Of Things Egyptian:

Of Things Egyptian Mary Jones-Gaston, 2006-02 **Eighteenth-Century Thing Theory in a Global Context** Ileana Baird, Christina Ionescu, 2016-04-29 Exploring Enlightenment attitudes toward things and their relation to human subjects this collection offers a geographically wide ranging perspective on what the eighteenth century looked like beyond British or British colonial borders To highlight trends fashions and cultural imports of truly global significance the contributors draw their case studies from Western Europe Russia Africa Latin America and Oceania This survey underscores the multifarious ways in which new theoretical approaches such as thing theory or material and visual culture studies revise our understanding of the people and objects that inhabit the phenomenological spaces of the eighteenth century Rather than focusing on a particular geographical area or on the global as a juxtaposition of regions with a distinctive cultural footprint this collection draws attention to the unforeseen relational maps drawn by things in their global peregrinations celebrating the logic of serendipity that transforms the object into something else when it is placed in a new locale **The Mind of Egypt** Jan Assmann, 2003 The Mind of Egypt presents an account of the mainsprings of Egyptian civilization the ideals values mentalities belief systems and aspirations that shaped the first territorial state in human history Drawing on a range of literary iconographic and archaeological sources Jan Assmann reconstructs a world of unparalleled complexity a culture that long before others possessed an extraordinary degree of awareness and self reflection **The Future of U.S.-Egyptian Relations** United States. Congress. House. Committee on International Relations. Subcommittee on the Middle East and Central Asia, 2004 Ancient Egypt Donald P. Ryan, 2016-08-05 Ancient Egypt The Basics offers an accessible and comprehensive introduction to the history archaeology and influence of this fascinating civilization Coverage includes A survey of Egyptian history from its earliest origins to the coming of Islam Life and death in ancient Egypt Key archaeological discoveries and important characters Egypt's impact and reception through to the modern day Lively and engaging this is an indispensable resource for anyone beginning their studies of Egyptian history culture and archaeology and a must read for anyone who wants to learn more about the country's long and captivating past **The Materiality of Texts from Ancient Egypt**, 2018-10-08 The volume The Materiality of Texts from Ancient Egypt contains nine contributions from well known papyrologists Egyptologists archaeologists and technical specialists They discuss the materiality of ancient writing and writing supports in various ways through methodological considerations and through practical case studies from the early Pharaonic to the Late Antique periods in Egypt including Greek and Egyptian papyri and ostraca inscriptions and graffiti The articles in this volume present new approaches to the study of textual material and scribal practice especially in the light of the ongoing development of digital techniques that uncover new information from ancient writing materials The aim of the book is to encourage researchers of ancient texts to consider the benefits of using these new methods and technological resources The Apology of the Christian Religion James Macgregor, 1891 **A Short History of the Egyptian People**

Sir Ernest Alfred Wallis Budge, 1914 *Beyond Egyptomania* Miguel John Versluys, 2020-06-08 The material and intellectual presence of Egypt is at the heart of Western culture religion and art from Antiquity to the present This volume aims to provide a long term and interdisciplinary perspective on Egypt and its mnemohistory taking theories on objects and their agency as its main point of departure The central questions the book addresses are why from the first millennium BC onwards things and concepts Egyptian are to be found in such a great variety of places throughout European history and how we can account for their enduring impact over time By taking a radically object oriented perspective on this question this book is also a major contribution to current debates on the agency of artefacts across archaeology anthropology and art history

Object Worlds in Ancient Egypt Lynn Meskell, 2021-01-07 Egypt looms large in the Western imagination Whether it is our attraction to pharaonic art the pyramids or practices of mummification Egypt's unique understanding of materiality speaks to us across space and time Is it because the ancient Egyptians fetishized material objects that we find their culture captivating today And what exactly do Egyptian remains tell us about biography embodiment memory materiality and the self *Object Worlds in Ancient Egypt* takes New Kingdom Egypt 1539-1070 BC as its starting point and considers how excavated objects reveal the complex ways that ancient Egyptians experienced their material world From life to death the material world instantiated reflected and influenced social life and existence for ancient Egyptians Thus in Meskell's unique approach to the materiality and sensuousness of subjects and objects we uncover the philosophical spiritual and human meanings embedded in these cultural artefacts Meskell's book explores the fundamental existential questions that not only preoccupied ancient Egyptians but continue to fascinate people today What is the essence of persons and things How might we understand the situated experiences of material life the constitution of the object world and its shaping of human experience How might objects successfully mediate between worlds In the final analysis Meskell moves forward through time and examines the consumption and appreciation of these Egyptian material objects in the contemporary world Materiality is our physical engagement with the world our medium for inserting ourselves into the fabric of that world and our way of constituting and shaping culture in an embodied and external sense From that perspective it is very much the domain of anthropology and archaeology Drawing on a wide range of objects artefacts and artwork from Valley of the Kings through to Las Vegas Meskell provides an elegant analysis of the aesthetics of ancient Egyptian material culture

