Show Us The Money The Politics And Proceh Of Alternative Budgets:

Show Us the Money! Canadian Centre for Policy Alternatives, Choices (Association), 1998 We all know the state takes money from the workers and gives most of it to the rich Here is a model for creating alternative budgets useful as organizing tools to create visions and movements towards different social and economic arrangements *Alternative Budgets* John Loxley, Canadian Centre for Policy Alternatives, 2003 Alternative budgets are presented as a method of political mobilization that advances fiscally responsible government allocation of resources in this treatise on the enlightened alternatives to the neoconservative agenda of slashing social services The basics of budgeting the technical and political contexts of budgeting and the relationship between budget legislation and fiscal constraints on governments are among the issues discussed to make the more esoteric aspects of budgeting understandable A budget that emphasizes the needs of poor people women and the environment is outlined with information on how to construct alternative budgets analyze the possibilities of government funding and mobilize political activists to propose clear affordable alternatives to neoliberal government cutbacks

Universities for Sale Neil Tudiver, Canadian Association of University Teachers, 1999 In the 1990s Canadian universities experienced an aggressive campaign of corporatization Universities for Sale offers suggestions on how to resist corporatization Neil Tudiver shows how scholarly independence has in recent years been eroded to a point of crisis Left unchecked corporations play a larger and larger role in deciding which fields of study survive and which will disappear He looks at how professors defend free inquiry against the pressures of economic expediency Universities for Sale is a penetrating analysis of the ongoing issue of corporate influence on Canada s universities *Progress of the World's Women* Diane Elson, 2000 This report contains an impressive list of tables and charts on aspects of empowerment of women e g share of seats in national parliaments 1987 2000 changes in wages secondary enrolment ratios etc **Constitutional**

Globalization, Neo-conservative Policies, and Democratic Alternatives John Loxley, 2005 Over the course of the last two decades governments around the world implemented a fundamental shift in the mainstream economic policy and ushered in a period of globalization These changes which are commonly known as neo conservative were resisted by a range of social forces from workers to farmers in the universities and on the streets With its diverse international perspectives of globalization and formulations of alternative economic policies this volume of essays responds to and posits alternatives for the uncreative and unjust policy decisions of world governments that negatively affect the welfare of the world s indigent people This book s unifying theme is the principle of social justice that motivates Loxley s life and work Loxley an economist is perhaps best known for his work in South Africa as an advisor to Nelson Mandela during the transition from apartheid and with First Nations communities in his native Canada Many of the 19 essays explore the impact of globalization on the

developing world particularly Africa A comprehensive and expansive exploration of the global impact of neo conservative economic policies from an internationally diverse group of scholarly voices Canadian Books in Print ,2003 Cost, Management, and Utilization of Human Resources Program Evaluation, 1977 United States. Congress. Senate. Committee on Human Resources,1978 *Congressional Record* United States. Congress,2002 **EU development assistance** Great Britain: Parliament: House of Commons: International Development Committee,2012-04-27 The UK spends approximately 1 23 billion each year on aid through the European Union approximately 16% of the UK s total aid budget Only 46% of this aid however goes to low income countries a figure that MPs say is unacceptable Instead middle income countries bordering Europe are benefiting Turkey has consistently been in the top five recipients of European Commission aid 223 million euros in 2010 as has Serbia euros 218 million in 2010 The Committee is calling on the UK Government to press for funding to be diverted away from higher middle income countries bordering Europe to give greater help to the poorest people in the world In order to make this happen the MPs say Ministers must challenge and change the definition of Official Development Assistance ODA It appears to be being used as a way of fudging the figures to help other European countries meet the target for 0 7% of GDP to be given as aid The Committee recognises that there are a number of advantages to giving aid through the EU but identifies a number of problems with the way EU Development Assistance works Overall the European Commission has improved its performance over the last decade and has recently proposed further improvements to development policy in An Agenda for Change The Committee supports a number of these proposed changes but it does have concerns that conditionality should not hurt the poor for the sins of their governments **The President's Economic Plan** United States.
