Bakhtin between East and West Cross Cultural Transmission looks beyond the concepts of carnival and dialogue and traces for the first time the transformation of the Bakhtin Circle's thought from its introduction to the West in Julia Kristeva's seminal late 1960s theory of intertextuality through Tzvetan Todorov's landmark study and on to contemporary interpretations. The notion of sociality in all its problematic complexity provides the red thread guiding us through this historical and thematic examination of Western and Russian Bakhtin studies. As a critical evaluation of Bakhtin scholarship across various cultures and a celebration of the vigour of the Circle's legacy, this is an invaluable resource for scholars and students with an interest in Bakhtin and critical theory. The Palgrave Handbook of German Romantic Philosophy

Elizabeth Millán Brusslan, 2020-12-15. This Handbook provides a comprehensive and authoritative analysis of the philosophical dimensions of German Romanticism, a movement that challenged traditional borders between philosophy, poetry and science. With contributions from leading international scholars, the collection places the movement in its historical context by both exploring its links to German Idealism and by examining contemporary related developments in aesthetics and scientific research. A substantial concluding section of the Handbook examines the enduring legacy of German romantic philosophy. Key Features: Highlights the contributions of German romantic philosophy to literary criticism, irony, cinema, religion and biology. Emphasises the important role that women played in the movement's formation. Reveals the ways in which German romantic philosophy impacted developments in modernism, existentialism and critical theory in the twentieth century. Interdisciplinary in approach with contributions from philosophers, Germanists, historians and literary scholars. Providing both broad perspectives and new insights, this Handbook is essential reading for scholars undertaking new research on German romantic philosophy as well as for advanced students requiring a thorough understanding of the subject.

The Lure of the Image Daniel Morgan, 2021-08-17. The Lure of the Image shows how a close study of camera movement challenges key assumptions underlying a wide range of debates within cinema and media studies. Highlighting the shifting intersection of point of view and camera position, Daniel Morgan draws on a range of theoretical arguments and detailed analyses across cinemas to reimagine the relation between spectator and camera and between camera and film world. With sustained accounts of how the camera moves in films by Fritz Lang, Guru Dutt, Max Ophüls and Terrence Malick and in contemporary digital technologies, The Lure of the Image exposes the persistent fantasy that we move with the camera within the world of the film and examines the ways that filmmakers have exploited this fantasy. In so doing, Morgan provides a more flexible account of camera movement, one that enables a fuller understanding of the political and ethical stakes entailed by this key component of cinematic style. *Endangering Science Fiction Film* Sean Redmond, Leon Marvell, 2015-06-26. *Endangering Science Fiction Film* explores the ways in which science fiction film is a dangerous and endangering genre. The collection argues that science fiction's cinematic power rests in its ability to imagine other worlds that challenge and disturb the lived conditions of the real world as it is presently known to us. From classic films such as 2001: A Space Odyssey and

Solaris to modern blockbusters including World War Z and Gravity and directors from David Cronenberg to Alfonso Cuarón contributors comment on the way science fiction film engages with dangerous encounters liminal experiences sublime aesthetics and untethers space and time to question the very nature of human existence With the analysis of a diverse range of films from Europe Asia North and South America Endangering Science Fiction Film offers a uniquely interdisciplinary view of the evolving and dangerous sentiments and sensibility of this genre Transactions of the Illinois Society for Child Study
