Justice Karen A. Hegtvedt, Jody Clay-Warner, 2008-08-01 Discusses a range of fundamental issues about justice This work addresses issues pertaining to distributive procedural and interactional justice using a range of methodologies It focuses on issues relevant to the processes underlying justice evaluations including motivations perceptions identities ideologies and exclusionary practices

Transport Justice Karel Martens, 2016-07-01 Transport Justice develops a new paradigm for transportation planning based on principles of justice Author Karel Martens starts from the observation that for the last fifty years the focus of transportation planning and policy has been on the performance of the transport system and ways to improve it without much attention being paid to the persons actually using or failing to use that transport system There are far reaching consequences of this approach with some enjoying the fruits of the improvements in the transport system while others have experienced a substantial deterioration in their situation The growing body of academic evidence on the resulting disparities in mobility and accessibility have been paralleled by increasingly vocal calls for policy changes to address the inequities that have developed over time Drawing on philosophies of social justice Transport Justice argues that governments have the fundamental duty of providing virtually every person with adequate transportation and thus of mitigating the social disparities that have been created over the past decades Critical reading for transport planners and students of transportation planning this book develops a new approach to transportation planning that takes people as its starting point and justice as its end

Justice and Health Care Allen Buchanan, 2009-11-05 In this volume Allen Buchanan collects ten of his most influential essays on justice and healthcare and connects the concerns of bioethicists with those of political philosophers focusing not just on the question of which principles of justice in healthcare ought to be implemented but also on the question of the legitimacy of institutions through which they are implemented With an emphasis on the institutional implementation of justice in healthcare Buchanan pays special attention to the relationship between moral commitments and incentives The volume begins with an exploration of the difficulties of specifying the content of the right to healthcare and of identifying those agents and institutions that are obligated to help ensure that the right thus specified is realized and then progresses to an examination of the problems that arise in attempts to implement the right through appropriate institutions In the last two essays Buchanan pursues the central issues of justice in healthcare at the global level exploring the idea of healthcare as a human right and the problem of assigning responsibilities for ameliorating global health disparities Taken together the essays provide a unique and consistent position on a wide range of issues including conflicts of interest in clinical practice and the claims of medical professionalism the nature and justification for the right to health care the relationship between responsibility for healthcare and the nature of the healthcare system and the problem of global health disparities The result is an approach to justice in healthcare that will facilitate more productive interaction between the normative analysis of philosophers and the policy work of economists lawyers and political scientists

Sourcebook of Criminal Justice Statistics, 1982 Departments of State, Justice, Commerce and the Judiciary Appropriations for 1953 United States. Congress. Senate. Committee on Appropriations, 1952 *The Psychology of Justice and Legitimacy* D. Ramona Bobocel, Aaron C. Kay, Mark P. Zanna, James M. Olson, 2011-02-25 In response to the international turmoil violence and increasing ideological polarization social psychological interest in the topics of legitimacy and social justice has blossomed considerably Social psychologists have explored the psychological underpinnings of people s reactions to injustice and illegitimacy including the behavioral and psychological consequences of the motivation to view individual outcomes and governmental systems as just and legitimate Although injustice and illegitimacy are clearly related at conceptual and theoretical levels these two rich literatures are rarely integrated Social justice researchers have focused on how people make sense of particular instances of injustice whereas legitimacy researchers have tended to focus primarily on people s reactions to unfair systems of intergroup relations This 11th volume of the Ontario Symposium series brings together the work of leading researchers in fields of social justice and legitimacy to facilitate the cross pollination and integration of these fields The contributions address broad theoretical issues and cutting edge empirical advances while illustrating the diversity and richness of research in the two fields By uniting these two domains this volume will stimulate

new directions in theory and research that seek to explain how and why people make sense of injustice at all levels of analysis
