Benjamin Radford

Rape Social Facts From England And America:

Rape Donna Iven Qureshi,1979 **Shelley's Process** Jerrold E. Hogle,1989-01-12 In this set of thorough and revisionary readings of Percy Bysshe Shelley's best known writings in verse and prose Hogle argues that the logic and style in all these works are governed by a movement in every thought memory image or word pattern whereby each is seen and sees itself in terms of a radically different form For any specified entity or figure to be known for what it is it must be reconfigured by and in terms of another one at another level which must then be dislocated itself In so delineating Shelley's process Hogle reveals the revisionary procedure in the poet's various texts and demonstrates the powerful effects of radical transference in Shelley's visions of human possibility **Rape Cultures and Survivors** Tuba Inal,Merril D.

Smith,2018-07-11 An in depth treatment in two volumes of the historical and cultural contexts of rape and rape culture this set discusses both victims and perpetrators internationally during war and peace times and examines the treatment of survivors Historically women men and children have all suffered sexual violence during wartime and peacetime as well as inside and outside their homes This two volume title focuses on survivors of rape in a variety of social and cultural contexts It examines different people who are victimized in a variety of situations including in war and prisons and studies the particularities of rape cultures that are intertwined with ethnic cultures and hatreds and other forms of conflictual social political and economic relations In the introduction the editors define rape and rape culture and provide historical and cultural context for the information presented throughout the volumes the first of which primarily focuses on the causes and manifestations of rape cultures the second considers the consequences of rape cultures for survivors of sexual assault In both volumes contributors provide case studies elucidating the experiences of a variety of victims young old male female straight and LGBT in diverse locations around the world to help readers understand how truly pervasive and portentous rape culture is **Crime and Delinquency** ,1981 **The Social Psychology of Aggression** Barbara Krahé,2020-10-14 Thoroughly

revised and updated this third edition offers a comprehensive and up to date overview of the social psychology of aggression covering all the relevant major theories individual differences situational factors and applied contexts Understanding the causes forms and consequences of aggression and violence is critical for dealing with these harmful forms of social behavior Addressing a range of sub topics the first part deals with the definition and measurement of aggression presents major theories examines the development of aggression and discusses individual and gender differences in aggressive behaviour It covers the role of situational factors in eliciting aggression and the impact of exposure to violence in the media The second part examines specific forms and manifestations of aggression including chapters on aggression in everyday contexts and in the family sexual aggression intergroup aggression and terrorism The new edition also includes additional coverage of gender differences gun violence and terrorism to reflect the latest research developments in the field Also discussing strategies for reducing and preventing aggression this book is essential reading for students and researchers in psychology

and related disciplines as well as practitioners and policy makers **Law Enforcement Bible No. 2** Robert A. Scanlon, 1982 **International Journal of Women's Studies**, 1983 **The Dark Side of Families** David Finkelhor, 1983-03 This series of articles portrays the state of the art on family violence and abuse research crystallizes the key interdisciplinary issues confronting family violence and abuse researchers and suggests a research agenda for the coming years Although the chapters cover a broad spectrum of issues and controversies in the areas of wife abuse child abuse the sexual abuse of children and marital rape a number of common themes and issues emerge First many chapters share the perspective that violence and abuse emerge from the nature of social arrangements Second even though many different forms of family violence and abuse are discussed several chapters explore their commonalities and important etiological differences A number of articles examine the common effects of victimization across various forms of family violence and abuse A third common theme of the papers is an expansion of research efforts to groups other than victims of family violence and abuse as there are chapters that examine the individual and social characteristics of male perpetrators of both wife abuse and child abuse as well as chapters that focus on the attitudes and behaviors of professional groups concerned with the treatment of victims of family violence and abuse The volume shows great methodological diversity and attention to theoretical detail the research presented reveals the possibility of a more comprehensive social science approach to the study of family violence and abuse In work related to theory building one chapter explains a number of findings in the child abuse and neglect literature using propositions derived from evolutionary biology another paper distills propositions from several theoretical traditions In conjunction with these efforts several chapters report research designed to test competing propositions Chapter references and research data are provided **On Violence in History** Philip Dwyer, Mark S. Micale, 2020-01-10 Is global violence on the decline Scholars argue that Harvard psychologist Steven Pinker's proposal that violence has declined dramatically over time is flawed This highly publicized argument that human violence across the world has been dramatically abating continues to influence discourse among academics and the general public alike In this provocative volume a cast of eminent historians interrogate Pinker's thesis by exposing the realities of violence throughout human history In doing so they reveal the history of human violence to be richer more thought provoking and considerably more complicated than Pinker claims From the introduction Not all of the scholars included in this volume agree on everything but the overall verdict is that Pinker's thesis for all the stimulus it may have given to discussions around violence is seriously if not fatally flawed The problems that come up time and again are the failure to genuinely engage with historical methodologies the unquestioning use of dubious sources the tendency to exaggerate the violence of the past in order to contrast it with the supposed peacefulness of the modern era the creation of a number of straw men which Pinker then goes on to debunk and its extraordinarily Western centric not to say Whiggish view of the world Complex historical questions as the essays in this volume clearly demonstrate cannot be answered with any degree of certainty and certainly not in a

