peace be upon him and the four rightly guided Caliphs **The creator book** Muhammad Usman,2025-08-19 This book is a journey through the wonders of creation where Islam mathematics and science meet in harmony It explores how divine wisdom is reflected in numbers patterns and geometry the very language of the universe From the rhythm of celestial bodies to the symmetry of plants and animals from the colours that paint the natural world to the structure of the human being each section connects knowledge with reflection The History and Anatomy of Auctorial Self-Criticism in the European Middle Ages Anita Obermeier,2023-12-28 This study outlines the history and anatomy of the European apology tradition from the sixth century BCE to 1500 for the first time The study examines the vernacular and Latin tales lyrics epics and prose compositions of Arabic English French German Greek Icelandic Italian Spanish and Welsh authors Three different strands of the apology tradition can be proposed The first and most pervasive strand features apologies to pagan deities and later to God The second most important strand contains literary apologies made to an earthly audience usually of women A third strand occurs more rarely and contains apologies for varying literary offenses that are directed to a more general audience The medieval theory of language privileges an imitation of the Christian master narrative and a hierarchical medieval view of authorship These notions express a medieval philosophical concern about language and its role and therefore the role of the author in cosmic history Despite the fact that women apologize for different purposes and reasons their examples illustrate on yet another level the antifeminist subtext inherent in the entire apology tradition Overall the apology tradition characterized by interauctoriality intertextuality and intratextuality enables self critical authors to refer not only backward but also primarily forward making the medieval apology a progressive strategy that engenders new literature This study would be relevant to all medievalists especially those interested in literature and the history of ideas
