Graziosi, 2018-09-20 Tombs of the Ancient Poets explores the ways in which the tombs of the ancient poets real or imagined act as crucial sites for the reception of Greek and Latin poetry Drawing together a range of examples it makes a distinctive contribution to the study of literary reception by focusing on the materiality of the body and the tomb and the ways in which they mediate the relationship between classical poetry and its readers From the tomb of the boy poet Quintus Sulpicius Maximus which preserves his prize winning poetry carved on the tombstone itself to the modern votive offerings left at the so called Tomb of Virgil from the doomed tomb hunting of long lost poets graves to the graveyard of the imagination constructed in Hellenistic poetry collections the essays collected here explore the position of ancient poets tombs in the cultural imagination and demonstrate the rich variety of ways in which they exemplify an essential mode of the reception of ancient poetry poised as they are between literary reception and material culture      The Academy, 1893      The Cambridge Guide to Women's Writing in English Lorna Sage, 1999-09-30 This Guide aims to consolidate and epitomise the re-reading of women's writing that has gone on in the last twenty five years This is an opportunity for stock taking a timely project when so much writing has been rediscovered reclaimed and republished There are entries on writers on individual texts and on general terms genres and movements all printed in a single alphabetical sequence The earliest written documents in medieval English the visionary writings of Julian of Norwich and Margery Kempe are covered in an historical and geographical sweep that takes us up to the present day The book reflects the spread of literacy the history of colonisation and the development of post colonial cultures using and changing the English language The entries are written by contributors from all the countries covered The result is a work of reference with a unique feeling for the vitality wealth and diversity of women's writing      **Major Poems of the Hebrew Bible** Jan Fokkelman, 2018-07-17 This book presents a

comprehensive discussion of three famous poems which are studied as works of art A full description of their prosodic regularity as well as the variations on it is given and goes hand in hand with a detailed structural analysis of the lower and higher textual units Great care is taken to find the correct delimitation of cola half verses verses strophes and stanzas and in the case of Deut 32 of its four big sections after which all things fall into place The articulation of the higher units underpins the discursive or argumentative structure of Deut 32 and Job 3 and is a solid basis for an interpretation that tries to honour

the thematic developments in these songs In the case of Ex 15 of which the stanzaic division is already known the attention shifts to the lower levels The contours and rhythms of its short cola and its verses and strophes are studied and accounted for The chapter on Job 3 has a special feature The count of premasoretic syllables is shown to be an essential part of the numerical perfection of this poem A major point of departure for this book which is corroborated by its results is that these poems are so complex read of such many layered significance that they cannot be given their due by a simple set of techniques or fixed canon of interpretive procedures This poetry requires a flexible approach which tries to cover the full range of its brilliant usage of language style and structure

**Wine, Women, & Death** Raymond P. **The Question of Meter in Biblical Hebrew Poetry** Donald R. Vance, 2001 In a revision of his 1997 doctoral thesis for the Iliff School of Theology Vance biblical languages and literature Oral Roberts U contributes to the long debate about the meter of poetry in the Bible and what if any relationship it has to classical Hebrew poetry as it is found in the Hebrew Bible He argues that none of the metrical theories proposed has been thoroughly tested against the entire corpus of Hebrew poetic texts relying instead on sampling and extrapolation He reviews those theories beginning with that of Philo of Alexandria by categories such as quantitative accentual and syllabic Then he analyzes the meter of selected texts particularly from Lamentations and Psalms He indexes only ancient and modern authors

*The Kojiki* Basil Hall Chamberlain, Of all the mass of Japanese literature which lies before us as the result of nearly twelve centuries of book making the most important Monument is the work entitled Ko ji ki1 or Records of Ancient Matters which was completed in A D 712 It is the most important because it has preserved for us more faithfully than any other book the mythology the manners the language and the traditional history of Ancient Japan Indeed it is the earliest authentic connected literary product of that large division of the human race which has been variously denominated Turanian Scythian and Altaic and it even precedes by at least a century the most ancient extant literary compositions of non Aryan India Soon after the date of its compilation most of the salient features of distinctive Japanese nationality were buried under a superincumbent mass of Chinese culture and it is to these Records and to a very small number of other ancient works such as the poems of the Collection of a Myriad Leaves and the Shint Rituals that the investigator must look if he would not at every step be misled in attributing originality to modern customs and ideas which have simply been borrowed wholesale from the neighbouring continent It is of course not pretended that even these Records are untouched by Chinese influence that influence is patent in the very characters with which the text is written But the

influence is less and of another kind If in the traditions preserved and in the customs alluded to we detect the Early Japanese in the act of borrowing from China and perhaps even from India there is at least on our author's part no ostentatious decking out in Chinese trappings of what he believed to be original matter after the fashion of the writers who immediately succeeded him It is true that this abstinence on his part makes his compilation less pleasant to the ordinary native taste than that of subsequent historians who put fine Chinese phrases into the mouths of emperors and heroes supposed to have lived before the time when intercourse with China began But the European student who reads all such books not as a pastime but in order to search for facts will prefer the more genuine composition It is also accorded the first place by the most learned of the native literati Of late years this paramount importance of the Records of Ancient Matters to investigators of Japanese subjects generally has become well known to European scholars and even versions of a few passages are to be found scattered through the pages of their writings Thus Mr Aston has given us in the Chrestomathy appended to his Grammar of the Japanese Written Language a couple of interesting extracts Mr Satow has illustrated by occasional extracts his elaborate papers on the Shint Rituals printed in these Transactions and a remarkable essay by Mr Kempermann published in the Fourth Number of the Mittheilungen der Deutschen Gesellschaft f r Natur und V lkerkunde Ostasiens though containing no actual translations bases on the account given in the Records some conjectures regarding the origines of Japanese civilization which are fully substantiated by more minute research All that has yet appeared in any European language does not however amount to one twentieth part of the whole and the most erroneous views of the style and scope of the book and its contents have found their way into popular works on Japan It is hoped that the true nature of the book and also the true nature of the traditions customs and ideas of the Early Japanese will be made clearer by the present translation the object of which is to give the entire work in a continuous English version and thus to furnish the European student with a text to quote from or at least to use as a guide in consulting the original The only object aimed at has been a rigid and literal conformity with the Japanese text Fortunately for this endeavour though less fortunately for the student one of the difficulties which often beset the translator of an Oriental classic is absent in the present case There is no beauty of style to preserve some trace of which he may be tempted to sacrifice a certain amount of accuracy The Records sound queer and bald in Japanese as will be noticed further on and it is therefore right even from a stylistic point of view that they should sound bald and queer in English The only portions of the text which from obvious reasons refuse to lend themselves to translation into English after this fashion are the indecent portions But it has been thought that there could be no objection to rendering them into Latin Latin as rigidly literal as is the English of the greater part
