07-27 Revolutions are watershed events that attempt to transform the existing political order and replace it with a new but better one Yet the hallmark of most revolutions has been violence war and dictatorship The Iranian Revolution of 1979 has been no exception This book offers a critical analysis of the Iranian Revolution It focuses on the upheavals that led to the fall of the Shah It provides the reader with an appreciation for the interplay of forces in the making of the 1979 revolution and the emergence of the Islamic regime Iran Haleh Afshar, 1985-09-24 Contesting the Iranian Revolution Pouya Alimagham, 2020-03-19 Examines the last forty years of Iranian and Middle Eastern history through the prism of the Green Uprisings of 2009 *Revolution in Iran* Enver M. Koury, Charles G. MacDonald, 1982

**Revolution in Iran** Mehran Kamrava, 2016-11-10 Observers of Iran have often ascribed the main cause of the revolution to economic problems under the Shah s regime This book first published in 1990 on the other hand focuses on the political and social factors which contributed of the Pahlavi dynasty Mehran Kamrava looks at the revolution in detail as a political phenomenon making use of extensive interviews with former revolutionary leaders cabinet ministers and diplomats to show the central role of the political collapse of the regime in bringing about the revolution He concentrates on the internal and the international developments leading to this collapse and the social environment in which the revolution s leaders emerged Inside the Iranian Revolution John D. Stempel, 1981 In this Second Edition of Inside the Iranian Revolution first published in 1981 author John Stempel describes his experience and

insight as a U S Foreign Service Officer in Tehran from 1975-1979. He then continues with an updated chapter to describe what we can draw from the experiences of three decades ago and apply to the current diplomatic relationship between the U S and Iran. John Stempel is a Foreign Service officer who was stationed in Tehran through the early stages of the Iranian revolution; he left four months before the hostages were taken. Mr Stempel explains the strengths and weaknesses that accumulated through the Shah's reign. Among the latter, he says, was the Shah's alternating between attempts to build genuine political support for his regime and reliance on the repressive tactics of his secret police. Mr Stempel's concluding chapters are effective. He suggests that the Shah might have survived by being simultaneously more liberal and more ruthless: by offering more than a token of political participation to opposition groups but then punishing those who would not support the liberalized regime. On the American side, Mr Stempel points out the slowness to develop intelligence sources among opposition groups and the contradictory signals sent to the Shah. Mr Stempel also implies that once the hostage situation reached deadlock, the United States should have come more quickly to the recognition that military force was necessary.

Amazon.com *The Turban for the Crown* Said Amir Arjomand, 1988. Arjomand's *The Turban for the Crown* provides a thoughtful, painstakingly researched and intelligible account of the 1979 Islamic revolution in Iran, which reveals the importance of this singular event for our understanding of revolutions. Providing crucial historical background, Arjomand examines both the structure of authority in Shi'ism, one of the two main branches of Islam, and the impact of the modern state on Iranian society, two factors essential to the comprehension of the revolution and its aftermath.

**A Century of Revolution** John Foran, 1994. Provides insight into the political currents that led to the Iranian revolution. Before late 1978, Iran did not occupy a large place in the public mind, mass media, or academic pursuits. With the massive upheaval of the next few months, all this changed, and the world is still trying to catch up with the dramatic events that brought Iran to its attention. This volume offers a much-needed look into the historical, social, and political developments leading up to the Iranian revolution. Bringing together a group of scholars, historians, and social scientists, most of them Iranian in origin, the book documents an extraordinary revolutionary heritage that predates this century. Each contributor examines a critical moment in Iranian social history on its own terms as well as within a larger theoretical and comparative context. The topics they take up include the Tobacco Rebellion of 1890-91, the Constitutional Revolution of 1905-11, the rise of Reza Khan between 1921 and 1925, the autonomy movement in Azerbaijan and Kurdistan after World War II, the oil nationalization movement under Musaddiq between 1951 and 1953, the unrest of the 1960-63 period, the Iranian revolution of 1977-79, the state of Iran since the revolution. Throughout, common themes emerge, especially the heterogeneous bases of Iranian social movements with respect to class, gender, and ethnicity, as well as the diverse discourses: nationalist, Islamic, socialist, populist, and radical, that have animated these movements. Representing a wide variety of perspectives and approaches, this volume provides crucial insight into the widely watched but poorly understood phenomenon of present-day Iran. Contributors: Janet

develops a structural theory of the causes and outcomes of revolution applying the theory in particular to Iran. He focuses on the ends and means of various groups of Iranians before, during, and after the revolution. For Parsa, revolution is not a direct result of ideologies which may be less important than structural factors such as the nature of the state and the economy as well as each group's interests, capacity for mobilization, autonomy, and solidarity structures. Existing theories of revolution explain earlier revolutions better than the Iranian revolution. In Iran, most of the protest was in urban areas; the peasants never played a major role and power was transferred to the clergy, not to an intelligentsia. In the 1970s, oil revenues increased, the economy developed rapidly but unevenly, and the state's expanded intervention undermined market forces and politicized capital accumulation. Systematic repression of workers' aid to the upper class and attacks on secular and religious opposition showed that the state was serving the interests of particular groups. When the state tried to check high inflation by imposing price controls on bazaar merchants, shopkeepers, artisans, their protests forced the state to introduce reforms providing an opportunity for industrial workers, white collar workers, intellectuals, and the clergy to mobilize against the state. Thus, structural features rendered the state vulnerable to challenge and attack. Parsa's thorough explanation of the collective actions of each major group in Iran in the three decades prior to the revolution shows how a coalition of classes and groups, using mosques as safe gathering places and led by a segment of the clergy, brought down the monarch in 1979. In the years since the revolution, the conflicts that existed before the revolution seem to be reemerging in slightly altered form. The clergy now has control and the state has become centrally and powerfully involved in the economy of the country. The Return of the Ayatollah Muḥammad Ḥasanayn Haykal, 1981