simplistic way Our goal here is not to offer a final definitive verdict on Pinker's work it is rather to initiate an ongoing process of assessment that in the future will incorporate as much of the history profession as possible

Bestandsverzeichnis Kriminologie, 1979 Washing the Brain – Metaphor and Hidden Ideology Andrew Goatly, 2007-01-17 Contemporary metaphor theory has recently begun to address the relation between metaphor culture and ideology In this wide ranging book Andrew Goatly using lexical data from his database Metalude investigates how conceptual metaphor themes construct our thinking and social behaviour in fields as diverse as architecture engineering education genetics ecology economics politics industrial time management medicine immigration race and sex He argues that metaphor themes are created not only through the universal body but also through cultural experience so that an apparently universal metaphor such as event structure as realized in English grammar is in fact culturally relative compared with e.g. the construal of cause and effect in the Algonquin language Blackfoot Moreover event structure as a model is both scientifically reactionary and as the basis for technological mega projects has proved environmentally harmful Furthermore the ideologies of early capitalism created or exploited a selection of metaphor themes historically traceable through Hobbes Hume Smith Malthus and Darwin These metaphorical concepts support neo Darwinian and neo conservative ideologies apparent at the beginning of the 21st century ideologies underpinning our social and environmental crises The conclusion therefore recommends skepticism of metaphor's reductionist tendencies *America the Fearful* Benjamin Radford, 2022-04-18 National panics about crime immigrants police and societal degradation have been pervasive in the United States of the 21st century Many of these fears begin as mere phantom fears but are systematically amplified by social media news media bad actors and even well intentioned activists There are numerous challenges facing the U.S. but Americans must sort through which fears are legitimate threats and which are amplified exaggerations This book examines the role of fear in national panics and addresses why many Americans believe the country is in horrible shape and will continue to deteriorate despite contradictory evidence Political polarization racism sexism economic inequality and other social issues are examined Combining media literacy folklore investigative journalism psychology neuroscience and critical thinking approaches this book reveals the powerful role that fear plays in clouding perceptions about the U.S. It not only records the repercussions of this toxic phenomenon but also offers evidence based solutions

Bowker's Law Books and Serials in Print, 1984 **The Oxford Handbook of Sex Offences and Sex Offenders** Teela Sanders, 2017 The Oxford Handbook on Sex Offenses and Sex Offenders provides comprehensive even handed analysis of the myriad of topics related to sex offenses including pornography sex trafficking criminal justice responses and the role of social media in sex crimes Extending beyond the existing scholarly research on the topic this volume teases out the key debates controversies and challenges involved in addressing sex crimes Violence in American Society Chris Richardson, 2020-08-11 While many books explore such specific issues as gun violence arson murder and crime prevention this encyclopedia serves as a one stop resource for exploring the history societal factors and current

dimensions of violence in America in all its forms This encyclopedia explores violence in the United States from the nation's founding to modern day trends laws viewpoints and media depictions Providing a nuanced lens through which to think about violence in America including its underlying causes its iterations and possible solutions this work offers broad and authoritative coverage that will be immensely helpful to users ranging from high school and undergraduate students to professionals in law enforcement and school administration In addition to detailed and evenhanded summaries of the key events and issues relating to violence in America contributors highlight important events political debates legal perspectives modern dimensions and critical approaches This encyclopedia also features excerpts from such important primary source documents as legal rulings presidential speeches and congressional testimony from scholars and activists on aspects of violence in America Together these documents provide important insights into past and present patterns of violent crime in the United States as well as proposed solutions to those problems

