Land of Smoke and Mirrors Vincent Brook, 2013-01-22 Unlike the more forthrightly mythic origins of other urban centers think Rome via Romulus and Remus or Mexico City via the god Huitzilopochtli Los Angeles emerged from a smoke and mirrors process that is simultaneously literal and figurative real and imagined material and metaphorical physical and textual Through penetrating

analysis and personal engagement Vincent Brook uncovers the many portraits of this ever enticing ever ambivalent and increasingly multicultural megalopolis Divided into sections that probe Los Angeles's checkered history and reflect on Hollywood's own self-reflections the book shows how the city despite considerable remaining challenges is finally blowing away some of the smoke of its not always proud past and rhetorically adjusting its rear view mirrors Part I is a review of the city's history through the early 1900s focusing on the seminal 1884 novel *Ramona* and its immediate effect but also exploring its ongoing impact through interviews with present-day Tongva Indians attendance at the 88th annual *Ramona* pageant and analysis of its feature film adaptations Brook deals with Hollywood as geographical site film production center and frame of mind in Part II He charts the events leading up to Hollywood's emergence as the world's movie capital and explores subsequent developments of the film industry from its golden age through the so-called New Hollywood citing such self-reflexive films as *Sunset Blvd*, *Singin' in the Rain*, and *The Truman Show* Part III considers LA noir a subset of film noir that emerged alongside the classical noir cycle in the 1940s and 1950s and continues today The city's status as a privileged noir site is analyzed in relation to its history and through discussions of such key LA noir novels and films as *Double Indemnity*, *Chinatown*, and *Crash* In Part IV Brook examines multicultural Los Angeles Using media texts as signposts he maps the history and contemporary situation of the city's major ethno-racial and other minority groups looking at such films as *Mi Familia*, *Latinos Boyz*, *N the Hood*, *African Americans*, *Charlotte*, *Sometimes Asians*, *Falling Down*, *Whites*, and *The Kids Are All Right* LGBT

Semantic Labeling of Places with Mobile Robots Óscar Martínez Mozo, 2010-02-04 During the last years there has been an increasing interest in the area of service robots Under this category we find robots working in tasks such as elderly care guiding office and domestic assistance inspection and many more Service robots usually work in indoor environments designed for humans with offices and houses being some of the most typical examples These environments are typically divided into places with different functionalities like corridors rooms or doorways The ability to learn such semantic categories from sensor data enables a mobile robot to extend its representation of the environment and to improve its capabilities As an example natural language terms like corridor or room can be used to indicate the position of the robot in a more intuitive way when communicating with humans This book presents several approaches to enable a mobile robot to categorize places in indoor environments The categories are indicated by terms which represent the different regions in these environments The objective of this work is to enable mobile robots to perceive the spatial divisions in indoor environments in a similar way as people do This is an interesting step forward to the problem of moving the perception of robots closer to the perception of humans Many approaches introduced in this book come from the area of pattern recognition and classification The applied methods have been adapted to solve the specific problem of place recognition In this regard this work is a useful reference to students and researchers who want to introduce classification techniques to help solve similar problems in mobile robotics
