Ralph Eugene Meatyard Ralph Eugene Meatyard, 1996 Tekster om og fotografier af den amerikanske kunstfotograf Ralph Eugene Meatyard 1925 1972 **Ralph Eugene Meatyard** Ralph Eugene Meatyard, Guy Davenport, International Center of Photography, 2004 The photographs of Ralph Eugene Meatyard defy convention they have been called visionary surrealistic and meditative Whatever the label these evocative images of friends and family and the natural world around his home illustrate a delicate psychology of human interaction Meatyard was trained as an optician a profession that he maintained all his life in Lexington Kentucky he bought a camera in 1950 for the sole purpose of photographing his first born son But shortly thereafter he joined the Lexington Camera Club and developed a friendship with his photography teacher Van Deren Coke as well as a circle of local writers and photographers including Guy Davenport Thomas Merton Wendell Berry Jonathan Williams and Minor White Family and friends freely participated in Meatyard s staged and mysterious images which often involve masks and abandoned spaces and obliquely reference social political and cultural issues A key subject in Meatyard s work is the natural environment which is featured in his Light on Water series in which long exposures seem to create calligraphic texts and his No Focus series in which he deliberately photographed stems and twigs out of focus In one of his last series titled Motion Sound the pictures were made by moving the camera gently creating multiple exposures of the woodland scenes that suggest abstract sound patterns The book accompanies an exhibition organized by ICP Assistant Curator Cynthia Young with acclaimed writer and Meatyard friend Guy Davenport who also wrote the text Also included are the exhibition history chronology and bibliography Ralph Eugene Meatyard Ralph Eugene Meatyard, 1974 **Ralph Eugene Meatyard** James Rhem, Ralph Eugene Meatyard, 2002 Edited by James Rhem *Ralph Eugene Meatyard* Ralph Eugene Meatyard, 1976 **Ralph Eugene Meatyard** Judith Keller, Ralph Eugene Meatyard, 2002 **Ralph Eugene Meatyard** Ralph Eugene Meatyard, 1974 **The Concise Focal Encyclopedia of Photography** Michael Peres, 2014-06-20 Defining photography is impossible Revealing it is another matter and that s what The Concise Focal Encyclopedia of Photography does with each turn of the page History The technical origins and evolution of photography are half of the story The other half consists of the ways that cultural forces have transformed photography into a constellation of practices more diverse than any other mode of representation Photographers can tell a more in depth story through a photo like Dorothea Lange s Migrant Mother than a journalist ever could with the written word alone Major themes and practitioners Over 25 entries many with supporting illustrations examine the figures trends and ideas that have contributed most heavily to the history and current state of photography Contemporary issues The issues influencing photography today are more complex than at any other time in its history Questions of ethics desire perception digitization and commercialization all vie for

attention Hear what the experts have to say about crucial issues such as whether or not the images we take today will last the test of time and if so how When material is covered this skillfully concise is no compromise The Concise Focal Encyclopedia of Photography is packed with useful information compelling ideas and best of all pure pleasure

Picturing Disability Robert Bogdan, 2012-11-19 Midget feeble minded crippled lame and insane these terms and the historical photographs that accompany them may seem shocking to present day audiences A young woman with no arms wears a sequined tutu and smiles for the camera as she smokes a cigarette with her toes a man holds up two prosthetic legs while his own legs are bared to the knees to show his missing feet The photos were used as promotional material for circus sideshows charity drives and art galleries They were found on begging cards and in family albums In Picturing Disability Bogdan and his collaborators gather over 200 historical photographs showing how people with disabilities have been presented and exploring the contexts in which they were photographed Rather than focus on the subjects Bogdan turns his gaze on the people behind the camera He examines the historic and cultural environment of the photographs to decipher the relationship between the images and the perspectives of the picture makers In analyzing the visual rhetoric of these photographs Bogdan identifies the wide variety of genres from sideshow souvenirs to clinical photographs Ranging from the 1860s when photographs first became readily available to the 1970s when the disability rights movement became a force for significant change Bogdan chronicles the evolution of disability image creation Picturing Disability takes the reader beyond judging images as positive or slanderous to reveal how particular contexts generate specific emotions and lasting depictions

Family Frames Marianne Hirsch, 1997 On role of family in photography

Touching Surfaces Anca Cristofovici, 2009 Who isn t seduced by the idea of an affinity between aging and aesthetics Yet when does aging truly begin What attributes does the aesthetic embrace Looking into startling photographic art of the past three decades this book is prompted by such questions and turns them into a meditation on how aesthetics mediates our relation to time The photographic approach of the corporeal is at the center of the book Within a phenomenological framework Cristofovici brings into focus the physical and the psychic body to read aging as a process of change and becoming over time Her understanding of aging sees beyond difference into larger patterns of perceptions that we share

Offering valuable insights into aging as a process of subject construction this book will be of interest to students and scholars of visual culture photography art history age studies and theories of knowledge This cross disciplinary study that puts theory to the test of life s and art s paradoxes in an evocative style will also appeal to a wider readership interested in how photography and aging illuminate each other