Encyclopedia of Criminology J. Mitchell Miller, Richard A. Wright, 2013-12-17 This three volume work offers a comprehensive review of the pivotal concepts measures theories and practices that comprise criminology and criminal justice No longer just a subtopic of sociology criminology has become an independent academic field of study that incorporates scholarship from numerous disciplines including psychology political science behavioral science law economics public health family studies social work and many others The three volume Encyclopedia of Criminology presents the latest research as well as the traditional topics which reflect the field's multidisciplinary nature in a single authoritative reference work More than 525 alphabetically arranged entries by the leading authorities in the discipline comprise this definitive international resource The pivotal concepts measures theories and practices of the field are addressed with an emphasis on comparative criminology and criminal justice While the primary focus of the work is on American criminology and contemporary criminal justice in the United States extensive global coverage of other nations justice systems is included and the increasing international nature of crime is explored thoroughly Providing the most up to date scholarship in addition to the traditional theories on criminology the Encyclopedia of Criminology is the essential one stop reference for students and scholars alike to explore the broad expanse of this multidisciplinary field

The American Revolution Reborn Patrick Spero, Michael Zuckerman, 2016-10-12 The American Revolution conjures a series of iconographic images in the contemporary American imagination In these imagined scenes defiant Patriots fight against British Redcoats for freedom and democracy while a unified citizenry rallies behind them and the American cause But the lived experience of the Revolution was a more complex matter filled with uncertainty fear and discord In The American Revolution Reborn editors Patrick Spero and Michael Zuckerman compile essays from a new generation of multidisciplinary scholars that render the American Revolution as a time of intense ambiguity and frightening contingency The American Revolution Reborn parts company with the Revolution of our popular imagination and diverges from the work done by historians of the era from the past half century In the first section Civil Wars contributors rethink the

heroic terms of Revolutionary era allegiance and refute the idea of patriotic consensus In the following section Wider Horizons essayists destabilize the historiographical inevitability of America as a nation The studies gathered in the third section New Directions present new possibilities for scholarship on the American Revolution And the last section titled Legacies collects essays that deal with the long afterlife of the Revolution and its effects on immigration geography and international politics With an introduction by Spero and a conclusion by Zuckerman this volume heralds a substantial and revelatory rebirth in the study of the American Revolution Contributors Zara Anishanslin Mark Boonshoft Denver Brunzman Katherine Cart Engel Aaron Spencer Fogleman Travis Glasson Edward G Gray David C Hsiung Ned C Landsman Michael A McDonnell Kimberly Nath Bryan Rosenblithe David S Shields Patrick Spero Matthew Spooner Aaron Sullivan Michael Zuckerman

Public Opinion and Criminal Justice Jane Wood, Theresa A. Gannon, 2013-05-13 Public opinion is vital to the functioning of the criminal justice system but it is not at all clear how best to establish what this is and what views people have on different aspects of criminal justice and the criminal justice system Politicians and the media often assume that the public wants harsher tougher and longer sentences and policies may be shaped accordingly Detailed research and more specific polling often tells a different story This book is concerned to shed further light on the nature of public views on criminal justice paying particular attention to public opinion towards specific types of offenders such as sex offenders and mentally disordered offenders In doing so it challenges many enduring assumptions regarding people's views on justice and confronts the myths that infect our understanding of what people think about the criminal justice system

Sex Crime in the News Keith Soothill, Sylvia Walby, 2023-03-31 First published in 1991 Sex Crime in the News is a unique examination of the nature of sex crime reporting in the press Analysing examples from forty years of newspaper coverage the authors provide a systematic study of this controversial topic The book reveals the misleading and trivializing nature of sex crime coverage with serious research reports on rape and discussions on law reform being given short shrift The authors examine the increasing gap between the reality of sexual abuse and the coverage it receives in the press and they set their detailed empirical work within a context of broader concerns about the relationship between the media the individual and the state Critical though it is of the press this book will be of special interest to people working in the media and to legislators involved in debates about the press It will also be of value to students on course in women's studies cultural and media studies and deviancy

Pain Neuroethics and Bioethics, 2018-09-27 The treatment of pain and scientific pursuits to understand the mechanisms underlying pain raise many ethical legal and social issues For the first time this edited volume brings together content experts in the fields of pain pediatrics neuroscience brain imaging bioethics health humanities and the law to provide insight into the timely topic of pain neuroethics This landmark volume of the state of the art exploration of pain neuroethics will be a must read for those interested in the ethical issues in pain research treatment and management Provides the authority and expertise of leading contributors from an international board of authors Represents the first release in the

Developments in Neuroethics and Bioethics series The content includes representatives from a diversity of disciplines
