Thompson, 2000 Still the only handbook of its kind to discuss both the emotional and physical problems of raising a child with a disability this guide offers complete practical and reassuring advice for parents who care for these children *Running a Team for Disabled Children and Their Families* Martin F.

Robards, 1994-06-24 Children with multiple disabilities and complex neurological problems often compounded by psychological and behavioral problems need care provision beyond the normal community and hospital pediatric services These children and their families need the help of a variety of specialists Organizing these is a complex problem and there is a constant risk of the family's needs being overridden by the professionals' convenience Dr Robards describes ways of providing all the necessary specialist care while at the same time increasing the family's participation and understanding to its optimum level Illustrating his proposals with a variety of lively case histories the author demonstrates that a rigid structure can never meet these children's needs This practical book offers clear recommendations about record keeping integrating voluntary support groups into the professionals' work the location and layout of premises used by the professionals and many other factors collectively critical to the efficient and humane delivery of this element of community care Cerebral Palsy Freeman Miller, Steven J.
