Voyager Stephen J. Pyne,2010-07-22 A brilliant new account of the Voyager space program its history scientific impact and cultural legacy Launched in 1977 the two unmanned Voyager spacecraft have completed their Grand Tour to the four outer planets and they are now on course to become the first man made objects to exit our solar system To many this remarkable achievement is the culmination of a golden age of American planetary exploration begun in the wake of the 1957 Sputnik launch More than this Voyager may be one of the purest expressions of exploration in human history For more than five hundred years the West has been powered by the impulse to explore to push into a wider world In this highly original book Stephen Pyne recasts Voyager in the tradition of Magellan Columbus Cook Lewis and Clark and other landmark explorers The Renaissance and Enlightenment the First and Second Ages of Discovery sent humans across continents and oceans to find new worlds In the Third Age expeditions have penetrated the Antarctic ice reached the floors of the oceans and traveled to the planets by new means most spectacularly via semi autonomous robot Voyager probes how the themes of motive and reward are stunningly parallel through all three ages Voyager which gave us the first breathtaking images of Jupiter and Saturn changed our sense of our own place in the universe *Legacies of Romanticism* Carmen Casaloggi,Paul

March-Russell,2013-03-05 This book visits the Romantic legacy that was central to the development of literature and culture from the 1830s onward Although critical accounts have examined aspects of this long history of indebtedness this is the first study to survey both Nineteenth and Twentieth century culture The authors consider the changing notion of Romanticism looking at the diversity of its writers the applicability of the term and the ways in which Romanticism has been reconstituted The chapters cover relevant historical periods and literary trends including the Romantic Gothic the Victorian era and

Modernism as part of a dialectical response to the Romantic legacy Contributors also examine how Romanticism has been reconstituted within postmodern and postcolonial literature as both a reassessment of the Modernist critique and of the imperial contexts that have throughout this time frame underpinned the Romantic legacy bringing into focus the contemporaneity of Romanticism and its political legacy This collection reveals the diversity and continuing relevance of the genre in new and exciting ways offering insights into writers such as Browning Ruskin Pater Wilde Lewis MacNeice and Auster

The Secular Scripture and Other Writings on Critical Theory, 1976-1991 Northrop Frye, 2006-12-15

Northrop Frye's *The Secular Scripture* was first published in 1976 and was soon recognized as one of his most influential works reflecting an extensive development of Frye's thoughts about romance as a literary form This new edition in the *Collected Works of Northrop Frye* series brings *The Secular Scripture* together with thirty shorter pieces pertaining to literary theory and criticism from the last fifteen years of Frye's life Frye's study illuminates the enduring attraction and deep human significance of the romance genre in all its forms He provides a unique perspective on popular fiction and culture and shows how romance forms have by their very structural and conventional features an ability to address both specific social concerns and deep and fundamental human concerns that span time and place In distinguishing popular from elite culture Frye insists that they are both ultimately two aspects of the same human compulsion to create in the face of chaos The additional late writings reflect Frye's sense at the time that he was working toward some kind of final statement which eventually saw the light of day only months before his death as *Words with Power* 1990

The Poetics of Decadence Fusheng Wu, 1998-04-30

A reconsideration of Chinese decadent *tuifei* poetry which argues that this poetry is not a marginal trend but rather a vital part of the Chinese literary tradition
