Shepherd, K. Laybourn, 2006-10-27 This volume is the first major account for nearly fifty years to critically re assess Labour s first period in office in terms of domestic foreign and imperial policy It draws on a wide range of private papers and official sources and reconstructs the history of this forgotten government in the broader social and political context of the 1920s **The Women in the Room** Nan Sloane, 2018-09-30 In February 1900 a group of men representing trade unionists socialists Fabians and Marxists gathered in London to make another attempt at establishing an organisation capable of getting working class men elected to Parliament The body they set up was the Labour Representation Committee six years later when 29 of its candidates were elected to the House of Commons it changed its name to the Labour Party No women took part in that first meeting but several watched from the public gallery Amongst them was Isabella Ford an active socialist and trade unionist who would have been familiar to most of the men assembled below She had been asked by her friend Millicent

Fawcett to attend and report back on what happened Millicent was the President of the National Union of Women's Suffrage Societies and Isabella had been involved with the suffrage movement for a long time A few years later she would become the first woman to speak at a Labour Party conference moving a resolution on votes for women but at the Party's inception in 1900 she and every other woman in the hall was silent Throughout Labour's history even in its earliest years women were present in the room but they were not always recorded or remembered They came from many different backgrounds and they worked for the causes they believed in as organisers campaigners negotiators polemicists public speakers and leaders They took on the vested interests of their time sometimes they won Yet the vast majority of them have been forgotten by the Labour movement that they helped to found Even Margaret Bondfield who became Britain's first woman cabinet minister often barely merits a footnote Women made real and substantial contributions to Labour's earliest years and had a significant impact on the Party's ability to attract and maintain women's votes after World War I In addition to Margaret and Isabella in many of the rooms in which the Labour Party found its feet remarkable women wait to be rediscovered This book tells their story

Miners, Unions and Politics, 1910-1947 Alan Campbell, Nina Fishman, 2016-12-05 The near destruction of the coal industry and the NUM offers a timely vantage point from which to appraise their history This book presents a collection of specially commissioned essays by leading authorities on miners history which challenge the stereotypical imagery of miners solidarity and loyalty to the Labour Party This book examines the politics of the Miners Federation of Great Britain the unique influences of syndicalism and communism within some of its constituent areas and the uneven pace of the Labour Party's forward march within the coalfields Such national developments are then studied within their diverse regional contexts through a series of case studies which permits comparison between the major British coalfields Finally the book considers the attempts to overcome these regional diversities with the formation of the National Union of Mineworkers and the nationalisation of the mining industry
