Marxism And Sociology Views From Eastern Europe:

Marxism and Sociology Peter L. Berger, 1969 □□□□□□□□ , 1980

Sociology, Phenomenology and Marxian

Analysis Barry Smart, 2013-10-15 Sociology is an established academic discipline but there has been continuing debate over its status as a science and the nature of its subject matter This led to the emergence of a phenomenological sociology and to critiques of positivist sociology This critical reappraisal of the relevance of Marxian analysis for a science of society shows how these developments within sociology have had their counterpart in Marxism The author analyses the status of Marx's work and the Marxist tradition in sociology He focuses upon those concerns which are common to both Marxian analysis and sociology the question of subjectivity the nature of social reality and the dialectical relationship of the doing or practice of a science of society to the social world within which such social analyses are situated Originally published in 1976

Contemporary East European Marxism , 1980-01-01

Sociology in Action (Routledge Revivals) Christopher

Bryant, 2013-09-13 This book first published in 1976 discusses four classical paradigms for sociology the positivism of Saint Simon and Comte Durkheim Marx and Weber and four contemporary developments or revisions of them the sociologie active of Dumazedier and his colleagues in France sociology in Socialist Poland the work of Dahrendorf and the new sociology of Mills and his successors Christopher Bryant suggests that no neutral language exists in which to compare the characteristics of these different paradigms yet highlights those features which are common to all of them Unique in its approach and analysis of the relationship between sociology and action this book is of value and interest to students of sociology and theory and professional sociologists

Marxist-Leninist 'Scientific Atheism' and the Study of Religion and Atheism in the

USSR James Thrower, 2011-04-20 Since its founding by Jacques Waardenburg in 1971 Religion and Reason has been a leading forum for contributions on theories theoretical issues and agendas related to the phenomenon and the study of religion Topics include among others category formation comparison ethnophilosophy hermeneutics methodology myth phenomenology philosophy of science scientific atheism structuralism and theories of religion From time to time the series publishes volumes that map the state of the art and the history of the discipline *Karl Marx and Friedrich Engels (RLE Marxism)*

Cecil L. Eubanks, 2015-04-17 The project to publish the works of Marx and Engels continues and this book published in 1984 puts together a comprehensive bibliography of their works either written in or translated into English including books monographs articles chapters and doctoral dissertations together with the works of their interpreters The inclusion of the secondary literature makes this a particularly valuable bibliography and contributes greatly to the understanding of the thought of Marx and Engels [The Crisis of Marxist Ideology in Eastern Europe](#) Vladimir

Tismaneanu, 2023-03-31 First published in 1988 The Crisis of Marxist Ideology in Eastern Europe states that since de Stalinisation began in Eastern Europe the dead hand of institutional Marxism has been eroded by revisionist Marxism with the turn to young Marx and the philosophy of human emancipation to undermine prevailing orthodoxies But this revisionism

clung to the old socialist dogmas and refused a total break with the system and the effort eventually failed The result was the emergence of a dissident counterculture rejecting the system entirely Independent social movements such as unofficial peace groups and trade unions like Solidarity have given this counterculture a major role in Eastern Europe whilst the ruling elites have responded with confusion Tismaneanu concludes that the only hope for the anti totalitarian intellectuals of Eastern Europe is to oppose the regimes with non Marxist ideas otherwise they will be permanently reduced to the status of a hopeless albeit heroic minority This book will be of interest to students of economics political science and international relations

The Sociology of Political Praxis (RLE: Gramsci) Leonardo Salamini, 2014-04-24 This volume analyses the philosophical nature of Gramsci's Marxism and its Hegelian source the radical critique of the economic tradition and the original analyses of the role of superstructures ideology consciousness and subjectivity in the revolutionary process It relates the central themes of Gramsci's writings such as hegemony historical blocs the role of intellectuals and political praxis to the more peripheral ones such as science language literature and art The introduction includes a brief intellectual biography of Gramsci

The Social Thought of Zygmunt Bauman K. Tester, 2004-05-28 Zygmunt Bauman is one of the most important contemporary social thinkers He has changed the way we think about the Holocaust postmodernity and globalisation This is the first book to discuss all of Bauman's work from the first essays in post Stalinist Poland through to his participation in 1960s Marxist revisionism and up to the work for which he is well known in the West Bauman's work is put into its social and historical context and it is shown why Bauman matters

Routledge Library Editions: Gramsci Various Authors, 2022-07-30 In the years since the publication of the Prison Notebooks the interest and importance of Antonio Gramsci's contribution to Marxist thought and political analysis has become widely recognised The concern to explore and identify the structures of the capitalist state is both the principal characteristic of Gramsci's theoretical and political writings and also the inspiration for his writings on Italian history This set re issues four volumes by leading commentators on Gramsci's politics and philosophy which were originally published between 1979 and 1981

