Meyrowitz, 2025-02-03 The United States is the only nation to have used nuclear weapons in warfare and claims not only through its State Department but through a Congressional vote as late as 1999 that the use of nuclear weapons is lawful Can such a claim with its undeniable assurance of the greatest degree of destruction of life and property this planet will ever have seen be sustained The author investigates this question as a prelude to a more extensive inquiry into the options of legal scholars on the legal status of nuclear weapons and international law Published under the Transnational Publishers imprint

Research Handbook on International Conflict and Security Law Nigel D. White, Christian Henderson, 2013-01-01

Featuring some of the field's most expert thinkers this is an adroitly constructed volume of essays in conflict and security law The writing here offers a distillation of the major legal projects in the area while dissolving some of international law's most rigid demarcations e.g. between war and peace or the *jus ad bellum* and *jus in bello* Gerry Simpson University of Melbourne Australia A most important and timely collection of essays that places the established international rules in their modern and challenging context Philippe Sands QC University College London UK Events of the past fifteen years have sharpened the focus on well known issues in international conflict and security law What responses to international terrorism are permissible Can humanitarian intervention be justified under international law The *Research Handbook on International Conflict and Security Law* addresses these and other debates across the areas of conflict prevention use of force and post conflict reconstruction with the critical insight for which the contributors are known James Crawford University of Cambridge UK This innovative *Research Handbook* brings together leading international law scholars from around the world to discuss and highlight the contemporary debate regarding issues of conflict prevention and the legality of resorting to the use of armed force through to those arising during an armed conflict and in the phase between conflict and peace The Handbook covers key conceptual topics drawn from across the three areas of *jus ad bellum* *jus in bello* and *jus post bellum* The subject matter of the included chapters range from conflict prevention through to reparation and compensation via coverage of issues such as disarmament the role of the Security Council self defence humanitarian intervention and the responsibility to protect targets war crimes private military contractors peacekeeping and the protection of human rights

Being the first to examine topics under these areas in one volume the book will be of interest to scholars academics postgraduate and research students as well as government lawyers from various disciplinary backgrounds looking for a contemporary grounding in issues under the broad theme of international conflict and security law Restoring Restraint Rebecca K.C. Hersman, William Pittinos, 2018-07-27 In 2012 a 20 year moratorium on state employment of chemical weapons use was broken Since then there have been more than 200 uses against civilians military targets and political enemies These attacks have broken norms against the use of weapons of mass destruction and create a gap in the nonproliferation fabric despite the robust international architecture of laws treaties agreements and norms designed to restrain the proliferation and use of these weapons Accountability for these recent attacks has been limited or nonexistent which threatens the credibility of the nonproliferation regime and only encourages further use Leaders must find the political and moral strength to use a full spectrum of tools to reestablish this system of restraint By understanding the system built on taboos norms deterrence and a lack of benefits and corresponding accountability approaches military legal political diplomatic economic and educational leaders can utilize a menu of potential actions for building more diverse flexible scalable and implementable options to hold accountable users of chemical weapons Hearings United States.
