The Hazing Reader Hank Nuwer, 2004-01-29 Despite numerous highly publicized incidents and widespread calls for reform hazing continues to plague many of the nation's institutions In this volume noted hazing researcher Hank Nuwer presents 15 essays that can help all of us parent and professional alike better understand the culture of hazing

Men, Militarism, and UN Peacekeeping Sandra Whitworth, 2004 In this important controversial and at times troubling book Sandra Whitworth looks behind the rhetoric to investigate from a feminist perspective some of the realities of military intervention under the UN flag Whitworth contends that there is a fundamental contradiction between portrayals of peacekeeping as altruistic and benign and the militarized masculinity that underpins the group identity of soldiers Examining evidence from Cambodia and Somalia she argues that sexual and other crimes can be seen as expressions of a violent hypermasculinity that is congruent with militarized identities but entirely incongruent with missions aimed at maintaining peace She also asserts that recent efforts within the UN to address gender issues in peacekeeping operations have failed because they fail to challenge traditional understandings of militaries conflict and women This unsettling critique of UN operations which also investigates the interplay between gender and racial stereotyping in peacekeeping has the power to change conventional perceptions with considerable policy implications

The Insubordinate and the Noncompliant Howard Coombs, 2008-03-28 *The Unwilling and the Reluctant Theoretical Perspectives on Disobedience in the Military and The Apathetic and the Defiant Case Studies of Canadian Mutiny and Disobedience* 1812 1919 are the first two volumes in a series devoted to disobedience issues in the Canadian military Now with *The Insubordinate and the Noncompliant* the trilogy is complete Military leadership has both formal and informal dimensions The formal leadership of any organization must ensure that it minimizes the divergence between institutional aims and the actions of informal leaders When this separation occurs the result is sometimes mutiny These incidents of insubordination and noncompliance represent a form of dialogue between military personnel and their leadership *The Insubordinate and the Noncompliant* offers a perspective on the Canadian experience with military mutiny in the twentieth century in an effort to provide relevant lessons for today

Military Operations and the Mind Stéphanie A.H. Bélanger, Daniel Lagacé-Roy, 2016-06-01 Offering a Canadian perspective on the emotional health of servicemen and women *Military Operations and the Mind* brings together researchers and practitioners from across the country to consider the impact that ethical issues have on the well being of those who serve. Stemming from an initiative to enhance the lives of serving members by providing them with the best education and training in military ethics before and after deployments this volume will better inform politics and public policies and enhance the welfare of the soldiers sailors and airmen and women who serve in singular often harsh and sometimes dangerous conditions. By integrating into the analysis the critical issue of well being this emerging field demonstrates a more holistic approach and is distinct from other fields in military historical philosophical and behavioural studies. The first study of its kind *Military Operations and the Mind* presents a new and helpful way to focus on the life of soldiers not only in operations overseas but also once they return home. Another Kind of Justice Chris Madsen, 2011-11-01 *Another Kind of Justice* is the first historical survey of Canadian military law providing insights into military justice in Canada the purpose of military law and the level of legal professionalism within the Canadian military. Drawing on a wide range of materials Chris Madsen traces the development of military law from 1867 to 1997. After delving into the British roots of Canadian military law he brings his discussion up to date with analysis of recent sexual discrimination cases and the Somalia inquiry. He explains how the law has served a strictly functional purpose in maintaining discipline and demonstrates how it claims its legitimacy and distinct status in relation to civil law. It becomes clear that military law has responded to pragmatic needs in a reactive rather than a planned manner. *Another Kind of Justice* describes the statutes and regulations that govern Canada's armed forces the institutions responsible for overseeing military law and how knowledge about military law is disseminated. Madsen concludes that longstanding organizational problems and training deficiencies bear some of the responsibility for the unfortunate behaviour of Canadian soldiers in Somalia.

Dark Threats and White Knights Sherene Razack, 2004-12-15 Somalia March 4 1993 Two Somalis are shot in the back by Canadian peacekeepers one fatally. Barely two weeks later sixteen year old Shidane Abukar Arone is tortured to death. Dozens of Canadian soldiers look on or know of the torture. The first reports of what became known in Canada as the Somalia Affair challenged national claims to a special expertise in peacekeeping and to

a society free of racism Today however despite a national inquiry into the deployment of troops to Somalia what most Canadians are likely to associate with peacekeeping is the nation's glorious role as peacekeeper to the world Moments of peacekeeping violence are attributed to a few bad apples bad generals and a rogue regiment In *Dark Threats and White Knights* Sherene H Razack explores the racism implicit in the Somalia Affair and what it has to do with modern peacekeeping Examining the records of military trials and the public inquiry Razack weaves together two threads that of the violence itself and what would drive men to commit such atrocities and secondly the ways in which peacekeeping violence is largely forgiven and ultimately forgotten Race disappears from public memory and what is installed in its place is a story about an innocent morally superior middle power nation obliged to discipline and sort out barbaric third world nations Modern peacekeeping Razack concludes maintains a colour line between a family of white nations constructed as civilized and a third world constructed as a dark threat a world in which violence is not only condoned but seen as necessary

