Riding The Storm 1956 1959:

Riding the Storm, 1956-1959 Harold Macmillan, 2003 The fourth volume of Harold Macmillan's autobiography covers the four years from 1956 During this time Macmillan offers a detailed and robust defence of the Suez Canal operation As Prime Minister he begins the task of re building the disrupted relations with America and with world and Commonwealth affairs

Harold Macmillan Harold Macmillan, 1971 *The Macmillan-Eisenhower Correspondence, 1957-69* E. Geelhoed, A. Edmonds, 2004-12-10 The Macmillan Eisenhower Correspondence provides for the first time an edition of the messages exchanged between Harold Macmillan and Dwight D Eisenhower during their tenures as national leaders in the late 1950s The collection consists of more than 400 letters cables and transcripts of telephone conversations This extensive correspondence reveals the agreements and disagreements between Macmillan and Eisenhower and their approaches to the major political issues of their time The correspondence also shows how Macmillan and Eisenhower preserved and strengthened the Anglo American alliance at a critical time in the history of the Cold War *The Quest for Hegemony in the Arab World* Poteh, 2022-02-22 The struggle between Egypt and Iraq over Arab hegemony constitutes the main theme of this study Focussing on the struggle over Middle Eastern defense between 1945 58 and culminating in the conflict over the Baghdad Pact 1955 58 it sheds new light on Arab politics during the period under review This research concentrates predominantly on the regional actors The underlying assumption is that policies were not necessarily formulated in Washington and London and that often enough major decisions taken in Ankara Cairo Baghdad Damascus Amman and other Arab capitals affected decision makers in Western capitals The Quest for Hegemony in the Arab World is based on newly released British American and Israeli documents as well as on all available Arab sources The study's value rests upon its discussion of the Baghdad Pact a significant event which was hitherto neglected yet marked a watershed in modern Arab history This study's approach offers an analytical framework with which the present struggle for hegemony in the Arab world may be examined **Empires of the Mind** Robert Gildea, 2019-02-28 The empires of the future would be the empires of the mind declared Churchill in 1943 envisaging universal empires living in peaceful harmony Robert Gildea exposes instead the brutal realities of decolonisation and neo colonialism which have shaped the postwar world Even after the rush of French and British decolonisation in the 1960s the strings of economic and military power too often remained in the hands of the former colonial powers The more empire appears to have declined and fallen the more a fantasy of empire has been conjured up as a model for projecting power onto the world stage and legitimised colonialist intervention in Afghanistan Iraq and Syria This aggression along with the imposition of colonial hierarchies in metropolitan society has excluded alienated and even radicalised immigrant populations Meanwhile nostalgia for empire has bedevilled relations with Europe and played a large part in explaining Brexit **Macmillan, Khrushchev and the Berlin Crisis, 1958-1960** Kitty Newman, 2007-01-24 This new study casts fresh light on the roles of Harold Macmillan and Nikita Khrushchev and their efforts to achieve a

compromise settlement on the pivotal Berlin Crisis Drawing on previously unseen documents and secret archive material Kitty Newman demonstrates how the British Prime Minister acted to prevent the crisis sliding into a disastrous nuclear conflict She shows how his visit to Moscow in 1959 was a success which convinced Khrushchev of a sincere effort to achieve a lasting settlement Despite the initial reluctance of the French and the Americans and the consistent opposition of the Germans Macmillan's subsequent efforts led to a softening of the Western line on Berlin and to the formulation of a set of proposals that might have achieved a peaceful resolution to the crisis if the Paris Conference of 1960 had not collapsed in acrimony This volume also assesses Khrushchev's role which despite his sometimes intemperate language was to secure a peaceful settlement which would stabilize the East German regime maintain the status quo in Europe and prevent the reunification of a resurgent nuclearized Germany thereby paving the way for disarmament This book will be of great interest to all students of post war diplomacy Soviet foreign policy the Cold War and of international relations and strategic studies in general

The EOKA Cause Andrew R. Novo, 2020-11-12 This book explores the origins conduct and failure of Greek Cypriot nationalists to achieve the unification of Cyprus with Greece Andrew Novo addresses the anti colonial struggle in the context of the competition for the nationalist narrative in Cyprus between the Left and Right the duelling Greek Cypriot and Turkish Cypriot nationalisms in Cyprus the role of Turkey and Greece in the conflict on the island and the concerns of the British Empire during its retrenchment following the Second World War More than a narrative history of the period an analysis of British policy or a description of counter insurgency operations this book lays out an examination of the underpinnings of the enosis cause and its manifestation in action It argues that the strategic myopia of the enosis movement shackled the cause defined its conduct and was the primary reason for its failure Divided and occupied Cyprus and the world deal with its unresolved legacy to this day

