Revolution of the Mystics Jan Peter Schouten, 1995 One of the most fascinating episode in the religious history of Southern India is the rise of the Virasaiva movement These heroic followers of Siva also called Lingayatas are characterized by a unique combination of intense devotion and social reformation The movement arose in the twelfth century under the charismatic leadership of Basava Men and women from every background highcaste as well as untouchable joined the experimental community of the Virasaivas They have their own sacred literature in the form of short poems in the vernacular language of the region Kannada

Revolution of the Mystics Jan Peter Schouten, 1995 **Subaltern Saints in India**
Meenakshi Jha, 2022-01-01 The present era of complexity anxiety and moral turpitude is in need of spiritual solace and God's grace more than ever before The established frameworks of religion have not entirely been successful in streamlining the rapport between the maker and the creation The emergence and progression of bhakti saints is a significant power in this direction Living exemplary realised lives on their own terms mostly in opposition to the given frame of life the bhakti saints heralded a new possibility of the egalitarian order without any bigotry or dogmatism The book undertakes a probe into the specific contributions made by two hitherto neglected sections of the Indian society namely women and Sudras The precepts and lives of these subaltern saints reiterate the possibility of personal salvation and social regeneration having transformative potential for breaking the barriers of iniquitous hierarchical structures

Critical Humanities from India D. Venkat Rao, 2018-03-09 The field of humanities generates a discourse that traditionally addressed the questions of what is proper to man rights of man crimes against humanity human creativity and action human reflection and performance human utterance and artefact The university as a philosophical political institution transmits this humanist account This European humanistic legacy which is little more than Christian anthropology barely received any questioning from cultures that faced colonialism In such a context this volume attempts to unravel the barely secularized heritage of Europe Derrida's phrase and its fatal consequences in other cultures The task of Critical Humanities is to explore the ways in which the question of being human along with non human others today from heterogeneous cultural backgrounds can be undertaken The future of the humanities teaching and research is contingent upon the risky task of configuring cultural difference from non European locations Such a task is inescapable and urgently needed when tectonic cultural upheavals have begun to show devastating effect on planetary coexistence today It is precisely in such a context that this collection of essays on critical humanities affirms without alibi the urgency of collective reflection and innovative research across the traditional disciplinary and institutional borders and communication systems on the one hand and Asian African and European cultural formations on the other Critical Humanities are at one level little more than communities on the verge critical but whose centuries long survival and resilient creations of cultural and as natural habitats are of deeply enduring significance to affirm the biocultural diversities of living that compose the planet Topical and timely this book will be useful to scholars researchers and teachers
