The Margaret Mitchell Encyclopedia Anita Price Davis, 2014-01-10 Atlanta writer Margaret Mitchell (1900-1949) wrote *Gone with the Wind* (1936), one of the best-selling novels of all time. The Pulitzer Prize-winning novel was the basis of the 1939 film, the first movie to win more than five Academy Awards. Margaret Mitchell did not publish another novel after *Gone with the Wind*. Supporting the troops during World War II, assisting African American students financially, serving in the American Red Cross, selling stamps and bonds, and helping others usually anonymously consumed her. This book reveals little-known facts about this altruistic woman. The Margaret Mitchell Encyclopedia documents Mitchell's work, her life, her impact on Atlanta, the city's memorials to her, her residences, details of her death, information about her family, the establishment of the Margaret Mitchell House against great odds, and her relationships with the Daughters of the Confederacy and the Junior League. **Fan's Guide to Gone With The Wind eBook Bundle** Taylor Trade Publishing, 2014-12-03 For fans of *Gone*

The Copywrights Paul K. Saint-Amour, 2011-02-23 They borrow from published works without attribution They remake literary creation in the image of consumption They celebrate the art of scissors and paste Who are these outlaws Postmodern culture jammers or file sharing teens No they are the Copywrights Victorian and modernist writers among them Oscar Wilde and James Joyce whose work wrestled with the intellectual property laws of their day In a highly readable and thought provoking book that places today's copyright wars in historical context Paul K Saint Amour asks Would their art have survived the copyright laws of the new millennium Revisiting major works by Wilde and Joyce as well as centos assembled by anonymous writers from existing poems Saint Amour sees the period 1830 1930 as a time when imaginative literature became aware of its own status as intellectual property and began to register that awareness in its subjects plots and formal architecture The authors of these self reflexive literary texts were more conscious than their precursors of the role played by consumption in both the composition and the consecration of literature The texts in question became in turn part of what Saint Amour characterizes as a counterdiscourse to extensive monopoly copyright a vocal minority that insisted on a broadly conceived public domain not only as indispensable to free expression and fresh creation but as a good in itself Recent events such as the court battle over the Copyright Term Extension Act CTEA which extends copyright terms by 20 years the patenting of the human genome and of genetically altered seed lines and high stakes

controversies over literary parody have increased public awareness of intellectual property law In *The Copyrights Saint* Amour challenges the notion that copyright's function ends with the provision of private incentives to creation and innovation The cases he examines lead him to argue that copyright performs a range of political emotional and even sacred functions that are too often ignored and that what seems to have emerged as copyright's primary function the creation of private property incentives must not be an end in itself
