Rational Commitment And Social Justice Essays For Gregory Kavka:

Rational Commitment and Social Justice Jules L. Coleman, Christopher W. Morris, Gregory S. Kavka, 1998-11-13 Gregory S. Kavka 1947-94 was a prominent and influential figure in contemporary moral and political philosophy. The essays in this volume are concerned with fundamental issues of rational commitment and social justice to which Kavka devoted his work as a philosopher. The essays take Kavka's work as a point of departure and seek to advance the respective debates. The topics include the relationship between intention and moral action as part of which Kavka's famous toxin puzzle is a focus of discussion; the nature of deterrence; the rationality of morals; contractarian ethics; and the contemporary relevance of Hobbes' political thought. Incorporating important philosophical statements of problems and fresh contributions to the ongoing debate about rational intention, this volume will interest not just philosophers but also political scientists and economists.

Libertarian Accounts of Free Will Randolph Clarke, Randolph K. Clarke, 2005-12-08 This comprehensive study offers a balanced assessment of libertarian accounts of free will. Bringing to bear recent work on action causation and causal explanation, Clarke defends a type of event causal view from popular objections concerning rationality and diminished control. He subtly explores the extent to which event causal accounts can secure the things for the sake of which we value free will, judging their success here to be limited. Clarke then sets out a highly original agent causal account, one that integrates agent causation and nondeterministic event causation. He defends this view from a number of objections but argues that we should find the substance causation required by any agent causal account to be impossible. Clarke concludes that if a broad thesis of incompatibilism is correct, one on which both free will and moral responsibility are incompatible with determinism, then no libertarian account is entirely adequate.

Contractualism and the Foundations of Morality Nicholas Southwood, 2013-11-07 Contractualism has a venerable history and considerable appeal. Yet as an account of the foundations or ultimate grounds of morality, it has been thought by many philosophers to be subject to fatal objections. In this book, Nicholas Southwood argues otherwise. Beginning by detailing and diagnosing the shortcomings of the existing Hobbesian and Kantian models of contractualism, he then proposes a novel deliberative model based on an interpersonal deliberative conception of practical reason. He argues that the deliberative model of contractualism represents an attractive alternative to its more familiar rivals and that it has the resources to offer a more compelling account of morality's foundations, one that does justice to the twin demands of moral accuracy and explanatory adequacy.

The Cambridge History of Moral Philosophy Sacha Golob, Jens Timmermann, 2017-12-31 With fifty-four chapters charting the development of moral philosophy in the Western world, this volume examines the key thinkers and texts and their influence on the history of moral thought, from the pre-Socratics to the present day. Topics including Epicureanism, humanism, Jewish and Arabic thought, perfectionism, pragmatism, idealism, and intuitionism are all explored, as are figures including Aristotle, Boethius, Spinoza, Hobbes, Hume, Kant, Hegel, Mill, Nietzsche, Heidegger, Sartre, and Rawls, as well as numerous key ideas and schools of thought. Chapters are written

by leading experts in the field drawing on the latest research to offer rigorous analysis of the canonical figures and movements of this branch of philosophy The volume provides a comprehensive yet philosophically advanced resource for students and teachers alike as they approach and refine their understanding of the central issues in moral thought

Intergenerational Justice Lukas H. Meyer, 2017-05-15 The essays selected for this volume show how relations between past current and future generations have become a major subject of philosophical research since the 1970s The relations between people alive today with people who may exist in the future and people now deceased differ from relations between contemporaries and in ways that raise new conceptual logical and substantive questions Among the questions addressed in this volume are what is the status of people now deceased and people who may exist in the future Can the latter be harmed by the actions of people alive today What duties of justice do we have towards people with whom we can neither interact nor co operate and can people who are indirect victims of past injustices legitimately claim compensation Answers to these questions are relevant in a number of policy areas most notably in issues regarding reparations for historical injustice and responding to climate change and its consequences

High and Low Corruption Harry Adams, 2023-12-19 High and Low Corruption Children Capabilities and Crime provides a systematic theory of corruption and analyzes high corruption in terms of political corruption and high end white collar crime and low corruption in terms of juvenile delinquency and street crime It shows how delinquents and street criminals often suffer from arrested development of their basic human capabilities In turn Harry Adams argues that

their maldevelopment often emerges neither merely through their own fault when they were children nor through the fault of biological caregivers who were guilty of parental child neglect Beyond this Adams argues that the maldevelopment of at risk youth commonly emerges through a kind of political child neglect when corrupt public officials fail to provide adequate protection or back up support for their development In these ways the author shows how the former type of high corruption or suite crime can significantly contribute to the latter type of corruption and street crime By applying a set of moral constitutional and criminological principles from Derek Parfit Ronald Dworkin and Jeffrey Reiman respectively Adams also provides a systematic account of why and how both these types of corruption should be curbed The Stag Hunt and the Evolution of Social Structure Brian Skyrms,2004 Brian Skyrms author of the successful *Evolution of the Social Contract* which won the prestigious Lakatos Award has written a sequel The book is a study of ideas of cooperation and collective action The point of departure is a prototypical story found in Rousseau s *A Discourse on Inequality* Rousseau contrasts the pay off of hunting hare where the risk of non cooperation is small but the reward is equally small against the pay off of hunting the stag where maximum cooperation is required but where the reward is so much greater Thus rational agents are pulled in one direction by considerations of risk and in another by considerations of mutual benefit Written with Skyrms s characteristic clarity and verve this intriguing book will be eagerly sought out by students and professionals in philosophy political science economics sociology and evolutionary biology *The Moral and Political Status of Children* David Archard,Colin M. raised by intergenerational issues how we can have duties to non-existent people whether we can wrong the dead or be held responsible for what they did what sacrifices we should make for our successors and whether we have duties to people of the remote future Encompassing the ethical problems created by demographic change the ethical issues of population control and intergenerational implications of new technologies for creating people this book will be of interest to those studying philosophy politics legal theory and environmental studies **Parental Obligations and Bioethics** Bernard G.
