Barbara Comber,2015-07-30 How can teachers ensure a pedagogy of possibility underpinned by social justice and what has
literacy got to do with this This book explores the positive synergies between critical literacy and place conscious pedagogy
Through rich classroom research it introduces and demonstrates how a synthesis of insights from theories of space and place
and literacy studies can underpin the design and enactment of culturally inclusive curriculum for diverse student
communities and illustrates how making place and space the objects of study provide productive resources for teachers to
design enabling pedagogical practices that extend students literate repertoires The argument is that systematic study of and
engagement with specific elements of place can enable students academic learning and literacy Literacy Place and
Pedagogies of Possibility is informed by critical literacy place conscious pedagogy and spatial theory is richly illustrated with
examples from classroom research including teacher and student artifacts provides new directions for classroom practice in
