**A Phenomenology of Pentecostal Leadership** Truls Akerlund, 2018-06-18 While books on famous and infamous Pentecostal leaders abound the corpus of research on Pentecostal leadership is sparse This is unfortunate as strong and innovative leadership has been instrumental for the exceptional growth of the movement and for countless examples of abusive behaviors in Pentecostal congregations To promote effective leadership while avoiding the destructive effects of autocratic leaders it is necessary to better understand the dynamics of leadership within Pentecostalism This is the purpose of the book and Truls Akerlund fills a gap in the present knowledge on Pentecostal leadership first by discussing the extant literature on the topic and then by exploring the meaning of such leadership through a phenomenological analysis of the experiences of pastors in Pentecostal congregations The author describes a general structure of Pentecostal leadership with essential characteristics of the phenomenon locates Pentecostal leadership within the broader streams of organizational and religious leadership research and points out crucial discussions and implications to be addressed in Pentecostal organizations

*The Concept of Unity in Public International Law* Mario Prost, 2012-03-15 Fragmentation has become a defining albeit controversial metaphor of international law scholarship in the era of globalisation Some scholars see it as a new development others as history repeating itself some approach it as a technical issue and some as the reflection of deeper political struggles But there is near consensus about the fact that the established vision of international law as a unitary whole is under threat At the core of the fragmentation debate lies the concept of unity but this is hardly ever rationalised and is more assumed than explained Its meaning remains vague and intuitive *The Concept of Unity in Public International Law* attempts to dispel that vagueness by exploring the various possible meanings of the concept of unity in international law However eschewing one grand theory of unity it identifies and compares five candidates Intentionally pluralistic in its outlook the book does not engage in normative arguments about whether international law is or should be unitary but seeks to show instead that the concept of unity is contested and that discourses on fragmentation are necessarily contingent The thesis on which the book is based won the 2009 Prize for best doctoral thesis from the Association des professeurs de droit du Qu bec

**Phenomenology in French Philosophy: Early Encounters** Christian Dupont, 2013-11-20 This work investigates the early encounters of French philosophers and religious thinkers with the phenomenological philosophy of Edmund Husserl Following an introductory chapter addressing context and

methodology Chapter 2 argues that Henri Bergson's insights into lived duration and intuition and Maurice Blondel's genetic description of action functioned as essential precursors to the French reception of phenomenology Chapter 3 details the presentations of Husserl and his followers by three successive pairs of French academic philosophers Léon Noë and Victor Delbos Lev Shestov and Jean Hering and Bernard Groethuysen and Georges Gurwitsch Chapter 4 then explores the appropriation of Bergsonian and Blondelian phenomenological insights by Catholic theologians douard Le Roy and Pierre Rousselot Chapter 5 examines applications and critiques of phenomenology by French religious philosophers including Jean Hering Joseph Mar chal and neo Thomists like Jacques Maritain A concluding chapter expounds the principal finding that philosophical and theological receptions of phenomenology in France prior to 1939 proceeded independently due to differences in how Bergson and Blondel were perceived by French philosophers and religious thinkers and their respective orientations to the Cartesian and Aristotelian Thomist intellectual traditions
