## **Random Thoughts Of A Liberal Man:**

*Random Thoughts of A Liberal Man* Siva Ratnam, 2004-06 This book came out of the emails I sent to a group of people some relatives and some friends I became a liberal in the American sense through the influence of the counterculture and these are my opinions and thoughts as a liberal man The American liberal is very important to the world just as the environmentalists and anti globalization activists are very important to the world The world is in crisis in various aspects of its existence and life on it This crisis political environmental social etc was brought upon the world by the Western industrial civilization That civilization has to be questioned cautioned and some elements of it have to be completely opposed That opposition has to come from the West itself and such mass scale opposition originated in the 60s in America England and Europe Today the opposition to the destructive forces is centered in the liberal consciousness      **The Idea of a Liberal Theory** David Johnston, 1996-07-08 Liberalism the founding philosophy of many constitutional democracies has been criticized in recent years from both the left and the right for placing too much faith in individual rights and distributive justice In this book David Johnston argues for a reinterpretation of liberal principles he contends will restore liberalism to a position of intellectual leadership from which it can guide political and social reforms He begins by surveying the three major contemporary schools of liberal political thought rights based perfectionist and political liberalism and by weeding out their weaknesses sketches a new approach he calls humanist liberalism The core of Johnston s humanist liberalism is the claim that the purpose of political and social arrangements should be to empower individuals to be effective agents Drawing on and modifying the theories of John Rawls Michael Walzer Ronald Dworkin Joseph Raz Amartya Sen and others Johnston explains how this purpose can be realized in a world in which human beings hold fundamentally different conceptions of the ends of life His humanist liberalism responds constructively to feminist neo Marxist and other criticisms while remaining faithful to the core values of the liberal tradition      *Thou Art the Man* Mary Elizabeth Braddon, 1894      **Lectures to Young Men, on Various Important Subjects** Henry Ward Beecher, 2024-06-10 Reprint of the original first published in 1876      Feminist Thought Rosemarie Tong, 2013-10-08 In this survey of feminist theory Rosemarie Tong provides coverage of the psychoanalytic existential and postmodern schools of feminism The author guides the reader through the complexities of even the most notoriously difficult thinkers Students will meet and become familiar with many of the essential figures in the feminist tradition from Wollstonecraft and Engel on through de Beauvoir Dinnerstein and Daly and up to Mitchell and Cixous The text treats all views with respect and encourages students to think critically and sympathetically about a wide range of views that have a direct relevance to their own lives      **The Universal Anthology** Richard Garnett, Léon Vallée, Alois Brandl, 1899      **Thinking Like a Political Scientist** Christopher Howard, 2022-12-22 A compelling case for transforming how research methods are taught to undergraduate students of political science London School of Economics Review of Books Each year tens of thousands of students who are interested in politics go through a rite of passage they take a course

in research methods Many find the subject to be boring or confusing and with good reason Most of the standard books on research methods fail to highlight the most important concepts and questions Instead they brim with dry technical definitions and focus heavily on statistical analysis slighting other valuable methods This approach prevents students from mastering the skills they need to engage more directly and meaningfully with a wide variety of research With wit and practical wisdom Christopher Howard draws on more than a decade of experience teaching research methods to transform a typically dreary subject and teach budding political scientists the critical skills they need to read published research more effectively and produce better research of their own The first part of the book is devoted to asking three fundamental questions in political science What happened Why Who cares In the second section Howard demonstrates how to answer these questions by choosing an appropriate research design selecting cases and working with numbers and written documents as evidence Drawing on examples from American and comparative politics international relations and public policy Thinking Like a Political Scientist highlights the most common challenges that political scientists routinely face and each chapter concludes with exercises so that students can practice dealing with those challenges

*The Rights of the Defenseless* Susan J. Pearson, 2020-10-12 In 1877 the American Humane Society was formed as the national organization for animal and child protection Thirty years later there were 354 anticruelty organizations chartered in the United States nearly 200 of which were similarly invested in the welfare of both humans and animals In The Rights of the Defenseless Susan J

Pearson seeks to understand the institutional cultural legal and political significance of the perceived bond between these two kinds of helpless creatures and the attempts made to protect them Unlike many of today s humane organizations those Pearson follows were delegated police powers to make arrests and bring cases of cruelty to animals and children before local magistrates Those whom they prosecuted were subject to fines jail time and the removal of either animal or child from their possession Pearson explores the limits of and motivation behind this power and argues that while these reformers claimed nothing more than sympathy with the helpless and a desire to protect their rights they turned cruelty into a social problem stretched government resources and expanded the state through private associations The first book to explore these dual organizations and their storied history *The Rights of the Defenseless* will appeal broadly to reform minded historians and social theorists alike

**Faithful Intellect** Neil Semple, 2005 In 1850 Samuel Nelles a well educated Methodist minister was selected to resuscitate the debt ridden and declining Victoria University As principal and later as president and chancellor he fought against shortsighted government educational policies while making the school into one of the premier universities in Canada A true academic Nelles believed in the importance of testing assumed laws dogmas and creeds However his pursuit of intellectual inquiry was always guided by a rational faith in God as well as the expectation of the future greatness and goodness of humanity *Faithful Intellect* expands the reader s understanding of many of the key intellectual religious and political concerns of nineteenth century English Canada while providing an essential contribution to the study of Canada s system of higher education