Harold Macmillan and the Berlin Wall Crisis, 1958-62 J. Gearson, 1998-01-12 Drawing on newly released government papers John Gearson assesses the development of Harold Macmillan's foreign policy during the Berlin Wall Crisis Tracing the bitter alliance disputes of the crisis Dr Gearson shows how Macmillan's attempts to chart an independent course crucially undermined his standing with his European partners and revealed his confused approach to European security Berlin is placed at the centre of consideration of British foreign policy making this book an important contribution to the historiography of the period

The Imperialism of French Decolonisation Ryo Ikeda, 2016-01-12 This book examines French motivations behind the decolonisation of Tunisia and Morocco and the intra Western Alliance relationships It argues that changing French policy towards decolonisation brought about the unexpectedly quick process of independence of dependencies in the post WWII era

Suez Deconstructed Philip Zelikow, Ernest May, 2018-09-04 Experiencing a major crisis from different viewpoints step by step The Suez crisis of 1956 now little more than dim history for many people offers a master class in statecraft It was a potentially explosive Middle East confrontation capped by a surprise move that reshaped the region for years to come It was a diplomatic crisis that riveted the

world's attention. And it was a short but startling war that ended in unexpected ways for every country involved. Six countries including two superpowers had major roles but each saw the situation differently. From one stage to the next it could be hard to tell which state was really driving the action. As in any good ensemble, all the actors had pivotal parts to play. Like an illustration that uses an exploded view of an object to show how it works, this book uses an unprecedented design to deconstruct the Suez crisis. The story is broken down into three distinct phases. In each phase, the reader sees the issues as they were perceived by each country involved, taking into account different types of information and diverse characteristics of each leader and that leader's unique perspectives. Then, after each phase has been laid out, editorial observations invite the reader to consider the interplay. Developed by an unusual group of veteran policy practitioners and historians working as a team, *Suez Deconstructed* is not just a fresh way to understand the history of a major world crisis. Whether one's primary interest is statecraft or history, this study provides a fascinating step-by-step experience, repeatedly shifting from one viewpoint to another. At each stage, readers can gain rare experience in the way these very human leaders sized up their situations, defined and redefined their problems, improvised diplomatic or military solutions, sought ways to influence each other, and tried to change the course of history.

The President Is at Camp David W. Dale Nelson, 2000-04-01 In this text, W. Dale Nelson chronicles the genesis and development of the position of the White House press secretary during the 20th century. He also covers each administration in detail using newspaper archival and interview sources.

Western Foreign Policy and the Middle East Christian Kaunert, Sarah Leonard, Lars Berger, Gaynor Johnson, 2017-10-02 This book examines Western foreign policy towards the Middle East and the extent to which the promotion of democracy has been in conflict with or supported by other goals: geo-strategic, economic, and cultural. In the policies of the major actors towards the Middle East, does the Arab Spring provide a new opening for cooperation with the region? Contributions are offered by scholars with research interests in Middle Eastern politics and by those analysing the policies and interests of external actors. Against the backdrop of the recent War on Terror, the comparative and interdisciplinary outlook of the book will offer the opportunity for much-needed intellectual exchanges between political scientists, contemporary historians, and international relations scholars from Europe, North America, and the Middle East. Since it coincides with and/or follows the final phases of US and British withdrawal from Iraq and Afghanistan, this book will be highly relevant to both academics and policy makers in the UK and abroad, making a significant contribution not only to the scholarly investigation of Western foreign policies but also to the study of the Middle East in general. This book was originally published as a special issue of the *Cambridge Review of International Affairs*.

Partners in Command Mark Perry, 2007 A military analyst delivers a revelatory account of the remarkable evolving relationship forged between George Marshall and Dwight Eisenhower during World War II and into the Cold War.

