Steven Sarson, Jack P Greene, 2020-04-13 This second part of an eight volume reset edition traces the evolution of imperial and colonial ideologies during the British colonization of America It covers the period from 1764 to the end of the American Revolutionary War in 1783 *The American Revolution Reborn* Patrick Spero, Michael Zuckerman, 2016-11-25 The American Revolution Reborn parts company with the American Revolution of our popular imagination and renders it as a time of intense ambiguity and frightening contingency With an introduction by Spero and a conclusion by Zuckerman this volume heralds a substantial and revelatory rebirth in the study of the American Revolution **Crooked Deals and Broken**

**Treaties** John Tully, 2016 Draws on contemporary accounts and a wealth of studies to produce this history of the Cuyahoga Valley Tully pays special attention to how settlers notions of private property and the impulse to own and develop the land

clashed with more collective social organizations of American Indians He also documents the ecological cost of settlement long before heavy industry laid waste to the region From publisher description James Hogg and the Literary Marketplace Holly Faith Nelson,2016-12-14 Responding to the resurgence of interest in the Scottish working class writer James Hogg Sharon Alker and Holly Faith Nelson offer the first edited collection devoted to an examination of the critical implications of his writings and their position in the Edinburgh and London literary marketplaces Writing during a particularly complex time in Scottish literary history Hogg a working shepherd for much of his life is seen to challenge many of the aesthetic conventions adopted by his contemporaries and to anticipate many of the concerns voiced in discussions of literature in recent years While the essays privilege Hogg s primary texts and read them closely in their immediate cultural context the volume s contributors also introduce relevant research on oral culture nationalism transnationalism intertextuality class colonialism empire psychology and aesthetics where they serve to illuminate Hogg s literary ingenuity as a working class writer in Romantic Scotland *Reading History in Britain and America, c.1750 – c.1840* Mark Towsey,2019-05-02 Presents a dramatic account of how readers across the English speaking world used history to understand the Age of Enlightenment and Revolutions *Private Property and the Origins of Nationalism in the United States and Norway* Eirik Magnus Fuglestad,2018-06-01 In the eighteenth century before a national political movement took hold in either the United States or Norway both countries were agrarian societies marked by widespread private land ownership Tracing the emergence and development of national ideology in each Eirik Magnus Fuglestad argues that land ownership became tied up with these national ideologies and was ultimately a central driver of nationalism In this book the United States and Norway emerge as propertied communities shaped by historical narratives of self government and by property regimes that linked popular sovereignty with land ownership Covering the mid eighteenth century through industrialization in the nineteenth century this book lays the groundwork for understanding the rise of nationalism as an agrarian landed phenomenon which later became the foundation of industrial society **The Atlantic Enlightenment** Francis D. Cogliano,2017-03-02 Transatlantic studies especially during the enlightenment period is of increasing critical interest amongst scholars But was there an Atlantic Enlightenment This interdisciplinary collection harnesses the work of some of the most prominent figures in the fields of literature intellectual cultural and social history geography and political science to examine the emergence of the Atlantic as one of the key conceptual paradigms of eighteenth century studies In this spirit the contributors offer new insights into the conditions that generated a major transatlantic genre of writing addressing questions of race political economy and the transmission of Enlightenment ideas in literary political historical and religious contexts Whether examining John Witherspoon s evolution from Calvinist theologian to Revolutionary theorist or Adam Smith s reception in the antebellum United States the essays remind us that the transatlantic traffic in ideas moved from west to east from east to west and in patterns that both complicate and enrich what we thought we knew about the vectors of transmission in this pivotal period

**Paine and Jefferson in the Age of Revolutions** Simon P. Newman, Peter S. Onuf, 2013-11-11 The enormous popularity of his pamphlet *Common Sense* made Thomas Paine one of the best known patriots during the early years of American independence His subsequent service with the Continental Army his publication of *The American Crisis* 1776 83 and his work with Pennsylvania's revolutionary government consolidated his reputation as one of the foremost radicals of the Revolution Thereafter Paine spent almost fifteen years in Europe where he was actively involved in the French Revolution articulating his radical social economic and political vision in major publications such as *The Rights of Man* 1791 *The Age of Reason* 1793 1807 and *Agrarian Justice* 1797 Such radicalism was deemed a danger to the state in his native Britain where Paine was found guilty of sedition and even in the United States some of Paine's later publications lost him a great deal of his early popularity Yet despite this legacy historians have paid less attention to Paine than to other leading Patriots such as Thomas Jefferson In *Paine and Jefferson in the Age of Revolutions* editors Simon Newman and Peter Onuf present a collection of

essays that examine how the reputations of two figures whose outlooks were so similar have had such different trajectories
