Jewish education and marriage strategies to congregational organization The story of smaller Jewish communities attests to the richness and complexity of American Jewish history and also serves to remind us of the diversity of small town society in times past

Zelda Popkin Jeremy D. Popkin, 2023-02-01 Zelda Popkin's adventurous life could have made her the protagonist of one of her own novels In his brilliant telling of the story of her life her historian grandson Jeremy D Popkin has made a singular contribution to the history of American Jewish women in the twentieth century From the 1920s when she worked in the highly competitive and male dominated public relations business to her rise as a million selling author of popular fiction beginning in the 1940s including some of the earliest fiction on the Holocaust and the state of Israel Zelda's life and work documented the rise of American Jewish women Popkin uses Zelda's experience to bring to life a larger story of American Jews and American women in the twentieth century with the vividness that comes from having a lively character at its center At the same time this will also be a story about a woman whose powerful personality profoundly influenced several generations of a family Popkin makes the case that even if she sometimes burnished her stories to create what he calls legends of Zelda she was one of the most articulate female members of the generation of Jews who fought their way into the American middle class during the decades of the 1920s and 1930s Zelda's life is a rich source of evidence about the experience of American Jewish women and offers perspectives that are frequently at odds with analyses based on men's lives The story of Zelda her generation and its rich and significant legacy will create a compelling portrait and detailed tapestry of an iconic woman and her time

A Hundred Acres of America Michael Hoberman, 2019 In A Hundred Acres of America The Geography of Jewish American Literary History Michael Hoberman introduces cultural geography as an alternative approach to the immigrant model Cultural geography allows Hoberman to restore Jewish American writers to their roles as important active members of the American literary landscape from the 1850s to the present and to argue that Jewish history American literary history and the inhabitation of American geography are and always have been contiguous entities A Hundred Acres of America makes its case by investigating both canonical and extra canonical literary depictions of six geographies the frontier the small town the urban the suburban America as seen from Europe and Israel as seen from America Hoberman reads dozens of representative texts closely and analyzes a wide range of authors from frontier era memoirists and turn of the
