The Kansas Beef Industry Charles L. Wood, Joshua Specht, 2021-10-08

This book relates the modern development of the Kansas beef cattle industry combining both the history of production including specific business problems and the significant work in upbreeding and an examination of the marketing aspects of the industry that became so important during the twentieth century Sharpest focus is on the period 1890 to 1940 after the Western beef industry had passed through the transition from using the expansive open range method of beef production to the more rational and organized methods of today Wood presents a detailed discussion of the history of upbreeding He points out the little known fact that the fine blooded animals especially Herefords that moved out from the Midwest were probably more important in stocking the ranges of the Plains and the Southwest than the many thousands of Longhorns driven from Texas He emphasizes the interregional aspect of beef production and the unique role played by Kansas On the threshold of the Great Plains Kansas received cattle from both the Midwest and the Southwest for many years upbred cattle moving South and stocker cattle moving from the South or Southwest into Kansas for additional maturing before being shipped to the Midwest for fattening or for slaughter Wood also looks closely at the relationship of cattlemen to government and to big business railroads stockyards and packers He sees the cattlemen as agricultural producers and business managers rather than as romantic self reliant giants of the earth Taking issue with the popular myth that cattlemen were and are ruggedly individualistic and disdainful of outside help Wood discusses the cattlemen s repeated demands for aid especially during the 1930s Included in the book is the history of the Kansas Livestock Association which the author credits as being one of the most significant stock associations in the West during this century Wood sets the KLA s growth within the context of the larger organizational revolution in the nation s business world A concluding chapter surveys major developments after World War II including the development of feedlots and irrigation the new cross breeding decentralization of packers and the advent of trucking to replace railroads There has been scant information on these topics in the general literature of the Great Plains *The Bar U & Canadian Ranching History* S. M. Evans, 2004 For much of its 130 year history the Bar U Ranch can claim to have been one of the most famous ranches in Canada Its reputation is firmly based on the historical role that the ranch has played its size and longevity and its association with some of the remarkable people who have helped develop the cattle business and build the Canadian West The long history of the ranch allows the evolution of the cattle business to be traced and can be seen in three distinct historical periods based on the eras of the individuals who owned and managed the ranch These colourful figures beginning with Fred Stimson then George Lane and finally Pat Burns have left an indelible mark on the Bar U as well as Canadian ranching history The Bar U and Canadian Ranching History is a fascinating story that

integrates the history of ranching in Alberta with larger issues of ranch historiography in the American and Canadian West and contributes greatly to the overall understanding of ranching history *The Taft Ranch* A. Ray Stephens, 2014-03-07 For fifty years the progressive Coleman Fulton Pasture Company popularly known as the Taft Ranch led in the development of South Texas and in the early twentieth century achieved national and international reputations for its contributions to agriculture The story of the ranch reaches its climax as the firm is absorbed into the community growing up around it the same community the ranch had nurtured to an unprecedented prosperity In 1961 A Ray Stephens visited Taft Texas and received permission to use the dust covered records which for thirty years had been closed to historians These records plus the valuable supplementary material in the Fulton Collection at the University of Texas have enabled the author to tell the complete story of the ranch from its inception in 1880 to its dissolution in 1930 In 1880 with a fifty year charter the Coleman Fulton Pasture Company was legally born as a private corporation For the duration of its history this company aided the advancement of South Texas through effective utilization of the fertile land through development of agriculture and related industries and through encouragement of settlers and curious visitors to the Coastal Bend region Its history is a long determined fight against severe drought cattle disease and financial insolvency Guided by farsighted men who believed in experimentation in agriculture and who also promoted the establishment of stores schools colleges churches and industrial plants the company not only survived but prospered and by 1920 its owners could survey their vast properties with well earned satisfaction The struggling cattle firm of 1880 had expanded into a multi interest profitable corporation that had established and supervised most of the industries in Taft Texas Stephens well documented 1964 study had been long needed During the three decades preceding it the ranch had been well nigh forgotten only the handful of people then still living who had worked on the ranch had kept its memory fresh while the voluminous company records remained inaccessible The author supplemented his study of company records and newspapers with archival material government records and information obtained during hours of interviewing His book will insure for the Taft Ranch its deservedly prominent position in Texas history The lively introduction was written by Joe B Frantz 1917 1993 who in his role of Professor of History at the University of Texas encouraged the study and watched its development **The Atlas of U.S. and Canadian Environmental History** Char Miller, 2003-08-08 This visually dynamic historical atlas chronologically covers American environmental history through the use of four color maps photos and diagrams and in written entries from well known scholars Organized into seven categories each chapter covers agriculture wildlife and forestry land use and management technology and industry pollution

Cowboys of the Americas Richard W. Slatta, 1990-01-01 Lavishly illustrated with photographs paintings and movie stills this Western Heritage Award winning book explores what life was actually like for the working cowboy in North America If you read only one book on cowboys read this one Journal of the Southwest **American Indian Cowboys in Southern California, 1493-1941** David G. Shanta, 2024-10-15 In 1769 1770 Spanish Catholic missionaries soldiers and Cochim