Theories of Alienation R.F. Geyer, D.R. Schweitzer, 2012-12-06 The original papers which appear in this volume were initially presented in a series of sessions of the Ad Hoc Group on Alienation Theory and Research at the 1974 World Congress of Sociology in Toronto Canada This group was organized by the editors as a result of their longstanding research and teaching interest in the field The purpose of the Toronto sessions was to provide an international forum where scholars and researchers could come together for a personal exchange of ideas and research findings To our knowledge this was the first forum of its kind concerned specifically with alienation theory and research More than fifty theoretical and empirical papers from thirteen countries and several overlapping disciplines were organized into panels and workshops during the span of four days The response to these sessions indicates that interest in the study of alienation by philosophers and social scientists continues unabated The Toronto sessions were organized largely around a fundamental concern for further theoretical development and conceptual

clarification in the alienation field The papers selected for this volume reflect this thematic concern Although many excellent empirical papers were presented it was generally felt that meaningful empirical research would benefit from a continued elaboration and refinement of alienation theory The present collection is consequently geared to problems of meaning theory and method Considerable emphasis is also placed on a critical evaluation of the alienation theme as it has evolved from social philosophy to empirical social research

Zygmunt Bauman Dennis Smith,2013-05-06 In this major new assessment of Zygmunt Bauman s work Smith gives a clear introduction to this controversial and challenging sociologist

World Communism, 1964-1969, a Selected Bibliography United States. Congress. Senate. Committee on the Judiciary,1971 *Culture, Modernity and Revolution* Richard Kilminster,Ian Varcoe,2002-09-11 In *Culture Modernity and Revolution* a group of distinguished sociologists and social philosophers reflect upon the major concerns of Zygmunt Bauman Their essays not only honour the man but provide important contributions to the three interlinked themes that could be said to form the guiding threads of Bauman s life work power culture and modernity *Culture Modernity and Revolution* is both a remarkable sociological commentary on the problems facing East Central Europe and an exposition of some of the key hitherto neglected features of the modern cultural universe

Towards the Sociology of Knowledge (RLE Social Theory) Gunter Werner Remmling,2022-03-23 The sociology of knowledge is an area of social scientific investigation with major emphasis on the relations between social life and intellectual activity It is now an area central to most graduate and undergraduate courses in sociology The present collection of readings explains the origins systematic development present state and possible future direction of the discipline The major statements in the field were developed early in the twentieth century by Durkheim Scheler and Mannheim but the sociology of knowledge continues to engage the theoretical and empirical interests of contemporary sociologists who desire to penetrate the surface level of social existence This book with its carefully selected contributions and an introduction which relates the selections to the developmental pattern of the discipline provides guidance and insight for the reader concerned with the topical issues raised by sociologists of knowledge

Freedom and Consumerism Mark Davis,2017-05-15 How does Bauman understand the concept of freedom and how does this understanding relate to the political traditions of conservatism liberalism and socialism Mark Davis offers a critical enquiry into the sociology of Zygmunt Bauman focusing on his English language writings from the 1960s onwards The book contributes to sociological debates about modern society by offering an interpretation of Bauman s work based on the concept of freedom especially in terms of his extensive consideration of consumerism Existing studies of Bauman have tended to focus uncritically upon other salient themes in his work notably culture power and socialism Davis repairs the lack

of critical engagement in the literature by identifying freedom as a focus for critical reflection He also opens up new areas of discourse by analyzing Bauman s understanding of freedom in relation to the three great political traditions of conservatism liberalism and socialism This is an original contribution to discussions around Bauman s work which will be of interest to both sociologists and political theorists

Sociological Theories of Health and Illness William C Cockerham,2020-07-09 Sociological Theories of Health and Illness reviews the evolution of theory in medical sociology beginning with the field s origins in medicine and extending to its present day standing as a major sociological subdiscipline Sociological theory has an especially important role in the practice of medical sociology because its theories distinguish the subdiscipline from virtually all other scientific fields engaged in the study of health and illness The focus is on contemporary theory because it applies to contemporary conditions however since theory in sociology is often grounded in historical precedents and classical foundations this material is likewise included as it relates to medical sociology today This book focuses on the most commonly used sociological theories in the study of health and illness illustrating their utility in current examples of empirical research on a wide range of topics The qualitative or quantitative research methods applicable to specific theories are also covered Distinctions between macro and micro level levels of analysis and the relevance of the agency structure dichotomy inherent in all theories in sociology are discussed Beginning with classical theory Durkheim Weber and Marx and the neglected founders Gilman Martineau and DuBois along with symbolic interaction Mead Strauss and labeling theory Becker and poststructuralism and postmodernism Foucault coverage is extended to contemporary medical sociology Discussion of the stress process model Pearlin is followed by the social construction of gender and race and intersectionality theory Collins health lifestyle theory Cockerham life course theory Elder fundamental cause theory Link and Phelan and theories of the medical profession Freidson medicalization and biomedicalization Conrad Clarke and social capital Bourdieu Putnam and Lin