The Official History of the UK Strategic Nuclear Deterrent Matthew Jones, 2017-05-12 Volume I of *The Official History of the UK Strategic Nuclear Deterrent* provides an authoritative and in-depth examination of the British

Government's strategy towards nuclear deterrent from 1945 to 1964 This volume written with full access to the UK documentary record examines the strategic nuclear policy of British governments after 1945 as they tried to build and then maintain an independent nationally controlled strategic capability while also attempting to forge a close nuclear relationship with the United States This book will be of much interest to students of British politics nuclear proliferation and international relations

Cooperation among Democracies Thomas Risse-Kappen, 2020-12-08 In exploring the special nature of alliances among democracies Thomas Risse Kappen argues that the West European and Canadian allies exerted greater influence on American foreign policy during the Cold War than most analysts assume In so doing he challenges traditional alliance theories that emphasize strategic interactions and power based bargaining processes For a better understanding of the transatlantic relationship the author proposes that we instead turn to liberal theories of international affairs Accordingly liberal democracies are likely to form the pacific federations described by Immanuel Kant or pluralistic security communities as Karl W Deutsch suggested Through detailed case studies Risse Kappen shows that the Europeans affected security decisions concerning vital U S interest during the 1950 1953 Korean war the 1958 1963 test ban negotiations and the 1962 Cuban missile crisis all during a span of time in which the U S enjoyed undisputed economic and military supremacy in the alliance He situates these case studies within a theoretical framework demonstrating that the European influence on decision making processes in Washington worked through three mechanisms norms prescribing timely consultations among the allies use of domestic pressures for leverage in transatlantic interactions and transnational and transgovernmental coalitions among societal and bureaucratic actors The book's findings have important repercussions for the post Cold War era in that they suggest the transatlantic security community is likely to survive the end of the Soviet threat

Anglo-American Relations in the Twentieth Century Ritchie Ovendale, 1998-10-30 A critique of Anglo American relations in the twentieth century in the light of the most recent research It challenges many existing interpretations and argues that the basis of the Anglo American special relationship was laid by Roosevelt and Chamberlain that Roosevelt preferred Stalin to Churchill and that the origins of the Cold War should be seen as a British education of the Americans to the Soviet threat Suez is reassessed following the recent release of material in the Eisenhower Library There is a consideration of the relationship of mutual interdependence and why Wilson and Heath chose to move instead towards the European connection as well as Mrs Thatcher's reasons for preferring the Atlantic alliance

Eisenhower's New-Look National Security Policy, 1953-61 S. Dockrill, 1996-05-21 The New Look sought to formulate a more selective and flexible response to Communist challenges The New Look was not simply a bigger bang for a buck nor merely a device for achieving a balanced budget nor did it amount solely to a strategy of massive retaliation as is commonly assumed Dr Dockrill's incisive revisionist analysis of the subject throws new light on US ambitious global strategy during the Eisenhower years

The Middle East Between the Great Powers T. Petersen, 2000-05-26 Anglo American rivalry in Egypt Iran and the Persian Gulf in the period 1952 to 1957

represented the transfer of power in the Middle East from Great Britain to the United States As Britain's influence in Egypt and Iran declined its determination to hold on to the Persian Gulf increased at one point threatening to kill any Americans found in the hotly contested Buraimi oasis The episode is little examined by historians but played a large role in the ensuing Suez crisis

British Railways 1948-73 T. R. Gourvish, N. Blake, 1986 Originally published in 1986 this is a business history of the first twenty five years of nationalised railways in Britain Commissioned by the British Railways Board and based on the Board's extensive archives it fully analyses the dynamics of nationalised industry management and the complexities of the vital relationship with government After exploring the origins of nationalisation the book deals with the organisation financial performance investment and commercial policies of the British Transport Commission 1948-2 Railway Executive 1948-53 and British Railways Board 1963-73 Calculations of profit and loss investment and productivity are provided on a consistent basis for 1948-73 This business history thus represents a major contribution not only to the debate about the role of the railways in a modern economy but also to that concerning the nationalised industries which have proved to be one of the most enduring problems of the British economy since the war

Having it So Good Peter Hennessy, 2007-05-03 Winner of the Orwell Prize for Political Writing Peter Hennessy's *Having it So Good* Britain in the Fifties captures Britain in an extraordinary decade emerging from the shadow of war into growing affluence The 1950s was the decade in which Roger Bannister ran the four minute mile Bill Haley released *Rock Around the Clock* rationing ended and Britain embarked on the traumatic disastrous Suez War In this highly enjoyable original book Peter Hennessy takes his readers into front rooms classrooms cabinet rooms and the new high street coffee bars of Britain to recapture as no previous history has the feel the flavour and the politics of this extraordinary time of change Utterly engaging a treat It breathes exhilaration Libby Purves *The Times* If the Gods gossip this is how it would sound Philip Ziegler *Spectator* Books of the Year A particular treat fine wise and meticulously researched Andrew Marr *Stands clear of the field* as our best narrative history of this decisive decade Peter Clarke *Sunday Times* A compelling narrative Hennessy's love of the flesh and blood of politics breathes on every page Tim Gardam *Observer* The late Ben Pimlott once described Hennessy as something of a national institution You can forget the first two of those five words *Guardian*