Materialising Roman Histories Astrid Van Oyen, Martin Pitts, 2017-09-30 The Roman period witnessed massive changes in the human material environment from monumentalised cityscapes to standardised low value artefacts like pottery This book explores new perspectives to understand this Roman object boom and its impact on Roman history In particular the book's international contributors question the traditional dominance of representation in Roman archaeology whereby objects have come to stand for social phenomena such as status facets of group identity or notions like Romanisation and economic growth Drawing upon the recent material turn in anthropology and related disciplines the essays in this volume

examine what it means to materialise Roman history focusing on the question of what objects do in history rather than what they represent In challenging the dominance of representation and exploring themes such as the impact of standardisation and the role of material agency *Materialising Roman History* is essential reading for anyone studying material culture from the Roman world and beyond *The Manners and Customs of the Ancient Egyptians* Sir John Gardner Wilkinson,1879

The Egyptian Revival James Stevens Curl,2013-04-03 In this beautifully illustrated and closely argued book a completely updated and much expanded third edition of his magisterial survey Curl describes in lively and stimulating prose the numerous revivals of the Egyptian style from Antiquity to the present day Drawing on a wealth of sources his pioneering and definitive work analyzes the remarkable and persistent influence of Ancient Egyptian culture on the West The author deftly develops his argument that the civilization of Ancient Egypt is central rather than peripheral to the development of much of Western architecture art design and religion Curl examines the persistence of Egyptian motifs in design from Graeco Roman Antiquity through the Medieval Baroque and Neo Classical periods rise of Egyptology in the nineteenth and twentieth century manifestations of Egyptianisms prompted by the discovery of Tutankhamun s tomb various aspects of Egyptianizing tendencies in the Art Deco style and afterwards For students of art architectural and ancient history and those interested in western European culture generally this book will be an inspiring and invaluable addition to the available literature **Gods**

of Ancient Egypt Barbara Watterson,2003-09-04 Illustrated in colour this is an introduction for the general reader to Egyptian mythology and its mysteries It includes a concise introduction to general aspects of Egyptian religion followed by specific sections devoted to the most important of the gods With sections on personal religion and temple ceremony there are also accounts of mythological stories associated with the gods and a map of the principle cult centres *A Comparison of Egyptian Symbols with Those of the Hebrews* Frédéric baron de Portal,1904 *Old Testament History* Henry Preserved

Smith,1903 **A Companion to Greek Literature** Martin Hose,David Schenker,2020-02-11 A Companion to Greek Literature presents a comprehensive introduction to the wide range of texts and literary forms produced in the Greek language over the course of a millennium beginning from the 6th century BCE up to the early years of the Byzantine Empire Features contributions from a wide range of established experts and emerging scholars of Greek literature Offers comprehensive coverage of the many genres and literary forms produced by the ancient Greeks including epic and lyric poetry oratory historiography biography philosophy the novel and technical literature Includes readings that address the production and transmission of ancient Greek texts historic reception individual authors and much more Explores the subject of ancient Greek literature in innovative ways **Memoir of the Egypt Exploration Fund** ,1914 **Egypt** James

Whidden,2017-06-26 This book is a comprehensive portrait of the British colony in Egypt which also takes a fresh look at the examples of colonial cultures memorably enshrined in Edward W Said s classic *Orientalism* Arguing that Said s analysis offered only the dominant discourse in imperial and colonial narratives it uses private papers letters memoirs as well as the

official texts histories and government reports to reveal both dominant and muted discourses While imperial sentiment certainly set the standards and sealed the image of a ruling caste culture the investigation of colonial sentiment reveals a more diverse colony in temperament and lifestyles often intimately rooted in the Egyptian setting The method involves providing biographical treatments of a wide range of colonials and the sometimes contradictory responses to specific colonial locations historical junctures and seminal events like invasion and war or grand imperial projects including the Alexandria municipality

Britain, Egypt, and Iraq during World War II Stefanie Wichhart, 2021-08-26 This book explores the tumultuous war years through the lens of the British Embassies in Cairo and Baghdad demonstrating the role that the Second World War played in shaping the political and social map of the contemporary Middle East The war served as a catalyst for seismic changes in Arab society and the emergence of new movements that provided powerful critiques of British intervention and of the governments that facilitated it making the war a critical turning point in Britain's empire in the Middle East