Scarce Heard Amid the Guns John Conrad, 2011-09-15 *Scarce Heard Amid the Guns* tears the curtain of myth away providing a rare visceral inner perspective of the various Canadian peacekeeping missions In the Service of Peace simple words that adorn the obverse of every United Nations medal yet behind this eloquence lurks violence and an unheralded heroism invisible to an often misunderstood quarter of Canada's military history The Canadian contribution to peacekeeping is enormous but ensnared in a lethal mythology that has seen it abandoned to popular folklore From the early and intrinsic Canadian contribution to the U N Emergency Force in 1956 through the blur of the frenetic 1990s down to the anemic level of contemporary Canadian participation it is difficult to make sense of the wide circumference of this significant legacy Until now *Scarce Heard Amid the Guns* provides an incisive perspective on the various Canadian missions their omnipresent doubt and untelegraphed terrors This insider's guided tour of our military at war in peace introduces us to some of the men and women who carried the day ordinary Canadians who did extraordinary things and continue to bear the scars of forgotten fields in their bones

Military Interventions, War Crimes, and Protecting Civilians Christi Siver, 2018-04-10 War crimes have devastating effects on victims and perpetrators and endanger broader political and military goals The protection of civilians one of the most fundamental norms in the laws of war appears to have weakened despite almost universal international agreement Using insights from organizational theory this book seeks to understand the process between military socialization and unit participation in war crimes How do militaries train their soldiers in the laws of war How do they enforce compliance with these laws Drawing on evidence from the Korean War the Malayan Emergency and the Canadian peacekeeping mission in Somalia the author discovers that military efforts to train soldiers about the laws of war are poor and leadership often sent mixed signals about the importance of compliance However units that developed subcultures that embraced these laws and had strong leadership were more likely to comply than those with weak discipline or countercultural norms

Forced to Change Bernd Horn, Dr. Bill Bentley, 2015-03-28 Undeniably the 1990s were a

period of crisis for the Canadian Armed Forces CAF Drastic budget reductions and a series of endless scandals all collided to form the perfect storm The outcome of this was nothing short of the implosion of the Canadian Armed Forces Officer Corps Stripped by the government of the right to regulate itself the Officer Corps which represented the nation s stewards of the profession of arms was forced to reform itself Key to this transformation was education However the road was not easy as cultural change rarely is Forced to Change tells the story of how the Canadian Armed Forces found itself at its lowest point in history and how it managed to reform itself The question is whether it was a fundamental transformation or just a temporary adjustment to weather the storm The First Casualty Deborah Harrison, Lucie Laliberté, 2002-05-17 Military wives are

among the women most vulnerable to abuse in our society isolated from friends and family in a culture that ostracizes those who speak up they face desperate financial circumstances and lack professional support in times of crisis Deborah Harrison and her collaborators interview more than 100 survivors of abuse and their partners in this groundbreaking study of violence against women in military communities Despite a policy of zero tolerance abusive behaviour continues fostered by a culture centred on constant preparation for violent conflict and covered up by an ethos that demands members protect one another at all costs The First Casualty is a riveting account of how military culture contributes to abuse keeps it secret and attempts to silence its victims **Forensic Chemistry** Michael Grossman, 2021-12-20 FORENSIC CHEMISTRY FUNDAMENTALS

University of Toronto Scarborough **From Cold War to New Millennium** Bernd Horn, 2011-05-27 Companion vol to Establishing a legacy The Moral Dimension of Asymmetrical Warfare Th.A. van Baarda, D.E.M. Verweij, 2009-06-30 During the Cold War an era in which the term asymmetric warfare was not well known the issue of the laws and ethics of war seemed simple enough to most soldiers being concerned mainly with leadership management and morale Post Cold War reality revealed a very different set of challenges including a significantly wider moral dimension particularly when forces initially under UN leadership and later under the NATO flag were deployed in different parts of the turbulent Balkans Military observers by now with legal advisers close by watched events in the Balkans East Timor and then in central and West Africa with professional interest and some were involved there A few years later soldiers were subsequently caught as much by surprise by the events of 9 11 a graphic example of asymmetric warfare as most of the rest of the world The initial post 9 11 response in Afghanistan and Iraq brought the notion of the fragile or collapsed state and the blurring of the roles of military forces international organisations non governmental organisations non state actors and indigenous administrators and their uniformed organisations and with them the moral dilemmas to much wider notice More recent conflicts have indeed shown the need for commanders and soldiers in all types of conflict to have a much better understanding of the complex moral and legal environments and opened new debates about the principle of winning hearts and minds in counter insurgency and peace support operations Moreover technological superiority by the West has also produced mixed benefits in the field of military operations and posed additional dilemmas many of them moral The trend towards defining human rights and fundamental freedoms poses further questions for the soldier today This collection of essays written by a wide variety of practising experts and scholars touches on all these issues It links the medieval traditions of jus in bello codified by Saint Thomas Aquinas in the Christian Church nearly eight centuries ago to examination of modern challenges and moral dilemmas relating to the ethics and laws of conflict and crises of all types in the twenty first century and in a global context among people of many different faiths and beliefs and none It is an important collection for all those researching or practically involved in conflict and post conflict situations **Canada's Army** J.L.