Indians traveled to Alta California They relied on domesticated animals like horses and cattle for food security in the continual expansion of the Spanish empire These rapidly increasing herds consumed traditional sources of Indigenous foods medicines tools and weapons and soon outstripped the ability of soldiers and priests to control them This reality forced the Spanish missionaries to train trusted American Indian converts in the art of cowboying and cattle ranching American Indian Cowboys in Southern California 1493 1941 Survival Sovereignty and Identity by David G Shanta provides new insights into the impact of horses and cattle on the Indigenous peoples of the Spanish Borderlands after early colonization He examines how the American Indian cowboys formed the backbone of Spanish mission economies the international trade in cowhides and tallow that created the Mexican ranchero class known as Californios and later on American cattle operations Shanta shows that California Native peoples adopted cowboying and cattle ranching first as a survival strategy but then also acquiring and running their own herds and forming a new California American Indian economy based on cattle Their new economy reinforced their demands for sovereignty over their ancestral lands with exclusive rights to essential elements including the essential elements of pasturage and water This book affirms the innovative nature of American Indian Cowboys and brings to light how they survived kept their cultures alive and gained recognition of their sovereign status **Black Cowboys Of Texas** Sara R. Massey, 2000 Offers twenty four essays about African American men and women who worked in the Texas cattle industry from the slave days of the mid 19th century through the early 20th century Range and Ranch Studies in Wyoming Alonzo Frederick Vass, 1926 *Public Lands and Political Meaning* Karen R. Merrill, 2002-07-15 The history of the American West is a history of struggles over land and none has inspired so much passion and misunderstanding as the conflict between ranchers and the federal government over public grazing lands Drawing upon neglected sources from organized ranchers this is the first book to provide a historically based explanation for why the relationship between ranchers and the federal government became so embattled long before modern environmentalists became involved in the issue Reconstructing the increasingly contested interpretations of the meaning of public land administration *Public Lands and Political Meaning* traces the history of the political dynamics between ranchers and federal land agencies giving us a new look at the relations of power that made the modern West Although a majority of organized ranchers supported government control of the range at the turn of the century by midcentury these same organizations often used a virulently antifederal discourse that fueled many a political fight in Washington and that still runs deep in American politics today In analyzing this shift Merrill shows how profoundly people's ideas about property wove their way into the political language of the debates surrounding public range policy As she unravels the meaning of this language Merrill demonstrates that different ideas about property played a crucial role in perpetuating antagonism on both sides of the fence In addition to illuminating the origins of the sagebrush rebellions in the American West this book also persuasively argues that political historians must pay more attention to public land management issues as a way of understanding tensions in American state building

Agricultural Economics Research ,1961 **Charlie Siringo's West** Howard R. Lamar,2020-06 The colorful life of Charlie Siringo and the image of the American West he helped to create **The Great Plains, Second Edition** Walter Prescott Webb,2022-08 Published in Cooperation with the William P Clements Center for Southwest Studies Southern Methodist University This iconic description of the interaction between the vast central plains of the continent and the white Americans who moved there in the mid nineteenth century has endured as one of the most influential widely known and controversial works in western history since its first publication in 1931 Arguing that the Great Plains environment constitutes a geographic unity whose influences have been so powerful as to put a characteristic mark upon everything that survives within its borders Walter Prescott Webb identifies the revolver barbed wire and the windmill as technological adaptations that facilitated Anglo conquest of the arid treeless region Webb draws on history anthropology geography demographics climatology and economics in arguing that the 98th Meridian constitutes an institutional fault line at which practically every institution that was carried across it was either broken and remade or else greatly altered This new edition of one of the foundational works of western American history features an introduction by Great Plains historian Andrew R Graybill and a new index and updated design The Agricultural Systems of the World David B. Grigg,1974-11-07 This book is about the major agricultural systems of the world and the history and processes behind these systems *Barbs, Bullets, and Blood* Harold D. Jobs,2025-07-11 In 1874 Joseph Glidden patented and manufactured the nation s first barbed wire and the next year Henry Sanborn came to Texas selling Glidden s wire to cattlemen Sales increased each year and in 1883 Sanborn sold Texas ranchers one million dollars worth of barbed wire but free range cattle advocates and homesteaders revolted against the barbed wire fences more than half of Texas s counties experiencing fence cutting In the eyes of some Texans barbed wire fences stopped cattle drives interfered with homesteading and wrecked the state s economy but the act of fence cutting precipitated extreme levels of violence between the ranchers and the fence cutters Fence cutting occurred as far north as Montana but no state suffered the magnitude of fence cutting and violence as in Texas Fence cutting usually occurred at night and responsibility for stopping it fell on local lawmen who often failed The Texas state government lacked statutory authority and financial means to stop it so Governor John Ireland called the Texas legislature to Austin for a special session to write new laws and appropriate funds to cope with this revolution After successful passage Pinkerton and Ferrell s commercial detectives and the Texas Rangers stepped in to assist A war of barbs bullets and blood followed Soon detectives fled the state a Ranger was assassinated and another Ranger wounded In a midnight shootout with Rangers two fence cutters were killed one of them the neighboring community s justice of the peace Texas s fence cutting incidents are found scattered in earlier writings but *Barbs Bullets and Blood* is the first comprehensive coverage of one of the state s most violent and costly episodes **Publications of the American Folklife Center** ,1977
